THE present week will prove a notable one for the school children, and one of much rejoicing for the graduates. standard adopted by the state convention in favor of a gold standard.

Senator Foraker will unquestionably be the Ohio member of the committee on resolutions, and it is equally probable that he will be chairman of the committee. He has drafted a platform covering almost all the others to be treated of, and has the subjects to be treated of, and has shown it to some of his most intimate friends. It expresses in distinct terms the Republican policy to the maintenance of the present "gold standard," using these words. It is thought that the platform as outlined by Senator Foraker will not be greatly medified in the committee.

Hon. Charles Warran Lippett, governor of Rhods Island, arrived yesterday and

has his headquarters at the St. Nicholas hotel. Governor Lippett is one of the cast-ern candidates for vice president. Although the Maine delegation is not

advertising the fact, it is almost certain that they will present the name of ex-Governor Cleaves. Representative Dingley, of Maine, who was spoken of, does not covet the honor. There is still a lingering hope among a vast number of the delegates that Speaker Reed will be nominated by a spottaneous outburst in the convention, and, if he is, they do not believe he could decline any more than Logan could in 1884 or Handricks and Thurman could when they were placed on the Democratic tickets

in 1884 and 1888, respectively.

It is conceded on all hands that Mr Hanna will be made chairman of the na-tional committee if he will accept. He has not yet signified his acceptance in explicit not yet signified his acceptance in explicit terms, but he has said enough to convince his friends of his willingness to assume the duties of the place. The selection of a national chairman is always left to the presidential candidate. Senator Gallin-ger's name has been mentioned in connec-tion with the chairmanship, but it will probably not be pressed if Mr. Hanna is a candidate.

Senator J. H. Gallinger, of New Hampshire, chairman of the senate committee on pensions, has prepared a resolution on pensions, which he will submit to the committee on resolutions, and ask that it be incorporated in the platform. It is in sub-

stance as follows:
"The veterans of the Union armies deserve and should receive fair treatment and generous recognition. Their heroism and sufferings are matters of history, and

Chairman William F. Harrity, of the Democratic national committee, arrived here yesterday, and has been in conference with ex-Governor Francis. In the Missouri delegation Chauncey I. Filley, who for many years had been the

Missouri representative on the national committee, was defeated in his ambition Coupled with these declarations will be to again be a national committeeman, and Richard Kerens was selected. thousands at this season. Eat does not relish. They need the toning up of the stomach and digestive organs, which a course of Hood's Sarsaparilla will give them. It also purifies and enriches the blood, cures that distress after eating and internal misery only a dyspeptic can know, creates an appetite, overcomes that tired feeling and builds up and sustains the whole physical system. It so promptly and efficiently relieves dyspeptic symptoms and cures pervous headaches, that it seems to have almost "a magic touch."

Hoods

Filley, the white bearded leaster or Missouri Republicans, furnished the most unique and impressive spectacle of the night. For although rejected by his state delegation yesterday. Filley retains a strong hold upon the popular affections of St. Louis.

St. Louis.

There had been arranged several days ago for a parade of the local Republican organizations for the delectation of visitors. The procession materialized with an abundance of marchers in the ranks, and it also become a tribute to Filley. Some three thousand men were in line, nearly all of them carrying staves tipped with four foot square lithographs of Mr. Fil-

CHAUNCEY I. PILLEY.

ler's features, surmounted by his famous shovel hat. Filler himself was in the parade standing in a barouche drawn by horses, bowing continually and waving the hat along ten miles of the march.

The Southern hotel balcony, where Reed's followers congregate, gave an ova-tion to the Filley turnout while it passed, because reports that Filley was bolding with a brace of delegates to Reed placed him high in the affections of the New

Englanders.

The most remarkable feature about the convention so far has been the absence of bad blood among the partisans of the va-rious candidates. The triumph of Me Kinley has been so complete thus far that his friends can afford to be maguanimous, and his opponents can do nothing but acquiesce in the ascertained will of the ma-jority. The partisans of Reed, Quay, Mos-ton and Allison still wear their buttons, and are as staunch as over in their loyalty but they realize the helplossness of mak ing shricking or offensive demonstrations in favor of their champion, and the man-agers of the anti-McKinley candidates have practically sheathed their swords. This does not mean that they have aban

doned the field, with the exception of Gov-ernor Bradley, of Kentucky, who dropped out Sunday night. The names of the other candidates will be presented and voted for and will probably poll their full strength Indeed, the Reed men have labored assiduously to rally their followers to the last man. They have appealed to his friends to go down with colors flying. So, too, with the followers of Morton, Allison and Quay. But no one ventures to suggest the possibility of McKinley's perent.

The real struggle that is going on is wer the financial plank in the platform. Around it all interest centers. Beyond the disputes in the various delegations over the supremacy of men and factions it is almost the sole subject of plots and counterplots. It is the real battleground. In phrase and word it is all impostant Upon tariff and all other questions there is substantial unity, but the differences upon finance are as wide as the continent. Free silver and gold are as irreconcilable as the poles and theradical silver men are prepared to stake their all upon the issue Knowing they cannot succeed they are even now formulating the manifesto that will sever their allegiance to the Republi-

can party. But these radical silver men are largely outnumbered.

The real struggle is between these in favor of a declaration for the maintenance of a gold standard, except through an international agreement, and those whose friendliness to silver, although oposed to free columns, makes then avoid a specific indersement of the gold standard. The result of the meeting of the various state delegations yesterday demonstrated emphatically that the convention will not dodge the issue nor equiv-ocate in language. Twenty-eight states, comprising the territory east of the Mis-sissippi and almost the entire south, elected members of the resolutions committee and instructed them to vote for a

gold declaration. The exact language of the plank has not yet been drawn. all eyes are turned, and to whom all are agreed belongs the distinction of being the dominating power in the convention, has had many planks presented to him, but all mean practically the same thing, the maintenance of the gold standard un-til an international agreement can be reached and unalterable opposition to free

undoubtedly a declaration in favor of such use of sliver as the needs of commerce demand, but not beyond the point where the maintenance of the parity would be endan-gered. Senator-elect Foraker, of Ohio, who is to be chairman of the committee on resolutions, has prepared a rough draft of a platform covering most of the subjects to be presented, and this will furnish the basis for the work of constructing th

Scintor Henry C. Lodge, of Massachu-scits, who has had much to do since his arrival in putling new vitality into the movement for an absolute declaration for movement for an absolute declaration for the gold standard in the Republican plat-form, said today that he considered the battle as won. When asked, "Will the word gold be used," he replied: "To be sure. The object of the movement is to secure an unequivocal declaration for the gold standard. There will be no evasion

or equivocation."
