and showed us a work which is being intro-duced in this county, with a request that we examine it. We are in a position every day to judge of books and reading matter, but we consider this book, entitled the "Handbook of the United States," the best book of the kind ever issued from the press. It is not a history, but a description of our country as it is to doe, the sente of four country as it is to-day, the result of four centuries of progress. History deals with the past, while progress, this deals with the present. We have never before seen anything like it, or its equal in

uality of paper or character of illustrations or the price asked for it. Every fatuily reads just such a work, and every young nan and young woman ought to possess a sopy. We have ordered a copy for ourselves, and we would be glad to know that every person in the county who is trying to improve

rimself, or the minds of his family, had done the same. Liquor Licenses Transferred.
