It would be a great mistake if "Chaplain" McCabe should take it into his head to quit singing because he has been elected a Bishop.

In exchange for the imperial crowns Nicholas should give the Russian people a liberal constitution. Then the nihilist's occupation would be gone.

"SPAIN will not abandon the mission of civilization she has imposed on herself," says the queen regent in her speech to the cortes. All the same Spain has a queer way of showing off her mission of civilization.

THE Carbonate leader says Pottsville people have placed vast lots at the disposal of the poor for distribution. There must be some mistake. The average citizen of the city set is too lazy to till the soil; but can tap the company "oil" with avidity.

The consumption of manipulated galls weekly paper to copy our editorial program observance of Memorial Day in it off at their own. It is robbery, and simple. Some newspapers, however, out of their element when they use other as the brains of their contemporaries.

LEADING Democrats in the senate state that the battle between free silver and sound money at the Chicago Convention will be a hot one and that the margin of voters is so narrow that either side may win by the changing of a state. The contested Nebraska delegation will be the starting point of the fight. The side that captures the delegation may capture the whole convention.

OUR friends who are favorable to the nomination of Major McKinley are greatly grieved over the caution conference, especially those in Pennsylvania who adhere to the leading candidate. They should relieve their minds; Senator Quay has no hepatic power over the Napoleon of Protection. The latter is still a candidate for the presidential nomination, and his name will be presented to the St. Louis convention with that of Senator Quay's and the other candidates.

MACHINES made of paper are the latest thing in the match line. This seems a little like going back to first principles, the domestic rolled paper lamp lighter being an old and well-known device. In Europe the wood from which matches are made is gradually getting scarcer and dearer. The new paper matches are said to be both lighter and cheaper than the wooden ones. The paper they are made of is strong and porous, and rolled together on the bias plan, and when treated with a solution of stearic, burn with a bright, smokeless, odorless flame. What next?

YESTERDAY was Queen Victoria's birthday, and marks the seventy-seventh year of her life. For fifty-nine years she has reigned over the British empire, and if she survives another twelve months will have broken the record of her ancestor, George III. By example and precept she kept her court clean and wholesome. A model wife and mother, she has accomplished the astounding task of making virtue at least respectable on her own premises, and sufficiently popular to make want of it a source of discomfort among her nearest attendants. It is true that her persons have not exhausted themselves in seconding her efforts, but with all their frolicsome ways, they have not succeeded in destroying the high standard of private virtue that her mother has established—at least in her court.

SEVERAL malicious attempts have been made recently by unknown parties to wreck trolley cars on the Schuylkill Traction and the Lakeside railways by placing obstructions upon the track. What the motive may have been we are unable to determine. It may have been revenge against the companies or their employees, and what is more probable, it may have been due to nothing more than a malicious desire to do mischief. In either case, however, the lives of innocent passengers were endangered, and the authorities and officials of the two companies cannot be too active in bringing to justice those who are responsible for the mischievous act. It was less than a year ago that a motorman at Allentown was killed by accident caused by a stone which had been deliberately wedged between the ties to wreck the car, and a few weeks ago another attempt was made to throw a car in the same city down an embankment. The miscreant who put the obstruction on the track in the latter case was arrested, convicted and sentenced to nine months' imprisonment, \$25 fine and costs. The punishment was inadequate for the offense. Train and trolley car wreckers are entitled to no consideration at the hands of the courts. Such attempts to take the lives of innocent passengers should not receive the leniency of our judges.

## POTTSVILLE LETTER.

An Eloquent Memorial Sermon Delivered by Rev. Umbach, Yesterday.

POTTSVILLE, May 23.—A men's meeting for railroaders was held at the Y. M. C. A. yesterday afternoon. Seats were arranged for 500 persons and every one was occupied. Short talks were given by R. L. Bauman, general yardmaster, Philadelphia; C. E. Senior, road foreman of Reading; W. B. Gornaly, trainmaster, Reading; and others. The music was conducted by a double quartette of male singers.

Rev. J. H. Umbach, of the Trinity Lutheran church, preached an able and appropriate sermon to the members of Gowen Post No. 23, G. A. R., last evening. His text was taken from Matthew, 23 chapter, 23rd verse: "Render therefore unto Caesar the things which are Caesar's, and unto God the things that are God's." The reverend gentleman has not quite recovered from a serious illness and at times his voice was rather weak, but his sermon was listened to with great interest by the large congregation. Among other things he stated that so many people were crying the evils of immigration. Good, honest, industrious immigrants are what we want. It is what has made our country what it is. Immigration will not hurt the country, but it is our American capitalists who import cheap, foreign labor which brings us the sum of Europe, and they are the ones to blame for the evils of immigration. Also that many people doubted whether the soldier should receive all the praise and honor which is bestowed on him. He stated that they did and more than he could ever give them. More than some of those men who draw \$5,000 a year and sit in Congress doing nothing; or what little they do, is at the peril of ruining our country. In closing he said that above all we should remember our duty to our country and endeavor to keep it sacred as a land of prosperity and liberty for all posterity.

When the case of the Schuylkill Electric Railway and C. P. King, trustee, vs. Thomas H. Connell et al., was resumed before Judge Albright in No. 2 court room Saturday morning it was found that one juror was missing. He was Jonathan Henning, of Washington township. An order had been issued for the payment of jurors and Henning, on receiving his, thought that he was discharged, as Judge Albright had excused all jurors not then engaged on cases. When it was discovered that he went home, the facts were set before Judge Albright and counsel for both sides concluded to go on with eleven jurors, and the case was continued until the next recess with one juror short. An adjournment was then taken until this morning at 10 a. m. The case will take several days this week before conclusion. There will be no performance at Tumbling Run this week, until Wednesday, on account of the numerous repairs and improvements.

A wheelman from Patterson named Bonenberg met with a painful accident last evening while riding down Norwigan street. A line of drain pipe in being laid up Norwigan street and at the western end of the street a plank was stretched across to prevent traffic along the excavated part of the street. But there was no light of any kind there and Bonenberg coming along at quite a good speed, dashed into the plank and was thrown headlong from his wheel, receiving a number of painful bruises, besides having a juncture to one of his tires.

## Liquor Men May Join.

Among the important business transacted at the session of the Grand Lodge of Odd Fellows at Pottsville last week, was the action regarding the admitting of saloonkeepers. The grand representatives were instructed to use every effort to secure a repeal of the action of the Grand Sovereign Lodge in excluding from membership saloon-keepers, bartenders and professional gamblers. Those in favor of the resolution held it was not right to class the proprietor of a respectable hotel with the day and two years before the resolution. It will be taken before anything can be done. Meanwhile subordinate lodges will take in whom they please, ignoring the existence of such a law.

NOVEMBER, Pa., May 23.—John Pastoring, the last of the once notorious Casler gang of desperadoes, is in the county jail here. He was caught by Constable Williams, of Fair Chance, while trying to reach his home under cover of darkness. Some time ago Pastoring committed a bold daylight robbery in Fair Chance and escaped in spite of the fact that a posse of men made a determined effort to arrest him. He had a pair of revolvers and kept the posse at bay until he reached the mountains. Since that time he had eluded the officers.

Debs Will Keep Out of Politics.

BIRMINGHAM, Ala., May 23.—Eugene V. Debs, president of the American Railway union, said today: "I will vote for the public print that I will not serve in a public office. I have a fixed conception of a political office, and do not intend to hold one. Politics and I have two different installations, and I will not give up labor for politics. The two don't go well together, and I believe I am of more use in labor. No, I will not go into politics, and will not accept a nomination for president."

A Whole Family Murdered.

AVA, Mo., May 23.—The whole Sawyer family, consisting of father, mother and grown up son, were discovered in their home, one-half mile from the place, murdered. The three bodies were found piled together under a bed and covered with a blanket. On the floor door was a card, upon which had been scribbled the words, "Ava are gone to Ozark. Will be back Monday at Pottsville." This is supposed to have been left by the murderers. The object appears to be robbery.

Murdered by the Mayor.

HOT SPRINGS, Ark., May 23.—Mayor Waters, of this city, at 9:20 o'clock Saturday night, killed Harry Martin, a doctor's drummer, on the street by cutting his throat with a pocket knife. The killing threw out of war being waged upon the drummers by the city authorities. Martin accused Waters on the spot and a quarrel arose, when the mayor drew his knife and cut Martin's throat from ear to ear. The mayor was arrested.

Fruit Crops Ruined by Drought.

KINGSTON, N. Y., May 23.—A conservative estimate of the fruit crop shows that less than 50 per cent is likely to mature. The drought has broken previous records. Strawberry vines are burned to the roots, while the current and red raspberry crops are a complete failure. The grape crop is the only one assured.

## CURES DYSPEPSIA.

A New Preparation, Pleasant, Harmless, Simple, Prepared Solely for Weak Digestion.

A new remedy for dyspepsia and indigestion; very highly recommended by Dr. Harland and Dr. Jenkinson and other prominent physicians is a combination in table form of vegetable and fruit essences, pure aseptic pepsin and Golden Seal. One of these tablets should be dissolved in the mouth after each meal and according to Dr. Jenkinson the effect seems to be that the food is perfectly and promptly digested, before it has time to sour and ferment, which causes all the mischief.

So popular have these tablets become with people who have any form of indigestion that they are now sold by druggists everywhere under the name of Stuart's Dyspepsia Tablets.

They are not a secret patent medicine, but as related above, contain vegetable and fruit essences, pepsin and Golden Seal in a form absolutely safe and pleasant to take.

A few of Stuart's Dyspepsia Tablets should be carried in the pocket and taken after meals and whenever there is any pain or discomfort in the stomach. They cure sour stomach, heartburn, bloating, gas, flatulence and all symptoms arising from disordered digestion. Will cure any stomach trouble except cancer of stomach. All druggists sell Stuart's Dyspepsia Tablets at 50 cents for full sized package, or sent prepaid by mail from Stuart Co., Marshall, Mich.

DENVER, Colo., May 23.—A car on the Aztec avenue line of the Tramway company got beyond the control of the motorman shortly before midnight, jumped from the track at a curve when going down hill at high speed, and turned over. There were seventy-four passengers on the car, a dozen of whom were injured. The most seriously injured were: Mrs. Sarah Hanson, aged 48, internal injuries, bruised and cut; Mrs. Jessie Connett, aged 25, concussion of the brain and probably internally injured; and Mrs. Zimmerman, aged 36, scalp wound and cut over forehead.

Louis Rongzi, 33 years old, was badly gashed with a knife about the head, but is now in jail awaiting the result of Franto's injuries. The dispute was over payment of room rent. Both men were immediately arrested and were taken to the hospital, where their wounds were dressed. Rongzi's wounds are not dangerous.

Kieckhofer, late chief of the bureau of accounts and disbursing officer of the state department, was arrested yesterday on three warrants charging him with embezzlement of \$97,651. Kieckhofer was taken to the First prison and locked up. The prisoner said to a reporter that he was very much surprised at his arrest, that he had anticipated nothing of the kind and was guilty of no wrong. Mr. Kieckhofer has been out of the office for some time, but he has remained in the city. The shortage in his accounts has been stated to approximate \$107,000.

Lawless Strike Sympathizers.

MILWAUKEE, May 23.—Yesterday was the first Sunday that the Milwaukee Electric Railway and Light company has operated its cars since the strike was inaugurated, three weeks ago. During the day there was no disturbance, but at night cars were freely stoned and oiled throughout the city. Several motormen and a policeman were struck with stones, and had to be removed to the hospital. A large mob of Poles gathered and attacked cars. Pullman cars were stoned, and seven arrests were made. Several cars were filled with bottles containing blue vitriol and muriatic acid, and the few passengers that rode therein and their clothing rained. The ransacking of the cars does not improve, and there is no improvement in the general boycott of businessmen sympathizing with the company.

## THE WEEK IN CONGRESS.

The House Rapidly Clearing the Decks for Final Adjustment.

WASHINGTON, May 23.—The house is clearing the decks for final adjournment. Conference reports are likely to consume a large portion of the time of the house this week, as they did last. In the last days of a session little indulgence is given members, and by the operation of the rules in matters of high priority like conference reports questions can be brought to a vote at the will of the leaders. The general clamor for unanimous consent legislation, which becomes louder as the session draws to a close, promises to be entirely checked at this session by the action of Mr. Knott, of Nebraska, if he persists in his threat. He demanded the regular order at every opportunity last week and threatens to continue to do so to the end of his congressional career unless the speaker recognizes him to move the passage of a bill to grant an abandoned military reservation to his state. The Phillips labor commission bill and the Erdman arbitration bill, which were crowded out by conference reports last week, will be brought up this week if time permits.

The outlook as to the line of proceeding in the senate during the present week is not very clear. It is the general understanding that the debate on Senator Butler's bond resolution will continue possibly longer than today, but when it holds the floor beyond today there will be an effort to displace it with the general deficiency appropriation bill. This is the only one of the appropriation bills which has not received the attention of the senate, and as it has not been reported the members of the committee are naturally anxious to take it up at the earliest practicable date.

On the other hand, Senator Butler, who has charge of the bond bill, feels that if a vote is not had on his bill before this appropriation bill is passed it may be impossible to hold a quorum. He will, therefore, insist upon going forward to a finish before the deficiency bill is considered. He thinks that it will be possible to conclude the debate upon the bond bill at the latest tomorrow. The opponents of the bond bill will try to prevent a vote being reached at all, and some of them will obstruct its progress to the fullest extent possible.

The Ideal Panacea.

James L. Francis, Alderman, Chicago, says: "I regard Dr. King's New Discovery as an Ideal Panacea for Coughs, Colds and Lung Complaints, having used it in my family for the last five years, to the exclusion of physician's prescriptions or other preparations."

John Burgess, Keokuk, Iowa, writes: "I have been a Minister of the Methodist Episcopal church for 50 years or more, and have never found anything so beneficial, or that gave me such speedy relief as Dr. King's New Discovery." Struck with a Baseball Bat.

POTTSTOWN, Pa., May 23.—John Fryer, aged 15 years, of this place, was, it is believed, fatally injured by his brother, William Fryer. The two Fryers, with others, had just finished a game of ball, when William became involved in a quarrel with one of the opposing team and struck violently at him with a baseball bat. The blow missed its mark, but fell with powerful force on the head of his brother, who was in the act of parting the combatants. He was removed to the hospital.

A prominent western newspaper recommends lax seed, as an excellent remedy for whooping cough. It may be good but it is not to be compared with Chamberlain's Cough Remedy. This preparation will allay the violent fits of coughing and make them less frequent and less severe. It also liquefies the tough mucus, making it easier to expectorate. Complete recovery is much quicker, too, when this remedy is given. There is no danger in giving it to small children, as it is a pleasant syrup and contains no narcotics. For sale at 25 and 50 cents per bottle by Gauthier Bros., druggists.

Li Hung Chang's Mission.

MOSCOW, May 23.—Li Hung Chang, the special envoy of the emperor of China to the coronation of the czar, has submitted to an interview on the subject of his mission in Russia and in other western countries. He said that he intended to go to America after visiting France and England. The sole mission entrusted to him, he continued, apart from the coronation, was to study the European and American systems of government, with a view to the introduction of reforms into China. He denied that any treaty had yet been concluded with Russia, as has been so often asserted in the last few months.

Death of General Echols.

STANTON, Va., May 23.—General John Echols, reeve and general manager of the Chesapeake, Ohio and Southwestern railroad of Kentucky, and president of the National Valley bank of Stanton, died at the residence of his son, State Senator Edward Echols, last night of uremic poisoning. General Echols was born in Lynchburg, Va., in 1828, and was educated at Harvard, Washington and Lee university and the Virginia Military Institute. He was a member of the Stonewall brigade, and was badly wounded at the battle of Kernstown.

There is some one in almost every neighborhood who is subject to attacks of pain in the stomach or bilious colic. Mr. J. D. Kinney, Warren Center, Pa., used to be troubled in that way. He says: "The attacks were marked by terrible pains, diarrhoea and fainting spells. At such times I suffered exceedingly until I began using Chamberlain's Colic, Cholera and Diarrhoea Remedy, two or three doses of which effected an immediate and lasting cure." But when a sure remedy is found and a cure effected, after years of suffering, there is great rejoicing and desire to "let the whole world know."
