The paper was edited by Mrs. A. W. Schulck, with a large corps of nesistants and advisors, and the proceeds of the edition will go towards the erection of the new Methodist Episcopal church edifice. The indies of that denomination can well feel proud of their first colorts in the journalistic field. Much of the credit for the success of the undertaking, however, is the Editor Zerbey and his well equipped office, without which the success attained would have been impossible.

We know not what called forth the editorial on the gold discoveries, but we surmise that the fall campaign may have caused the mighty and caustic pen of our editorial brother to get in line with the "gold standard" plank of the Republican national convention. Then, again, it is a well known fact that Elias is a candidate for Tressurer, and it is equally certain that his aspirations in this direction will be realized; nd putting these two facts side by side the further important information is elicited, that the eampsign this fall, so far as the Treasurership is concerned, will be upon a gold smodard basis, autmented by the "Davis hand-and-arm-shake." It is now in order for the opponents of Editor Davis to declare themselves upon the financial quesfinn-whether, in the event of election, they will cash the county's due-bills in Cripple Creek gold or Brumm greenbacks. We patiently await the announcement.

PENNSYLVANIA'S CANDIDATE

(Continued from First Page.)

Pennsylvania was reached in the roll call, withdraw from the contest and throw his Pennsylvania vote to the Ohio candidate. The friends of other candidates are still quite determined to continue their candi-dates in the race to the finish. Mr. Platt, as the representative of Governor Morton, is especially persistent in urging this course. His reason for this is his desire to course. His reason for this to his design secure a roll call for the purpose of putting the New York delegation on record. He is, however, decided to abide by the decision of the national committee in dis-

posing of the New York contests, and not

to make any factious opposition.

The talk of a bolt from the convention unless the Platt men were seated, and the almost implied threats of Mr. Satherland in committee that a bolt would follow the seating of Bliss and Cruger, worked the committee up to the highest pitch of ex-citement. Not in any other contest was there such birter feeling raised in the com-mittee, and although the language which might be in the least distasteful to any aber of the committee was withdrawn, it did not lessen the determined feeling of

opposing sides to seat their respective men senator Dubois of Idaho and Representative Hartman of Montana joined Senator Teller of Colorado here last night. There is no longer any doubt of the purpo the silver men to bolt the action of convention unless they can have their way about the financial plank. The program they have arranged will probably furnish the most sensational incident of the con-vention. They intend, as a preliminary, to marshal all the strength they can in the committee on resolutions for silver. They know they will fail, but instead of their attempting to secure a compromise it wil be their plan to so throw their strength in the committee as to force, if possible, the adoption of a straightout gold plank. As one of them said today: "If the Republi-can convention cannot be right we will force it to be honest. Better a gold declar ation for all concerned than an equivocal plank that wears gold. The fight will be carried to the floor of the convention under the lendership of Senator Teller, who, his friends, say, will make a speech that will be the effort of his life. It will be his val-edictory to the Republican party. The silver men expect to carry at least five states out of the convention with them— Colorado, Idaho, Utah, Nevada and Mon-tana-and they are very hopeful that the Democratic convention at Chicago will nontinute the man who leads the bolt here Yesterday the Reed boom was given the

first impetus that it has had during the ante-convention days. The arrival of the Maine and Massachusetts delegations. with glittering badges and waving ban ners, gave the first real appearance of Reed's candidacy that has been seen. Senator Lodge, of Massachusetts, who is to place Reed in nomination, has become the recognized leader of the Reed forces, and since his arrival has been trying to gather the scattered Boad forces and retrieve the losses that have occurred in the past few days. Chairman Littlefield, of the Maine delegation, who will probably second Reset's nomination, has but the Reed head quarters formally opened, and last night the delegation had a meeting in which

steps were taken towards pressing the candidacy of Resd with all possible spirit. The Reed men are jubilant over the re-

It will interest the states that have contests before the national committee, as it will also interest those who hope for a short convention, to know that those is control of the convention have formulated a plan whereby the numerous contests will be opened again by the convention of by the committee on contested seats: had been the general opinion up to late yesterday afternoon that the wearisome task just finished by the national committoe will be repeated by the committee on credentials of the convention, and that a delay of at least a couple days would en sue when the defeated contestants or contestees applied for a reopening of their

Either the McKinley managers are fearfal of dalay or else they believe it is a waste of time and energy to respen those eases, for the edict went forth that the convention would by resolution either formally accept as flual the report of the national committee on all contests decided on credentials to so report. This means that only such contests as the Texas and Delaware ones shall be referred to the convention, because such action would make the temperary roll cull a permanent one with the exception of the two states minuch. That the New York shigh along and Mr. Platt coincide with this course is one of
