WE think Mr. Weiss has served his last term as County Superintendent of public schools. Fifteen years is sufficient for any one man, especially when there are others more capable and just as worthy.

THE next few years will see most of the printing presses of the United States run by electricity. The schoolbook trust is already equipping its printing establishments with electric power. Each press will be operated by individual motor.

BRAZIL MONARCHISTS BUSY Let The Whole World Know The Good Dr. Miles' Heart Cure Does

Itto be JANEIRO, May 4 .- The mon-archial movement in Brazil is beginning to take a very serious turn. Profiting by the general disorder which continues among the republicans by reason of for-eign and domestic troubles, the monarchists are picking up courage, and declare openly their latention to restore the mon-archy. As long ago as Nov. 15 last they made a considerable demonstration at Rio and at Son Deck. and at San Paulo in favor of restoration What adds to the gravity of the situation is that numerous officers of high rank in the army and navy, who have hitherto maintained their neutrality, have declared

maintained their nearrailty, lave decired openly for the monarchy. General Thomaz Ponpen, professor in the military school of Fortalez, a few days ago at a public meeting invited his pupils and colleagnes to join the monarchists. The republican journal Pais resarily de-manded that all soldiers and sailors above a certain rank declaire their faithfulness in the republic. Very few army officers to the republic. Very few army officers have responded, and many are suspected

of sympathy with the conspirators. The dispute over Trinidad Island with England, the troubles in Rio Grands Do England, the troubles in Rio Grands Do Sul, and the turbulent teadoncies of the Sul, and the turbinent teadencies of the Jacobinos, all serve to encourage the mon-archial conspirators in their campaign against the government. They have emissaries all over Brazil as well as the work they do through the press. Several new monarchist newspapers

have recently been started, and a number of the established journals do not hide their sympathy for the old imperial regime The actual situation in Brazil is considered serious.

#### The Scott Jackson Murder Trial.

NEWPORT, Ky., May 4 .- There is a possibility, if not a prospect, that the trial of Scott Jackson will consume all of the present week. If the defense gets its tes-timony all in by tomorrow or Wednesday noon it will do well. After the defense will come a number of weather the defense will come a number of witnesses brought by the prosecution for rebuttal. This will certainly consume one and a half or the arguments will consume. During the past week the defense has revealed its purpose to attack the testimony of at least two witnesses, if not three. One manifest hope of the defense is to establish a case of non tence of twelve years and two months' imprisonment in Belim prison. This case has been a notable one in the history of jurisdiction by showing that the murder was committed in Cincinnati by overdoing some treatment with chloroform or other Mexican jurisprudence, as Rowe, after committing the offense, came here and anasthetic, and that the body was afterwards taken to Kentucky and beheaded to
