#### REPUBLICAN DISSATISFACTION.

The result of the re-organization of the School Board Last night, by which the Democrats, with the aid of two Republican members, organized that body, is received with tittle surprise by the public. Rumors of deals and counter-deals have been freely discassed for the past week or two, and those who have doubted the truth of these rumors can now bring themselves to a realization of the fact that two Republican members of the Board, elected by Republican votes, mided this morning. With the Democrats in regaining control of the delegatered. The cultification of the deal has sured. #### SHAKERS AND DOCTORS TALK DOUBLE LYNCHING IN GEORGIA TOGETHER.

In his able work entitled "Longevity," published a few years ago, Dr. John Gardiner, of England, predicts that a vegetable agent will yet be found that shall so retard these changes that bring about old age as to prolong human life much beyond its present limit.

prolong human life much beyond its present limit.

Acting perhaps, upon the impulse produced by his thought, many eminent physicians have called from time to time upon the Shakers of Mt. Lebanon to imquire of them concerning the secrets of medicinal plants, in which these sincere, simple minded and God fearing people are known to be wise and skillful beyond all other men.

The Shakers willingly told what they had learned, and in return received from their visitors much valuable information about disease; which they at once made practical use of. The mean important point was that if a genuine and certain remedy could be found for indigestion and dyspepsia, and the allments growing out of it, a long step would be taken in the right direction. Old age, said these physicians, begins in a failure of the digestion, and so do nost diseases at any and all periods of life. The result of these consultations was the discovery by the Shakers of the desired specific, made wholly from herbs, and now known as the Shaker Digestive Cordin. Its action is magical and worthy of its origin.
