CLEAR headed cyclists are beginning to see the danger to which they are drifting, in the matter of good road movement. Too much attention has been given to cycle paths to the real detriment of the roads. Good advice to cyclists is to work for cycle paths only when it is impossible to secure good roads. The authorities of Brooklyn, N. Y., have been given a great deal of credit for the twin cycle paths muning to the ocean, while betwoon them is a Boulevard which is a disgrace to any civilized community. It was much chemper to the up the paths than it would have been to make the Houleyard acceptable to wheelmen.

chusotts, Daniels of Virginio and Harrity of Pennsylvania, were the recipients of individual ovations. The followers of both sides took every opportunity to cheer on their champions. On the platform were the members of

the national committee. Among the dis-tinguished guests existed in their rear ware a number of gold leaders yebs have been conspictious in previous conventions, but who were swept adds by the silver cohorts in their states. These included General Gordon of Georgia, Senator Lindsay of Kentucky, ex-Congressmen Bynum of Bynum of Indiana, ex-Congressman Outhwalte of whio, and others. But strangest of all on the platform of a Democratic convention were the little cotorie of silver senators who bolted the convention at St. Louis. At present without a party, they seek entrance to the Democratic party on condi-tion that it select Mr. Teller. General John B. Weaver and other Populists and silverites, like Senator Stewart, were also there, all watching closely the results of the deliberations of the convention. Al-

ing, it was a distinguished mathering. The invocation of the boytsh chaplain, Dr. Stires, an Episcopal divine, with its appeal for peace, had hardly ascended to the throne of grace before the contonding hosts mut in the shock of battle. The gold men carried out their program of pre-senting Senator Hill for temporary chair-man, but the silver leaders also held to their resolution and immediately antag-onized him with Senator Daniel. For two hours the oratorical gladiators of the opposing forces fought it out upon the plat-form. Allan McDermott of New Jersey, John I Waller of Connecticut, John R. Follows of New York and General St. Clair of West Virginia champloned Mr. Hill's cause, and C. S. Thomas of Colo-rado, M. F. Tarpey of California, C. A. Ladd of Hilnois, Delegate Marston of London and C. S. Ladd of Illinois, Delegate Marston of Louisiana and National Committeeman Clayton of Alabama insisted upon his overthrow. Colonel Fellows appealed for mercy. He pleaded with the majority to do a generous thing and show that it did not place too much reliance on the force of numbers, but in the rightsousness of their cause. Mr. McDermott was even. their cause. inter cause, are independent was even driven to threats. General St. Clair, who is a sliver man, opposed the defeat of Hill, whom he had supported four years ago, and whose dafoat then he expressed his metricula moments for profound regret for.

But the silver men, most of whom had also been for Hill in 1802, and who re-called the fact with evident pride and with expressed great regret at the neces-sily which compelled them to take this course, contended that the election of a temporary chairman in harmony with the majority was of vital importance. The tempsr of the delegates was plainly appar from the salvos with which they greeted these firm utterances. It was no flocable that neither side put its giants forward.

When the vote came to be taken W. J. Stackhouse, one of the administration's federal officials in Iowa, in order to flaunt the divisions in the Boies delegation, challenged the vote of the state and unover-soven gold votes. Mr. Haldeman did the same thing in Blackburn's Ecritarity doe aution, and Mr. McKnight, a silver Mich-igan delegate, showed twelve allver vote in his delegation which were bound up to the unit rule. The result of the roll call showed 550 votes for Flaniel and 350 for Hill, practically the strength of the two edge.

Although this did not show a two-thirds majority, the silver leaders displayed as anxiety on this score, as the Nebrask gold delegation of twenty-six will be un southi and the representation from the ries will be increased from two to

Sonator Daniel's Speech

Senator Daniel, who assumed the duties f presiding officer, is an impressive figure and a most eloquent orator of the old school. He sounded the keynote for sil-ver in a ringing speech, but the fact that he spoke from notes was rather disappoint-ing to his friends. He spoke in part as follows:

In receiving from your hands this gavel as the tomporary produing officer of this conven-tion I beg leave to express a suntimont, which I am sure is unarimons, that no mational con-vention was ever presided over with more abil-ity or with more simple.

The fact that the European nations are going to the gold stan-dard renders it all the moretunpraceleable that we should do so, for the limited stock of gold in the world would have longer division and a smaller share for each nation. Instead of increasing wages, this polley has further decreased them. Instead of multiply-has multiplied idlers. proval of the American people has re-sulted in the approxiation of gold and a corresponding fall in the prices of commodifies produced by the people; a heavy increase in the burden of taxation and of all debts, public and private: the enrich ment of the money lending classes at home and abroad; paralysis of industry and im-poverishment of the people.

We are unafterably opposed to the single gold standard which has locked fast the prosperity of an industrious people in the paralysis of hard times. Gold monom lism is a British policy founded upon Brit ish gread for gain and power, and its gen eral adoption has brought other nations into financial servitude to London It is

not only un-American but anti-American, and it can be fastened upon the United States only by the stilling of that indom-itable spirit and love of liberty which pro-claimed our political independence in 1776 and won it in the war of the revolution. We demand the immailate restoration

of the free and unlimited coinage of gold and diver at the present legal ratio of 16 and silver at the present legal ratio of 16 to 1, without waiting for the aid or consent of any other nation. We domand that the standard sliver dollar shall be a full legal tender, equally with rold, for all debrs, public and private, and we favor such legislation as will prevent the de-monetization of any kind of legal tender

money by private contract. We are opposed to the Isaue of Interest bearing bonds of the United States in times of parce, and condemn the trafficking with banking syndicates which, in exprofit to themselves, supply the federal trensury with gold to maintain the policy

of gold monometallism. Congress alone has the power to coin and issue money, and President Jackson and tsale money, and President Jackson declared that this power could not be dele-gated to corporations or individuals. We therefore domand that the power to issue notes be taken from the bunks, and that all paper money shall be issued directly by

the treasury department. There would have been no deficit in fed-eral revenue during the last two years but for the annulment by the supreme court of the income tax law placed upon the statute books by a Domocratic congress. The obstruction to an income tax which the supreme court discovered in the constitution after it had iain hidden for hundred years must be removed, to the end that accumulated walth may be made to bear its just share of the burdens of the government. We therefore favor an amendment to the federal constitution that will permit the levy of an income tax. We hold that fariff duties should be levied solely for purposes of revenue, and that taxation should be limited by the needs of the government, honesty and sconomically administered. We denounce as disturbing to business the Republican threat to restore the McKinley law, which has been twice condemned by the people platform met immediately after the ad- in national elections, and which, enacted in interior electrons, and which, ended under the false plea of protection to bome industry, proved a prolific breeder of trusts and monopolies, enriched the few at the expense of the many, restricted trade and deprived the producers of the great American staples of access to their natural markets. We denounce the profligate waste of the money wrung from the people by oppres-sive taxation and the lavish appropria-tions of recent Republican congresses, which have kept taxes high while the labor that pays them is unemployed and the products of the people's toil are depressed in price till they no longer repay the cost of production. We denounce arbitrary interference by federal authorities in local affairs as a violation of the constitution of the United States and a crime against free institu-tions, and we especially object to govern ment by injunction as a new and highly dangerous form of oppression by which federal judges, in contempt of the laws of the states and the rights of citizens, be-come at once legislator, judge and executioner.
