REPUBLICAN STATE TICKET.

FOR CONGRESSMAN-AT-LARGE, FURSLA A. GROW, OF Susquehanna. SAMUEL A. DAVENPORT, Of Erie.

PARTIES LEAVING TOWN for the summer can have the EVENING HERALD sent to the resort where they spend the season at no increase of price. The paper being issued at the evening will be sure to reach people at a distance the following day.

It is true, as General Boynton says, and the fact is one of great significance, that the American people have the most honest government in the world. The public business is transacted with less waste and defalcation than any kind of private business, and changes of parties make no difference in that respect.

The Senate has not only passed the river and harbor appropriation over the President's veto but did so with practical unanimity, only five voting to sustain the veto while 96 voted against doing so. The campaign clapnet in the veto message did not count for much against the senators' ideas of the necessities of the country in the way of improved waterways. As the House had already rebuked the President in the same way, the bill is now a law without his approval.

It has been intimated that if Congressman Brown was not a party to the movement to oust the Justices of the Peace which Senator Coyle is conducting with engineering, he knew something of the matter while it was being hatched. This will not aid Mr. Brown's cause for renomination much, as nothing that has been done in a political way in this county for years has stirred up the workers in the party in the two largest towns north of the mountains this has done. As Shenandoah and Mahanoy City have been the salvation of Mr. Brown, it begins to look as if some embryonic candidate will, at the proper time, be named for Congress in his stead.

The Washington correspondent of the New York Herald has telegraphed that paper that under no conditions will Speaker Reed accept the Vice Presidency. Even should he be nominated for that office by the St. Louis Convention, says the correspondent, he will decline the honor. The announcement, which, it is claimed, the correspondent was authorized to make most positive, will surprise no one. Mr. Reed is a candidate for Presidency, and for that alone. His supporters have not yet given up the fight, and it is presumed that they will go into the convention determined to make loyal, even if a losing fight, for their champion. If the nomination goes to another they will be willing to accept the fortunes of war gracefully, as will the speaker himself.

The aim of a Charity Organization Society, says Mrs. Lowell, in the Forum, should be to get people to do far more in every way than in their distress than they have ever thought of doing. It should teach them that people ought to give more time, thought, and money than they are in the habit of giving. To take only one example, the case of a widow with young children. A working man dies and leaves a little money, and his widow tries to get along with it and succeeds for a little while; then it is gone, and she and the children are dependent. What is the usual course of things? People give her a little money here, a little money there, and she spends almost all her time running around for the money until she gets to be a regular beggar, and the children beg and the whole family go to destruction. People have given them money because, as they truly say, it was such a pitiful case. What ought to have been done? First, all the relations should have been made to give something regularly; then what the woman could have earned, without neglecting her children, should have been taken into consideration; and then somebody should have given her enough to take up the rest of her support in a decent way, so that the children would not have been left to starve and freeze or have been forced to beg. But there are few people who are willing to give one woman ten dollars a month for ten years, diminishing it, of course, as the children grow older, and watching over them all that time. That is the way, however, in which dependent widows and children should be taken care of. It is a question of letting them become beggars, or of watching over them and giving them enough to make sure that the children are brought up properly; the watching being more important and more difficult than the relief.

Runaway.

While the cavalry team of M. L. Kemmerer's was standing at the depot this morning, the horses were suddenly frightened by the blowing of a whistle on an engine, and started down Centre street on a terrific gallop. At Timothy O'Brien's saloon the team was upset, and the driver thrown out, and the runaway team captured. The wagon and harness were considerably damaged.

Hip Disease

Results from a scrofulous and impure condition of the blood, and it is cured by Hood's Sarsaparilla.

Hood's Sarsaparilla the great blood purifier. The father of a Philadelphia girl writes this: "We gave Hood's Sarsaparilla to our little girl, who had symptoms of hip disease. She could not put her foot down on the floor when we commenced giving her the medicine, but in a short time she was able to get off the couch and to reach her playthings. Since then she has steadily improved, thanks to Hood's Sarsaparilla, and her general health is all that could be desired. When any of the other children are not well we give them

Hood's Sarsaparilla and we earnestly recommend it to others."

E. BERRY, 203 Richmond St., Philadelphia.

Hood's Pills easy to take, easy to get, easy to keep.

RETALIATING ON FRANCE.

The Frenchman Objects to the Exclusion of His Cattle.

WASHINGTON, June 5.—The French government has made a formal protest against the retaliatory action of this government in putting an absolute embargo on French cattle. A recent Associated Press dispatch from Havre announced that the United States consul had refused to permit a shipment of five French cattle to the United States. This refusal enforcement of the prohibition of importation of meat and their hides from countries infected with cattle diseases, including France, Germany and Switzerland, which is provided for in the old tariff act of 1890, but not invoked until seven months ago, is directly due to the non-reciprocity policy of countries like France and Germany in not allowing on one pretext or another to exclude American cattle and meats.

Repeated warnings have been made to both countries, but to no purpose, so that a proclamation issued by President Cleveland last November which, in effect, excluded from the United States cattle from France, Switzerland and Germany on the ground of the prevalence of disease in those three countries has been the complete stoppage of shipping of cattle from France and Germany, but it was not till our consul, Mr. Chancellor, stopped a shipment from Havre a few weeks ago that French shippers awakened to the fact.

The French foreign office thereupon communicated with Ambassador Patenotre on the subject, and the ambassador had a communication with the secretary of state, in which he asked a number of questions and asked why France should be discriminated against. The letter was forwarded to Secretary of Agriculture Morton, and the latter has just transmitted his reply. The secretary calls attention to the extent to which a number of cattle diseases exist in France, and in substantial cities of official reports of the agricultural department of France. Secretary Morton concludes with some vigorous statements showing the leniency conferred on foreign shippers by our regulations.

Mrs. Cleveland at Gray Gables.

BEVERLY HILLS, Mass., June 5.—Mrs. Cleveland, with her children, arrived at the president's summer home at Gray Gables last night. Mrs. Cleveland, Mrs. Milne, and the children of the latter, who accompanied Mrs. Cleveland almost to her destination, branching near the end of the route to go to their own home at Falmouth. The president will join Mrs. Cleveland at Gray Gables soon after the adjournment of congress, and his private secretary, Mr. Thurler, will again take up his residence with his family nearby at Marion. Secretary Olney will not leave the city for at least a month yet.

Responsible for the Moscow Disaster.

MOSCOW, June 5.—Eye witnesses of the terrible and fatal crash on the Khodynski plain last Saturday night, says M. Vlasovsky, prefect of police, is chiefly to blame for the disaster. He refused military orders of troops to control the crowd, declaring that he knew his own business, and that there was no need of any fear of an accident. Popular feeling against Vlasovsky is intense, and his name has become a curse among the populace, who, armed with bottles and stones, would have lynched him the same day if he had not had his route lined with troops and himself strongly escorted.

Ex-Mayor Magowan Not Yet Wedded.

CINCINNATI, June 5.—Ex-Mayor Frank A. Magowan, of Trenton, N. J., on Wednesday took out a license to marry Mrs. Helen Barnes, of Indianapolis, and yesterday afternoon he returned the license, no marriage having taken place. The reason for the delay of the wedding, or why he took out a license when he was married, is the likelihood of his being married, are things that Mr. Magowan refused to discuss. He said it was his business when he got married, and that he might be married in a few days or a few years, or never. He did not claim to know very much about it himself.

To Report the Band Bill Adversely.

WASHINGTON, June 5.—The house committee on ways and means yesterday, by a vote of 13 to 4, decided to report the Bitter bond prohibition bill adversely. There was little discussion of the resolution. Republicans spoke of it as a Populist measure. Mr. Grosvener made the motion for an adverse report, which was carried after the motion of Mr. Wheeler for a favorable report had been voted down. Chairman Dingy prepared the majority report and Mr. Wheeler will make one for the minority.

Place Your Orders Now.

If you want envelopes, letter or bill heads, statements, tags, circulars, order or receipt books, card programs, invitations, tickets, posters, bills or anything in the printing line, come or send your orders to the HERALD office. NO CONSUMPTIVE WILL DIE

SO LONG AS HE CAN DIGEST AND ASSIMILATE FOOD.

All physicians admit this. Yet here the difficulty begins. How can we build up the consumptive's body as fast as the disease tears it down? Let us consider.

Cough mixture must be avoided because they frequently contain opiates which arrest the digestion. Their only effect on the cough is by stupefying the nerves. Let them alone.

All foods that are hard to digest must be avoided, especially fats and oils. Only those foods that are easily digested and assimilated should be eaten. Foods not thus accepted by nature do no good; they do harm. Not what is merely eaten but what is digested and assimilated gives flesh and strength.

Consumption is starvation, slow or rapid, as may be. The first symptom is, not necessarily a cough, but a tendency to lose flesh, to grow thin. Stop this tendency now. Don't wait for obvious lung trouble. That's only a later development—only a minor point.

Stop the wasting and you master the disease—even though it may have made some slight inroads already. Increase the flesh and the danger is past.

What is needed is an especially-prepared food—a nutriment in itself and a digester of other foods.

Such an article is the Shaker Digestive Cordial, made by the Shaker Community, of Mt. Lebanon, N. Y. It creates a natural appetite and insures the digestion of what is eaten with it. It overcomes the wasting which is fatal in the consumptive process.

A man may lose money and not die a bankrupt. One may have consumption and not die of it. This is science and sense. The success of this new remedy proves it.

THE METEOR'S VICTORY.

Emperor William's Yacht Wins the First Race She Enters.

LONDON, June 5.—There was great interest taken yesterday in the rival matches of the Royal London Yacht club, in view of the fact that the new cutter Meteor, the property of Emperor William of Germany, was to be raced with Lord Lansdale on board, for the first time. The course for the big cutters, open to all yachts exceeding forty feet, was for a prize of £50, was about fifty miles.

Meteor won the race, arriving at the finish fully two miles ahead of Britannia. The start was made in almost a calm, but Britannia and Meteor, by catching little puffs of wind, slipped ahead of the Meteor.

When about ten miles of the course had been covered the wind freshened, and Meteor began to show her quality, and five miles further, after four short tacks, she passed Britannia. These two yachts were then right ahead of Saturnia and Alca. Meteor gained about five minutes in six miles against the tide.

The return journey opened with a head of six miles, and then there was a long close race, on both of which points of sail the Meteor increased the gap between herself and Britannia in a wonderful manner.

Experts assure that the Meteor is a great advance on Valkyrie III, being a better type of boat altogether, although it is a disputed point if she could beat Valkyrie III in smooth water and a soft breeze when going to the windward. She is a phenomenally fast vessel. She has never had her equal in British waters in moderate breezes, and if she is as good in a breeze the emperor has got a rare acquisition.

Virginia Democrats Solid for Free Silver.

STANTON, Va., June 5.—The platform adopted by Virginia's Democratic state convention instructs the delegates to vote "for a platform declaring for the free and unlimited coinage of silver and gold at the ratio of 16 to 1, and for candidates for president and vice president who openly advocate that principle." This rule was adopted and a resolution passed declaring that the Democrats of Virginia would hail with enthusiastic delight the nomination of Sen. or Daniel as one of the candidates of the party on the national ticket. Delegates-at-large were elected as follows: John W. Daniel, W. A. Jones, Claude A. Swanson and H. S. K. Morrison; alternates, W. O. Harlaw, Roger Gruney, George B. Kessel and Frank Hume; electors-at-large, W. B. McIlwaine of Dinwiddie, and J. W. Marshall of Craig. Peter J. Ory was chosen for national committee.

Dr. D. R. Rothrock, of New Berlin, Pa., does not hesitate to recommend Chamberlain's medicine. He says: "I have handled them for a year or more in my pharmacy and find them safe and reliable. My customers praise them very highly." No one who is troubled with rheumatism can use Chamberlain's Pain Balm without praising it. The quick relief from pain which it affords is alone worth many times its cost. For sale by Grubler Bros., druggists.

Engineer McHugh Exonerated.

NEW YORK, June 5.—Frank McHugh, of Philadelphia, was released yesterday by the coroner investigating the accident to the University of Pennsylvania launch Ben Franklin on Saturday night, in which two girls lost their lives. McHugh was the engineer of the launch. He swore that Mr. Hartman, who had been with the party on the launch in the afternoon, returned with several persons and asked to be taken riding. McHugh said he went to his post and did not see who threw off the lines or was in charge of the wheel. When the boat overturned he went into the water and there picked up a woman, placed a life preserver under her and then swam ashore. Hartman's evidence corroborated the story of McHugh. Captain Hamilton, of the transfer boat that was struck by the launch, was also exonerated.

FROM A CUBAN DUNGEON.

Experience of a Wealthy Cuban as a Prisoner of Spain.

BALTIMORE, June 5.—John Perez, a wealthy Cuban cattle dealer, is in this city, having narrowly escaped being summarily shot in his native land upon the charge of having furnished arms to the insurgents. Mr. Perez was arrested in Santi Spiritus, Cuba, on Feb. 21, and thrown into jail. A few days later, he says, he was told that he was to be shot on June 14. By the liberal use of money among the prison officials and through the influence of powerful friends on the outside, however, he was granted "provisional freedom," which meant that he must remain within reach of the Spanish authorities. He fled in alarm at the fate of others, he became a fugitive and joined relatives who live here. He says he knows of several instances which came under his observation while in prison where men were called out and put to death without the semblance of a trial.

Of his imprisonment he says: "They do what they please with prisoners. They feed them on beans and small quantities of tough meat. I saw a wounded man without a chicken bolled for him, and we offered to pay for it, but the officers would not allow it."

"They don't waste paper and ink to write down any sentences of death. They don't show you any writing. All they do is to tell you to go into the 'black room' and it is all over with you. They do not allow the prisoners trials. I was reading a scrap of newspaper one day and was scribbling on its margin when the guard drew his gun and yelled at me. 'You're not allowed to read nor write.'"

"I slept on the floor the first month of my imprisonment. I was afraid to stay in the town, for I knew one man who was released provisionally like I was, and it ended bad for him. One day he received notice to report back at the prison. The next day he was sent out to be shot. I got out because I had money and influential friends."

The Discovery Saved His Life.

Mr. G. Callanette, Druggist, Beaversville, Ill., says: "Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried all the physicians for miles about, but to no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We would keep store or house without it." Get a free trial at A. Wasley's Drug Store.

To Watch the Convention Crowds.

ST. LOUIS, June 5.—Chief of Police Harigan has telegraphed to the principal cities of the country for detectives, who will arrive in St. Louis tomorrow and remain here until after the Republican convention. These detectives come at the expense of St. Louis, and their salaries and expenses are paid from the regular police appropriation. Their duty will be to watch the crowds which attend the convention, and to arrest every person of bad reputation they see in the city, whether the crowd is wanted for any particular crime or not.

Cure for Headache.

As a remedy for all forms of Headache Electric Bitters has proved to be the very best. It effects a permanent cure and the most dreaded habitual sick headaches yield to its influence. Wasley's Drug Store.

A Man Hunt in New Jersey.

NEW BRUNSWICK, N. J., June 5.—A posse from Middleburgh and Franklin Park started out yesterday to run down a wild man, who has been lurking in the woods and lonely roads for weeks. Not until yesterday was it known that the strange man was Philip Vogt, of Rahway. He left home on May 27, and has been embroiled in mind for some time. Country folk who have seen Vogt describe him as wearing few clothes and no hat or shoes. He does not allow strangers to get near him.

A Turkish Force Annihilated.

BERLIN, June 5.—A dispatch received here from Athens says that a Turkish detachment, consisting of eighty-five men, which returned to Varnos, the town in the Island of Crete which was recently besieged, in order to remove war material, was cut in pieces by the insurgents, only two of the Turks escaping.

Last summer while attending court at Uniontown.

Says D. R. Patton, a prominent druggist of Fayette City, Pa., "three witnesses were suffering from diarrhoea. I gave each a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy and it gave immediate relief. On the way home one of my neighbors was taken with a severe cramp in the stomach and was suffering with intense pains. I gave him a dose of this remedy and within five minutes the pains had ceased. The remedy is a favorite here. I know of many who are never without it. I always take it with me when going away from home." For sale by Grubler Bros., druggists.

Return of Cuban Filibusters.

TAMPA, Fla., June 5.—Cuban circles are agitated here over the arrival last night of fifty-four members of the Bernuda expedition who came from Samba Creek, Honduras, via Mobile. This expedition left Jacksonville during the latter part of April. While the crew was en route on the Cuban coast the Bernuda was approached by a Spanish warship and had to escape. More than thirty Cubans were drowned during the excitement. Some were safely landed, Sarraga, the commander, landed safely, but Arezo, second in command, is here.

Milwaukee Street Car Fined Again.

MILWAUKEE, June 5.—A trolley car on the Cudahy line of the Milwaukee Electric Railway company was ambushed last night at a point two miles south of the city, and fully twenty shots were fired into it. Two men were shot, one fatally. They are John E. Brown, motorman, of Manitowish, Mich., 27 years old, shot through the abdomen, and Adolph Schwarz, conductor, of Milwaukee, shot through the leg, condition not serious. The assailants are supposed to be sympathizers with the strikers.

Ministers Should Use

Dr. Miles' Heart Cure.

THERE IS NO PROFESSION, whose labors so severely tax the nervous system, as that of the ministry. The derangement of the nerve centers of the brain by over work, frequently brings on attacks of heart trouble, and nervous prostration.

Rev. J. P. Lester, M. D., Pastor U. B. church, London Mills, Ill., himself a physician, writes Feb. 23, 1895: "Heart affection and nervous prostration had become so serious last fall that a little over work in the pulpit would so completely prostrate me that it seemed certain I must relinquish the work of the ministry entirely. Heart palpitation became so bad that my auditors would ask me if I did not have heart disease. Last November I commenced taking Dr. Miles' New Heart Cure alternately with Dr. Miles' Nerve and derived the greatest possible benefit. I have just closed revival work of 12 weeks, preaching nearly every night and twice on the Sabbath. I can speak for hours without suffering as I formerly did. Hard working ministers should keep Dr. Miles' grand remedies on hand."

Dr. Miles' Heart Cure is sold on guarantee, first bottle will benefit or money refunded.
