REPUBLICAN STATE TICKET.

FOR CONGRESSMAN-AT-LARGE, GALUSHA A. GROW, OF Susquehanna. SAMUEL A. DAVENPORT, OF Erie.

Parties leaving town for the summer can have the EVENING HERALD sent to the resort where they spend the season at no increase of price. The paper being issued in the evening will be sure to reach people at a distance the following day.

The Louisiana sugar-growers should devote a large portion of the bounty which they will receive under the recent decision of the Supreme Court to the work of putting their state in the way of being governed according to the will of the people.

CLEVELAND might have shortened his veto of the river and harbor bill a good deal by simply calling attention to the notorious fact that Democratic rule has reduced the revenue in a point where nothing is left for public improvements.

When the gentlemen at the county seat, who by courtesy are allowed to remain in the Republican party, get through with forming slates for the members of that party to vote for, perhaps the latter will take the matter in hand and name the ticket. We think so. Some office-holders on the "hill" have formed an alliance that bodes no good to the party.

The Republican primary elections in Allegheny county to-day will be exciting, and is attracting much attention throughout the state. The lines are closely drawn between the Quay and Magee forces. Both sides are apparently confident of success, and this fact is proof that the power of the Combine is waning. This is Chris Magee's own county, and the success of his friends being in doubt shows very clearly that his political star is on the descent.

SHENANDOAH is not the only place that is without a superintendent of public schools. George McHenry was elected superintendent of the Harrisburg schools and the Reformed League has filed a protest with Superintendent of Public Instructions Schneider reflecting upon McHenry's moral character. Supt. Schneider will not issue a commission until McHenry has a hearing and the charges are disproved.

The city of Wilkesbarre has adopted a plan to keep its streets clean from refuse of many kinds, and in this respect has fallen into line with the most advanced cities of the world. She has placed barrels on her street corners, into which all refuse may be thrown. Envelopes, pieces of waste paper, banana skins, candy boxes, and all that little class of refuse that annually find its way to the sidewalks and into the streets, is now thrown into these receptacles, whence they are taken at stated times by the garbage men and removed to the city's dumping lot. Persons use these receptacles as a novelty at first, but this leads to methodical habit and thus the desired end is attained.

The split in the Prohibition party is of national interest, because it is not only by far the oldest of the minor organizations of the present day, but it has lived much longer than any other "third" party which has ever figured in American politics. Its first national ticket was put up in 1872, and it has participated in every Presidential campaign from that time to this. Its vote has grown steadily from the beginning. Nevertheless the party never had any influence in national politics except in 1884, when the Democratic margin was so small in the decisive state of New York that the Prohibitionists may have turned the scale. Very few minor parties have ever split, but when one of them does this its days are numbered. Slavery split the Know-nothing party in 1850, as it split nearly every other party at one time and another, except the Free Soil and Republican parties, and it never participated in another Presidential election.

The Democratic party is hopelessly wrecked upon the silver rock. Henry Watterson, editor of the Louisville Courier-Journal, and who is now sojourning in Europe, writes to his paper as follows: "They (the Democrats) have repudiated the only President the Democratic party has elected and seated for fifty years. They have repudiated the most distinguished of Kentucky's living sons and the greatest Democratic intellect in the United States. They have spit upon the fathers of the party whose name and organization they claim; have proclaimed Jefferson an ignoramus, Jackson a conspirator, Benton a knave, and Cleveland a traitor. For the faith handed down through a hundred years of glorious party history, they have substituted a fad rejected by every intelligent civilization on the globe, and for the exponents of that faith they have substituted such apostles of Populism as Stewart, such exhorters of socialism as Tillman, such champions of anarchism as Altgeld. Saturday's work makes Kentucky Republican for years. Before Saturday Bradley was dead, but Saturday made it possible for any Republican to carry Kentucky over the party which binds itself to the corpse of free silverism. The only thing now for Kentucky Democracy is that the Chicago Convention shall not ratify its stuporous blunder, and that chance seems all too remote."

ANOTHER YACHTING SNARL.

The Almond English Charge Against How and Gould's Yacht Niagara.
LONDON, June 6.—Another international difficulty has arisen. It has already thrown another wet blanket over yachting, and it is believed to have been the cause of Mr. How and Gould's twenty-rater Niagara not starting in the race for the smaller craft on the program of the Royal London Yacht club's regatta on Thursday, when Meteor, Emperor William's yacht, won her maiden race.

In brief, English yachtsmen felt sore over the repeated victories of Niagara last year, and several insinuations explaining her power was given. One aquatic expert had it that the Niagara was using shifting water ballast, and this was finally settled upon as being the explanation of her success.

Eventually complaint was made to the Yacht Racing association, and three members of the council were requested to inspect the tactics, which they did on May 23, and in Mr. Gould's absence were ordered very friendly by Captain How to a letter to Mr. Gould. Secretary Kemp suggests that "it is desirable to make impracticable the run of water from one tank to the other, which could readily be done by a small alteration of the pipes."

The Yachtsman, referring to this latest development, says: "We have seen the water tanks, and there is absolutely no room under the floor for any tanks. It is true there is a connecting pipe between the tanks, but we fail to see that it could be used for shifting ballast, as it takes ten minutes for one tank to empty into the other, and this can only be done when the yacht is heeled over. We regard the incident as peculiarly unfortunate, because the suspicion attaches to a foreign gentleman who has done good for British yachting, and who is known as a thorough sportsman. Yachtsmen in America will regard it as a national insult."

Mr. Gould writes to The Field as follows: "The tanks were never used for ballast or for any purpose except for water for the crew. The yacht was measured and always races with the tanks empty, and even if they were filled the idea that they could be of advantage is absurd."

FINANCE AND TRADE.

Factories and Mills Still Waiting for the Rush of Business.
New York, June 6.—R. G. Dun & Co.'s weekly review of trade says: It is highly suggestive that, with as little help as there is now from new business, markets are so nearly maintained. Summer is close at hand, and with new crops promising well and old stocks large, it is no wonder that the farm products are cheap. The factories and mills are still waiting for the rush of business seen last year, and in spite of narrow orders at present, are generally holding on with much confidence. It is so late that gold exports no longer alarm for the date of expected return draws near. The opinion gains ground that more active business is to be expected after the conventions have been held, and the safety and sufficiency of crops have been ascertained.

Low prices at this season affect farmers very little, but the speculators who have bought from them for a rise. Decline in wheat and cotton has helped marketing the surplus, so that exports have been more liberal. From Atlantic ports 2,227,411 bushels wheat for the week, flour included, against 1,853,308 last year, while western receipts were 2,096,475, against 1,726,457 last year.

Failures for the week were 234 in the United States, against 195 last year, and 29 in Canada, against 23 last year.

Bradstreet's review says: General trade continues depressed in almost all lines. Demand is smaller than a week ago and request for and offerings of commercial paper have decreased. Mercantile collections continue complained of, and the tendency of prices, particularly of cereals, sugar, coffee, pork products, cotton and cotton goods, and iron and steel continues downward. At the south the more favorable features are the rain which has visited South Carolina, Georgia and Alabama, with benefit to the crops.

WILL MARRY MRS. BARNES.

Ex-Mayor Magowan Preparing for Home-keeping at Trenton.
TRENTON, June 6.—Frank A. Magowan, ex-mayor of Trenton, whose marital troubles are well known to the public, has recently had the mansion next door to his former home refurbished, has hired a cook and bought a team of horses, his intention being to renew home-keeping. Since he was divorced he has lived at a hotel here. Mrs. Magowan and her children still occupy the house next to which Mr. Magowan will set up his new establishment. His former wife is said to be much agitated over the turn affairs have taken, and the eldest daughter, Emily, fainted upon hearing the report that her father had married Mrs. Barnes. Feeling against Magowan is very high throughout Trenton.

When Mrs. Magowan agreed not to contest his suit for divorce, it is said, he bound himself in writing to pay her \$500 a month for the support of herself and five children. The assertion is now made that for the past two months only \$100 have been paid, and that Mrs. Magowan is consequently in straitened circumstances. When the ex-mayor went west a few weeks ago, it is further declared, he took with him \$10,000 advanced by friends, who say they thought the money was to be used to settle a law suit, but who now aver that it was spent in aiding Mrs. Barnes to get her divorce.

Before leaving Chicago for Indianapolis yesterday, whether he went in connection with Mr. Barnes' damage suit against him, Mr. Magowan said:

"When the marriage license was secured in Chicago it was our intention to be married that day, but I received a telegram from Oklahoma saying that it was illegal for us to be married, the laws of the territory forbidding marriage within six months from the date of the decree of divorce. Another reason which induced us to postpone the ceremony was the pending suit which Mr. Barnes has against me for damages. It is my purpose to settle the case if possible, and I thought it could be done to better advantage before marrying Mrs. Barnes than after."
