REPUBLICAN STATE TICKET.

FOR CONGRESSMAN-AT-LARGE,
GALTESHA A. GROW,
OF Susquehanna.
SAMUEL A. DAYENPORT,
OF Erie

There is a rumor that Mark Hanna is using cottonseed oil instead of fat among the Southern delegates to the St. Louis convention.

SENATOR TILLER solemnly predicts that "the St. Louis convention will declare for the gold standard." The indications do, indeed, point that way.

We should not overlook the fact that J. Donald Cameron was not selected as a delegate to the national convention. For this all Republicans should, and no doubt are, thankful.

When a Girardville man told his wife that he was glad there was no marrying in heaven, and she replied that of course there would not be, as there would be but few men there, a far-off look came into his eyes and he dropped the subject with a dull thud.

The Massachusetts Democratic platform places the responsibility for hard times on the last Republican administration. This is not claiming much for Democratic ability. A party that can not take hold of hard times and restore prosperity will be bounced, and bounced hard, by the American people.

PROF. JOHN FISKE predicts that a great religious revival will come surpassing even that of the thirteenth century, the era of great cathedral building. His theory is that a period of skepticism is succeeded by one of faith. Men like Huxley and Ingersoll are also to be regarded as missionaries, and indirectly useful to the growth of the church.

THE MACADON Tidings is putting up a fight against the re-election of G. V. Weiss as Superintendent of the Schuylkill county schools. It refers to him as "that magnificent hunting and all-around political fakir, G. V. Weiss." The Tidings charges Mr. Weiss with distributing certificates for political favors. The election takes place next Tuesday, and as the time draws nearer it is evident that Prof. J. W. Gogger will be the next county superintendent.

WHILE there is doubt as to who will be the presidential nominee at St. Louis, there are two questions of greater importance to the people of Shenandoah that are also shrouded with doubt. We refer to the Superintendent of the borough schools and the Water & Sewerage Commissioner. The Republicans control both the Council and School Board, and as a natural consequence the appointments should be selected from that party's ranks. Even the Democrats will concede that to the victors belong the spoils. However, who the successful candidates will be appears to be a matter of doubt, at this writing.

DR. H. F. CARROLL, writing to the Forum, says that by comparing the ratio of increase of communicants with that of the population of the country, we find that the percentage of increase in population for the decade ending in 1890 was 24.56. Supposing it to be half of this for the past five years, we have a population of 70,400,000, which is manifestly an exaggeration. It is hardly possible that, with the decreased immigration of the first three or four years of the present decade, the percentage of increase of the previous decade has been maintained; but, conceding that it has, and that the rate is 12.28, we find this is far below that of the churches. Their growth since 1890 has been at the rate of between 19 and 29 per cent. This corresponds to the rate of increase which the leading denominations reported for the decade ending in 1890. The rate for that period was 42 per cent., against the 24.56 per cent. representing the net increase of the population. It is clear from this that the churches are gaining on the population rapidly and steadily.

PREPARATIONS are being made by the local Grand Army Post, in conformity with the annual custom, for the observance of Memorial Day, on the 30th inst. Invitations have been issued to the various societies of town, and from the number that have already expressed willingness to participate the parade in town will be larger than usual. James P. Morrison, Assistant Adjutant General of the Grand Army of the Republic of Pennsylvania, has suggested to Governor Hastings the issuing of a proclamation asking not only that all people of the state refrain on Memorial Day, so far as possible, from the ordinary vocations of every day life, but that they join with the remnant of the great armies of the Union in paying homage to the memories of the deceased Union soldiers who participated in the War of the Rebellion. Ceremonies in educational institutions commemorative of Memorial Day is also suggested. The request is in accordance with a resolution unanimously adopted recently by the Grand Army Associations of Philadelphia and vicinity, representing 10,000 veteran soldiers, in which it is urged that the event be commemorated by solemn ceremonies, and that games and amusements be suspended. The Governor has taken no action on the latter indicated.

JACKSON'S CLEVER DEFENSE.

An Attempt to Prove That Miss Bryan Was Killed in Cincinnati.
NEWPORT, Ky., May 2.—The proceedings in the trial of Scott Jackson yesterday were less exciting than those of Thursday, yet the interest in it did not abate nor did the crowd of spectators diminish. This interest extends to the court house corridors and the neighboring streets and throngs them with people. There were fifty women in the court room yesterday. Morning, noon and night, as the prisoner passes between the court room and the jail, through, mostly women and children, gather to catch a glimpse of him. Last night there were nearly 200 in the crowd, including half a dozen infants in baby wagons.

The drift of the testimony for the defense disclosed a purpose to show that Pearl Bryan, though beheaded in Kentucky, was first killed in Cincinnati and then taken over to Kentucky and beheaded. This, if successful, would set the prisoner free, as he could not be tried for the same offense in Cincinnati. Manifestly the theory of the defense is that Pearl Bryan was chloroformed to death unintentionally in Cincinnati, and taken to Kentucky and beheaded to escape the penalty for such an accident. The testimony of Emalmer Abbott that he flushed the veins of Pearl Bryan's body before the autopsy and found a quart and a half of blood in them was to overthrow expert testimony of the prosecution that she must have been killed where found.

Early this week the defense put Scott Jackson's shoes in evidence. Yesterday afternoon David R. Lock, who was the fourth man to visit the scene of the murder, testified to seeing tracks from the pike to the spot where the girl lay, and back by another route to the pike again. The tracks were by number eight or nine shoes, perfectly new, and broad at the toe. He was shown Jackson's shoes, and said the tracks could not have been made by them.

Most of the afternoon was taken up by reading the deposition of colored men to prove that George H. Jackson, the colored cab driver, was in Cincinnati on Friday night, Jan. 31, and till 2 o'clock on Saturday, Feb. 1, the morning of the murder, and therefore could not have driven the cab to the scene.

"DR. MILES,"

Through His Nervine Is a Benefactor to Thousands."

A WIDELY known Wisconsin publisher, who resides at Green Bay, writes March 5th, 1895, as follows:

"Five years ago I became so nervous that mental work was a burden. I could not rest at night on account of sleeplessness. My attention was called to Dr. Miles' Restorative Nervine, and I commenced to use it with the very best effect. Since then I have kept a bottle in my house and use it whenever my nerves become unstrung, with always the same good results. My son also takes it for nervousness with like never failing success. I have recommended it to many and it cures them. All who suffer from nerve troubles should try it. It is free from narcotics, perfectly harmless, and yet soothes and strengthens.
