POTTSVILLE LETTER.

Session-Other News.

PRICESVILLE July 2. After the examination of Protlemotary The Herald is derivered in Shemandoan and the surrounding towns for all contain week, paythe voting check lists and ballot check lists were in the ballot low, put there by mistake. Whereopen court ordered that the Honey-brook ballot hax be brought into court and opened. Mr. Schulek excepted to this order and was given an exception by the court. Prothonolary became then opened the box and the accessary lists were found. These were turned over to the Prothonolary, to-gether with an allowyl off voters.

The next-box called to be opened was the hird word of Minersville, but as the Judge of Election of that district was not present, the ballot box of the Third ward of Shenan-doah was next called. Judge of Election Monroe II. Kehler was called and sworn. dentified the box as the one he had scaled up The night of the election. Counsel for contestants moved that it be opened and it was so ordered, respondents being allowed an exception. The same lists were found in the box and were turned over to Mr. Deegan. All this time over eighty witnesses from Homeybrook were sented in the court room wondering why they had been subposemed and they began to get restless. They had come down with the intention of being called to testify how they voted at the election, but the whole day's session was taken up by argument of counsel to open the bailet haxes. When told by the court that they must be present to-day to testify one of their number addressed the Court in a straightforward manner, saying that they had worked but thirty days in the last three months and were not able to stand the expense, that nine out of ten had to berrow fully aware of its precinity.

When more who get extra cargoes aboard their skiffs will not domur to the police order that the witnesses be paid at the end of each day's session. Each side should keep a list of witnesses examined and only to move on. It is better to take a but similar who are absolutely necessary and reach home than be sourceased pay a fine. THE BIG FINANCIAL FIGHT!

one of them expressed the opinion that it was the purpose of the national committee to arrempt to felst a gold man upon the convention for temperary chalrman.
This brought out some very vigorous speeches, all very much in the same line and all evineing a determination to have the temperary chalrman at whitever cost.

Schuter-clock Money, of Mississippi, was one of the most outspoken of the speakers.

He took the most outspoken of the speakers.

He took the position that the selection of a temporary chairman should not be left to the national committee at all, but that the silver delegates should demand the right to name the chairman. Others advised a more conservative course, and it was finally decided to leave the matter as the committee had presented it, agreeing to accept any silver delegate of recognized standing who might be chosen by the na-tional Democratic committee in case such should be selected. There was no abatement, however, in the demand for a silver presiding officer, the delegates agreeing that they did not propose to allow a gold man to be put up to make the opening speech, and have this speech sent broad-cast over the country as the first expres-

sion of the Democratic convention.

The plan of proceeding of the silver men in case of the selection of a gold standard advocate by the committee was developed during the course of the meeting. They consider that about one-third the members of the national committee are sliver men In the event indicated these members will present a minority report, naming the choice of the silver men for presiding of-fleer, whereupon the controversy will be brought to an issue upon the floor of the onvention.

It was generally conceded that under the precedents there could be no interference with the national committee in preparing the temporary roll of the con-vention. This decision will leave to the national committee the duty of passing upon the prima faces facts in the contests

The sliver men also discussed the ad-visuality of abrogating the two-thirds rule in accordance with the recom-pendations of the Himols delegation. No formal action was taken, but the prepen-derance of sentiment was so strongly positive a physics that it was route practiagainst a change that it was made practi-cally certain that it will not be attempted This is due to the fact that it is considered that such a course will be unnecessary.
Several members presented figures to show
that the change will not be necessary.
These figures, on the face of the returns
received, place the aliver strength at 58 as

against 352 gold delegates, but assurances have been received which lead to the conclusion that the silver vote will reach 611 and it is confidently believed that the display of so much strength will bring the few other votes necessary to give the re-quired two-thirds. These figures are independent of contests. The states which are counted upon to yield the increase are Maine, Maryland, Michigan and Florida.

Senator Blackburn, of Kentucky, is among the recent arrivals. He was in conference during the greater part of the day with silver delegates from all parts of the country. The someter declines to discuss the situation beyond expressing his satis-faction at the prospects of an unquestionable silver majority in the convention. Colonel Phil Thompson, who accompanies Senator Blackburn, says the smator wil unquestionably be placed in nomination, but that it is not yet determined by whom

the nominating speech will be made.

Meantime the friends of Horace Boles of Iowa, are actively at work creating sentiment in favor of their candidate for the nomination, and say that, notwith-standing the apparent lead of Bland of Missouri, the Iowa man has a good fighting chance

nator David B. Hill and William C. Whitney are expected here tenourow after-noon, and their coming is looked forward to as the opening of the conflict of the eastern gold advocates against the silver men. Mr. Whitney does not, evidently, believe that all 1s yet lost, so far as his fro, on this earthly planet to as the opening of the conflict of the of ours. By this time it's pretty well known that we can serve wearers of shoes better than anybody else can; we save them money the can serve wearers of shoes better than anybody else can; we save them money the can in the can be land now on the ground. Mr. Hesing wrote to Mr. Whitney last Saturday, tellland ing him that a fight for gold would be so much wasted energy, and that in his opinion the surest way out of the trouble was to let the silver men have absolute control, and then after they had finished their work the gold standard people could take some action.

Speaking of the matter today Mr. Hes-ing said: "Mr. Altgeld will control this convention just as absolutely as he con-trolled the Peorla convention. His pronouncementos seem to carry great weight. Senator Hill was perfectly satisfactory as a candidate for temporary chairman to the silver men, but Mr. Altgold said 'no' and that settled it. Within two days he has said that the two-thirds rule on presidential nominations should be abolished and it looks as if he would earry his point

Comptroller Eckels, of the treasury de-partment, when asked this morning if the gold men would boit the convention in case of a positive pronouncement for free silver, expressed the opinion that there would be no open belt; "but," he said, "there would be a defection at the polls which it would be impossible to prevent. The rank and file of the party cannot be made to stand up for the party name if the party convention insists on declaring for free allver. The committee on resolutions of the ap-

proaching convention is not alone to have a wrestle with the great financial prob-lems now proving so vexatious, but is to be presented with arguments pro and con on the question of suffrage for women, and the question is to be presented in no meagre manner, if the women have their way. The half hour given the two sides of the argu-ment by the Republican committee in St Louis is but a fraction of what they will ask here. The suffragists are headed by Lillie Devercaux Blake and Mrs. Clara Foltz. Mrs. Cranwell, of Albany, will face the suffragists age ir and battle against the conferment of the voting power. Governor Aligeld was asked this morn-

ing whether he would accept the temporary chairmanship of the Democratic con-vention in case he should be chosen by the silver forces, and replied that he would not. The governor added that he did not know who would be thosen, and said that he was indifferent as to the man, provided his views on the financial question were

satisfactory, Senator Tillman, chairman of the South Carolina delegation, arrived in the city last night as the advance guard of his del-egation. He joined the silver forces at the Sherman House and participated in the proceedings of the silver meeting there.
