REPUBLICAN STATE TICKET. FOR CONGRESSMAN AT LARGE, GALUSHA A. GROV, OF Susquehanna.

THE declaration of the Republican party on the vital issues of the day has no silver tinkle in it.

FOR A man who, a few days ago, was reported as discredited and beaten, Thomas C. Platt has changed public opinion with lightning like rapidity.

CLEVELAND proposes to visit Europe next year, and certainly the bankers over there who have profited by his bond-selling policy should give him a cordial reception.

THE Republican party not only wants American workmen to have the highest wages in the world, but it also wants those wages paid in the best money in the world.

THAT silver-tongued reprobat from Kentucky, Breckinridge, comes to the surface once more as a candidate for Congress. It appears to think the women of Kentucky have forgotten his moral delinquencies by this time.

PARTIES leaving town for the summer can have the EVENING HERALD sent to the resort where they spend the season at no increase of price.

MR. CLEVELAND has sent 552 veto messages, or more than five times as many as were written by all his predecessors combined.

THE original McKinley men from Pennsylvania apparently run very small figures at St. Louis.

THE Japanese are showing evidences of civilization every day.

THE large number of extra copies of the HERALD issued yesterday were sold in short order, and the publication office and the carriers were unable to supply the demand.

THE prediction of Rufus Hill, master mechanic of the Pennsylvania Railroad, that within five years electric motive power will be in general use on that great line is by no means unlikely to come true.

JUSTICES OF THE PEACE in Salco, New Jersey, are not worried by any questions of ouster under the act of 1875, as our legal dignitaries are, but they are bothered by flies and mosquitoes, while cases of assault and battery are scarce.

HE is learning to ride. One of our citizens, who is said to be more than one sense, is taking lessons in bicycle riding, and in order to avoid breaking any windows in town by the earthquake likely to follow a "header," he goes to the park, where the crust of the earth is thicker than in town for his lesson.

THE GRADUATING EXERCISES.

Commencement of the Grammar Schools Held in the Theatre Last Night.

To many children and parents in town, last night was a joyous one. Seldom is there such a happy and enthusiastic gathering as the one in Ferguson's theatre, and never has there been a more striking exemplification of the great benefits to be derived through the public schools.

The presentation of diplomas was made by the members of the School Board. They were accompanied at the left of the stage. The decorations were not as profuse as in former years, but those displayed were neat and appropriate.

The program was a very lengthy one, embracing 43 numbers, and it is therefore impossible to accord to the graduates individually the credit they so well deserve.

The following deeds were recorded to-day: From Augusta L. Lee, executor of Edw. F. Lee estate, to Miners Lodge, No. 20, I. O. O. THE charge of libel preferred by Prof. J. W. Cooper, principal of the Shenandoah High School, against C. D. Arter, principal of the Cresco schools, and Livingston Seltzer, principal of the Pottsville schools, was presented to the Grand Jury this morning, and a true bill was found.

ONE of the horses of the Columbia Brewing Company was stricken with paralysis in the hind legs near Ringtown yesterday. The horse was dragged to a nearby stable where he is being treated.

WHILE two Polanders were walking along the Reading railroad a short distance below the depot yesterday one of them picked up a gold watch. After some discussion as to the ownership, his companion took the watch from the man who found it.

DISASTER ON THE DEEP.

British Steamer Struck a Rock Off the Coast of France. WENT DOWN IN THREE MINUTES.

OF Two Hundred and Forty-seven Souls on Board Only Three Are Known to Have Been Saved—Passengers Were Asleep When the Shock Came.

BRISTOL, France, June 18.—The British steamer Drummond Castle, Captain Pierce, from Capetown for London, struck a rock at midnight, while hugging the French coast, sank and disappeared entirely in about three minutes after striking. Only two boats were launched, and one of these is believed to have been capsized. The passengers are thought to have been asleep when the vessel struck.

Searing men believe the Drummond Castle, while at full speed, struck the ledge, ripped open the water tight compartments and the greater part of the ship's bottom, slid across the ledge, and went down in the deep water as if made of lead. The ledge is near the Island of Molene, half way between Ushant and the French coast.

It is thought that important witnesses in the trial of Dr. Jameson and other officers and mining men of the Transvaal, with their families, were on the vessel. There were 144 passengers and 103 officers and crew on board.

One survivor of the Drummond Castle is a man named MacQuart, who is at Ushant. Six bodies have already been recovered there. One is that of an officer of the lost steamship and another that of a girl 6 years old. Two additional survivors of the sunken steamship are at the Isle De Molene.

STRONG NERVES. Nerves just as surely come from the use of Hood's Sarsaparilla as does the cure of scrofula, salt rheum, or other so-called blood diseases. This is simply because the blood affects the condition of all the bones, muscles and tissues. If it is impure it cannot properly sustain these parts.

HOOD'S SARSAPARILLA. Because it is the One True Blood Purifier.

Ministers Should Use Dr. Miles' Heart Cure.

THERE IS NO PROFESSION, whose labors so severely tax the nervous system, as that of the ministry. The derangement of the nerve centers of the brain by over work, frequently brings on attacks of heart trouble, and nervous prostration.

DR. MILES' HEART CURE. Restores Health. November 1 commenced taking Dr. Miles' New Heart Cure alternately with Dr. Miles' Nerveine and derived the greatest possible benefit.
