THE CONTEST AT CHICAGO.

It becomes more likely every day, says the St. Louis Globe-Demograt, that the free silverites will have a majority in the Chicago convention. This will give than the power he had been engaged in the examination at to make the platform ; but when it comes to the State Normal school at that place.

Therein lies the only hope of the sound money contingent in case it fails to secure a majority of the delegates. If it can muster over one-third of the strength of the conover one-third of the strength of the con-vention, and enforce the two-thirds rule, it can prevent the nomination of free silver candidates for President and Vice President, and compel the other side to put gold-standard candidates on its platform, or make no nonimations. This course is being urged by some of the Democratic sound money organs as an alternative to be preferred to bolting.

But the fact should not be overlooked, that, the success of such a plan involves the Oak spects, Rev. D. I. Evans pastor. The free silverites will probably prefer to observe the venerable custom of making nominations by a two-thirds vote if they can do so without detriment to their interests; but if they find that rule standing in the way of their success, they will cortainly not scruple to remove it.

The free ellverites are very much in earnest, and quite willing to do anything that may become necessary to carry out their purposes. If they enter the convention with sufficient numerical strength to dictate the platform, it may safely be assumed that they will also insist upon dictating the ticket. They will not permit themselves to be thwarted by a Dealer is stoves tradition when they can easily have their way in splite of it.
