In the run to Shenandoub, the time was twenty-two minutes from terminal to ter-minal. The return was made in twenty-one ninutes. Few stops were made, and speed was slackened but few times, yet the trip could not be said to have been made under favorable conditions for a high speed test. The machinery is new and stiff and two other cars were drawing from the current, a condition that made itself felt in climbing sharp grades. With everything favoring the run, it is believed the time could be reduced to 18 minutes, about 10 minutes faster than with the old equipment. The speed of yesterday was superior to that made by the small cars in their initial trip, which ended have the EVENING HYBALD sent to the resort at the Lehigh Valley crossing and several where they spend the ceason at no increase of price. INTERESTING EXPERIMENTS WITH THE NEW STOMACH REMEDY.

Not a Patent Medicine, But a Safe Cure For All Forms of Indigestion.

The results of recent investigation, have established, beyond question, the great value of the new preparation for Indigestion and stomach troubles; it is composed of the digestive acids, pepsin, bismuth, Golden Scal and similar stomachics, prepared in the form of 20 grain logenges, pleasant to the taste, convenient to carry when traveling, harmless to the most delicate stomach, and probably the safest, most effectual cure get discovered for indigestion, sour stomach, less of appetite and flesh, nausea sick headaches, palpitation of heart, and the many symptoms, arising from imperfect digestion of food. They cure because they cause the food to be promptly and thoroughly digested before it has time to sour, ferment and poison the blood and pervous system.

laration mganuth tree comage. It is asserted by the gold men that if the declaration is against free comage "at a ratio of 16 to 1" it will give opportunity to say that to 1" it will give opportunity to say that there is no declaration against 1515 to 1 or 1615 to 1, or to any other ratio than that designated in the platform. The insistence is strong that there shall be no chance to declare the platform is a catch, or that it means anything more than what it says, or that it can be construed in one part of the country for silver and in another sec-tion against allow.

tion against silver.
It is quite apparent that there is a determination to make the platform for the single gold standard, but there is a desire to avoid a declaration emphatic in these words, for it is believed that it would be effensive to some sections of the country. and particularly several states in the Mis-eissippi valley. All expectancy of form-ing a financial plank which would be sat-isfactory to Teller and his followers from the silver producing states has been long abandoned. Silver men so pronounced as these have also abandoned any idea, if they ever had one, that a straddle of any kind could be formed which they could kind could be formed which they could construe for any possible use against a straight 16 to 1 declaration of the Demo-

Other features of the platform are also under discussion, especially the tariff plank. While declaring for the American system of protection, it is quite probable that the Ohio platform will be closely followed. At least that has been the talk ng the McKinley leaders whenever the tariff plank has been mentioned. The deficiency in revenues will be declared at-tributable to the inefficient tariff, and, it is said, the financial difficulties, necessita ting the issue of bands, will be declared due to the failure of the Democratic party to provide sufficient revenue to meet surrent expenses of the government. It is also expected that the platform on this subject will review at some length the conditions of the country, and the depression, the financial disturbances and everything of that character will be attributed to Democratic control of the country.
It is understood to be a part of the pro-

gram to have the leaders of the various egations confer and agree upon a platform, so that a committee on resolutions form that will not precipitate a fight on the floor of the convention between those who favor an anti-silver declaration. A fight from the silver men cannot apparently well be avoided.

The other portions of the platform will largely follow past declarations of the party. The main interest centers upon the currency plank, and next in order of im-portance is the tariff, and these are the only things that have so far been dis-
