A Railroad Official's Experience.

R. EDWARD EDMONDS, long con-nected with railroad construction in Nebraska, writes: "My heart troubled and pained me for 19 years, Shortness of breath was the constant and most common symptom. Intense, excruciating pain, generally followed any severe exertion. Faintness, hunger without any appetrac; fluttering that made me clutch my breast, and palpitation that often staggered me as if I would fall, were frequent attacks. Again, everything would turn black if I arose from a stooping posture quickly. Sleepless nights with their Dr. Miles' prostrating unrest were numerous and I could get no rest day or night. I consulted leading physicians and tried adversariance.

Health..... tised remedies. They gave me no relief. One of Dr. Miles' circulars described my case so exactly that I took Dr. Miles' New Heart Cure and I am now a well man. I hope every one troubled with heart disease will try Dr. Miles' remedies. If they will write e personally, I will gladly give them full
