Messrs. Cannon and Sayers on the Recent Appropriations.

TWO WAYS OF LOOKING AT IT.

The Republican and Democratic Congressman Produce Arguments to Prove That the Party to Which He Is Opposed Is Responsible for All Extravagance.

Washington, June 12.—Chairman Cannon, of the house appropriations commit-tor, and ex-Chairman Sayers made public a joint statement concerning the expendi-tures authorized by this congress, discuss-

tures authorized by this congress, discussing them from the Republican and Democratic standpoints, respectively. The total of appropriations for the session, including permanent annual appropriations, is \$515,756,930,49.

Mr. Cannon's statement begins:

"The appropriations charged to this session includes \$119,031,160 under permanent laws, of which amount \$50,000,000 for interest on the public debt, or \$3,355,614.40 more than was included at the last session of congress in the statement of appropriations, and is on account of the increase of congress in the statement of appropria-tions, and is on account of the increase of \$102,315,400 in the bonded indebtedness of the country by the present administration up to February, 1895, the interest and sink-ing fund charge on account of the later bond issue of \$100,000,000 in February, 1896, amounting to \$4,400,000, not being in-cluded in the estimates of permanent ap-propriations.

propriations.

"The increase in the principal of the interest bearing debt of the country under the present administration amounts to \$202,315,400, which entails an annual interest charge of \$11,402,616, and to meet the sinking fund obligation the further sum of \$2,628,154.

During the administration of Mr. Har-

"During the administration of Mr. Harrison the principal of the interest bearing debt was reduced \$258,102,000, and the annual interest charges \$10,327,716.

"The regular annual bills, including deficiencies, as passed by the house made a reduction in the estimates submitted by the executive of \$26,085,191.67; they were increased by the senate \$29,990.442.30, and as they become laws that annuariated. as they became laws they appropriated \$10,636,624.06 loss than as passed by the senate, \$12,283,818.24 more than as passed by the house, and \$13,374,373.48 less than the estimated requirements of the administration.

'The regular annual appropriations, in-The regular annual appropriations, including deficiencies, made at the last session of congress, amounted to \$683,630,806,37, and including the river and harbor bill. Excluding the river and harbor act passed at this session, the regular annual bills as passed by the house appropriated only \$373,500,082,30, or more than \$10,000,000 less than was appropriated by the last 000 less than was appropriated by the last Democratic congress."

Mr. Cannon criticizes the treasury

partment because it has expended 87,377,449 for the present year in collecting the revenue from customs estimated at \$165,000,000, whereas, for the last fiscal year, 1892, under President Harrison's administration, there was collected under the Me-

tration, there was collected under the Me-Kinley tariff act \$177,452,000 of customs revenue at a total cost of only \$0,607,517.

The bills establishing salaries instead of the fee system for officers of United States courts will save \$1,000,000 annually and minimize frivolous and malicious prosecu-tions, and special attention is called to the fact that congress made no increase of salaries of employes in the government de-

The following table of appropriations is given: Fifty-first congress, \$088,417,183.34; Fifty-second congress, \$1.027,104.547.02; Fifty-third congress, \$089,230,205.60 Fifty-

fourth congress, first session, \$515,759,820,49.
The revenues for three fiscal years of the Harrison administration, ending June 30. 1892, are given as \$1,150,631,214; expendi-tures, \$608,132,901. For the two complete fiscal years of Cleveland's administration: Revenues, \$611,112,094; expenditures, \$723,-720,578.

Mr. Sayers, in his statement, says of the total appropriations for the session:

"This sum exceeds the appropriations made during the last session of the Fifty-third congross by \$18,751,290.85, and those of the first regular session of that congress by \$23,529.185.40. It is less than the appropriations by the second session of the Fifty-second congress by only \$3,744,538.7: although at the latter session \$59,552,494.85 more was appropriated for pensions than at this session. It is more than those by the first session of the Fifty-first congress by \$91,865,571.84 and \$25,464.040.80 less than the appropriations at the second session of the Fifty-first.

"The senate, organized this session by a combination of Republican and Popu-list votes, placing the control of committees in the hands of the Republicans, by its amendments to appropriation bills as they passed the house, proposed to increase the total by \$22,920,442.30. By conferences between the two houses this aggregate in-

crease was reduced to \$19,283,818.24.

"The appropriations made at the second session of the Fifty-first congress exceeded those made at the first session of the same congress by \$40,767,612.64, or nearly 10 per cent. If the same proportionate increase should be made at the next session then the appropriations will not be less than \$55,000,000."

Contracts authorized by this session he estimates as follows: Rivers and harbors, \$69,610,404; public buildings, lighthouses and revenue curters, \$1,490,000; defenses and armament, \$4,195,076; new warships, \$12,000,000; District of Columbia, \$124,000;

total, \$78,941,480. He says that the total expenditures in one fiscal year have never been so great except during the civil war, and exceed the assessed valuation of property in any one of the South Atlantic states. In con-

one of the South Ariante states. In con-clusion Mr. Sayers says:

"If the present congress had rigidly re-fused authority for additional contracts, and had appropriated only to meet the inmediate or fiscal year requirements under existing ones, the next congress and ad-ministration would have been in a posttion to largely reduce appropriations and expenditures, and the administration of expenditures, and the aunithistration of the government could easily have returned to an economical method of expenditure. This, however, has not been done, and the majority in congress must be held respon-sible for this grave devaliction in public duty."

Dr. D. R. Rothrock, of New Berlin, Pa., does not heatinte to recommend Chamber-lain's medicines. He says: "I have handled them for a year or more in my pharmacy and find them safe and reliable. My customers praise them very highly." TRANSVAAL PRISONERS

Freed at Last on the Payment of Heavy Fines.

BANISHMENT FOR COLONEL RHODES

He Declined to Sign the Conditions Required and Must Quit the Country for Fifteen Agars - The Other Prisoners Leave Pretoria for the Rand.

London, June 12.—In the house of commons yesterday the Rt. Hon. Joseph Chambertain, secretary of state for the colonial department, made an announcement confirming the reports from Prestoria that the leaders of the Johannesburg reform committee—Hammond, Farrar, Phillips and Colonel Rhodes—had been set at liberty by the Transvani executive council upon their payment of a fine of \$125,000 each, in default of which they would be subjected to banishment from the Transvani for a period of lifteen years. The Transvaal government also stipulated, he added, that the men thus released should conform to the conditions required of the other members of the re-form committee, who were lately released, that they should not in future interfere in any political movement in the South African republic

can republic.

A dispatch received this morning from Pretoria confirms the release of the reformers, and announces that all paid their fines and, with the exception of Colonel Francis Rhodes, departed for the Rand. Colonel Rhodes declined to sign the conditions required, and the sentence of handshment will be enforced against him, in addition to the heavy fine.

All of the London newspapers this morning dwell upon the commercial instinct of the Boers in fining the reformers. The Times says:

It will be a considerable addition to the flourishing revenues of the Transvaal. Dut, after all, persons engaged in the per-illous business of revolution must expect to pay when they lose. It might have been more predent to fix the penalty at a lower sum, and to attach greater consider attent to the penantary circumstances of some of the offenders. On the whole, howover, President Kruger has let off the 'lif-tle dogs' cheaply. The punishment is sub-stantial, but it cannot be pronounced vin-

dictive or even excessive.
"The release of the reformers ought to "The relimse of the reformers ought to mark a distinct step forward in the reconciliation of the two races. Time will be meded to assuage the passions and projudices aroused, but unless they are kept alive by continued provocations they will subside ere long. We are too busy and practical a race to marse a gradge unless the wrongs which caused it remain unredibescal."

The article concludes with a tribute to President Kruger for acting up to the spirit of the friendly assurances he gave to the British authorities, and urges the reliess of the grievances of the Ultimiture

"The president has begun well. We hope, in the interest of his own country-men, as well as that of our own, that he will not weary in well doing
