The announcement of the death was made by telegram to relatives in town this morning and no particulars as to the funeral were given.

Constable Thomas Bolin this morning went to Pottsville in response to a telegram announcing the death of his sister, Mrs. James Hoare. Mr. Bolin was distressingly surprised, as he was not aware that his sister had been ill. The deceased was 45 years of age and is survived by her husband and four children. The family resided here until about three years ago. Undertaker O'Neill accompanied Mr. Bolin to Pottsville and will bring the remains to town for interment on the Monday, leaving Pottsville at 10:15 a. m.

Hand Mangled. Francis, 12-year-old son of William Paseo, of West Centre street, last evening exploded a dynamite cap at his home by placing it on a piece of rock and pounding it with another. The explosion tore away part of one of the boy's thumbs, split one of the index fingers so badly that amputation may be necessary and badly mangled another finger. Dr. S. M. Fetzer is attending the boy.

Fingers Smashed. Martin Kermusky, of South Main street, and employed at Kehley Run colliery, had the second and third fingers on his right hand severely mashed by a lump of coal falling upon it. The wounds were dressed by Dr. G. M. Hamilton, and the injured man was taken to his home.

Phenicking To-day. The Germania Mandolin and Guitar Club, which is composed of a number of our musical musicians of town, are enjoying a day's outing at Yatesville to-day. A large number of friends accompanied them, who enjoyed a concert of vocal and instrumental music this afternoon.

Another Robbery. Sneak thieves got into the house of Dr. J. S. Kistler on North Jardin street and stole \$6.30 from a purse lying on a bureau in one of the sleeping apartments on the second floor. The thief got into the house by removing a screen from one of the office windows.

A Slope Caves In. A large part of the slope at East colliery, near Ashland, caved in at about three o'clock yesterday afternoon. Several men who were cleaning out the gunboat pit left it just in time to escape the fall. It is believed it will take three months to put the slope in proper condition and the colliery will be idle in the meantime.

Typhoid fever still runs unchecked in Plymouth, and daily the number of cases is increasing. There have been four deaths within the last week and twelve are now dangerously ill. The cause is attributed by the local board of health to the water supply.

Incognit Assessor.

A very profitable and amusing game can be spent in the vault at the County Commissioners' office, looking over the registry books. Fully nine-tenths of the books are a disarray to the intelligence of the people of the county. They show that the average Assessor is no more fit for his position than a boy just graduated from the primary school. In fact the school boy would spell names right at least. Here is a sample of spelling: Jonason for Jonathan, Godliffe for Gottlieb, Hiron for Hiram. One Assessor has put a dentist down a "tooth-puller."—Miners' Journal.

Race Track Washouts.

During the heavy rain on Thursday the race course at the Trotting park suffered several washouts at points which were undergoing repairs. A force of men has again been engaged for repairs, as there is still sufficient money in the treasury for more extensive improvements.

Deaths Recorded.

The following deaths were recorded to-day: From the Lehigh Valley Railroad Company to the Lehigh Coal and Navigation Company, for right of way in Kline township, from Carl Wagner, Trustee of the estate of Henry H. Hummel, to Angelina Hummel, for land in Norwegian township, from Henry Krebs et al. to John Birchall, for lot in St. Clair.

Qualified Physician.

Dr. W. C. Baird, of Brownsville, this morning received his official statement from the State Board of Examining Physicians, that he attained the average and is now a qualified physician. Dr. Baird's location to practice is yet an uncertainty.

Mrs. Cook, of West Centre street, says she is not the Mrs. Cook who was interested in the recent law suits before Justices Bailey and Shoemaker.

Modern Lamps the Best.

That the Davy Lamp is an unsafe lamp for miners has been proven time and again to the satisfaction of all intelligent mining engineers and superintendents. That lamp first invented by Sir Humphrey Davy the Davy lamp was far in advance of any other means of lighting gaseous mines, we acceptly admit, and join with the mining fraternity generally in honoring the memory of the great inventor. That it was the foundation on which all subsequent lamps, including the best now on the market, were built, is a matter that can not be disputed. But why miners will insist on using these primitive lamps made and will ignore the discoveries and inventions of late years, is something we cannot understand.—Colony Engineer.

Diphtheria's Enemy.

Heretofore diphtheria held supreme sway in all families where it entered. Physicians used their best medical skill to stay and cure the terrible disease, yet thousands upon thousands died annually. At last a positive remedy has been found which cures every case that may arise. Thompson's Diphtheria Cure is positively guaranteed to cure every case of Diphtheria where it is applied in strict accordance with printed instructions. Leading druggists everywhere sell it at 50 cents a bottle, and no family in the land can afford to be without some on hand all the time.
