THE season of picnics, broken arms, excursions, drownings &c., is now in full blast.

CANDIDATE BRYAN it appears is a lawyer for the Missouri Pacific Railway. That settles him out. The Populists will have no one employed by Gould and Sage.

BY way of apology for Altgeld some of his followers say he was a Supreme Court Judge in Illinois. We would remind them that the Devil once held a far more exalted position.

THE army is doing some bad work among the farmers, but nothing in comparison with the army of politicians that are marching to Canton, Ohio. Nothing but a red flag and smallpox marked on the door, will stop the tramping to Canton.

THE National Guardsmen leave for Lewisburg to-day for the annual tour of camp duty which commences to-morrow morning. Shenandoah is one of the few large towns in the state not represented by a company in the guard.

SAWASH's Coal Trade Journal of July 15th publishes in full the HERALD's report of the tapping of the old workings at Girard. Man-months of labor, which successfully disposed of an immense body of water, and made feasible the working of a large body of coal.

THE attempt of the Eastern Rye Whisky Trust to corner the market has failed. Considering the state of the weather it is fortunate that no one has tried to corner the beer market, as the corner and the weather together would be too much of an affliction at the same time.

GOVERNOR ALTGELD and other distinguished Democrats will also be present, read the bill inviting the people to spontaneously turn out and welcome Billy Bryan to Salem, his birthplace in Illinois. The trial of Altgeld is over it all. The boy autor is unable to get away from it even on a visit to his birthplace.

AFTER all, there is a great deal of hard horse sense inside the Democratic party. This is beautifully and patriotically manifested by the way in which old Democrats are lining up under the banner of McKinley, with Old Glory floating over all. And Republicans would do the same thing if they had the same occasion.

We have quite a number of silver Republicans in Pennsylvania, few if any of whom would have voted against McKinley because of their great desire to have Protection restored; but if any thought of going over to the Chicago candidate, that thought has been abandoned by reason of the company they would be compelled to keep. They dislike an endorsement of riot and disorder and an invitation to rioters to become do as they please; they dislike the threatened abolition of the life tenure for Supreme Judges of the United States Court; they dislike nearly every line of the platform, and while they are for free silver not half of them favor a ratio which they know means a cheat. Silver Republicans are for McKinley, because they see that after all the choice is between good and bad citizenship under the Chicago platform.

IN discussing the approaching campaign the New York Herald says the Congressional elections this year will assume a significance which they have not had since the war. On their result will depend whether the lower branch of the next Congress is to be controlled by silver fanatics and Populists or by sound money men. The importance of this question cannot be overestimated, since on its determination must hang the character of the financial legislation of the next Congress. Even should the silverites succeed in electing their Presidential ticket they could not carry out their financial heresies without the co-operation of Congress, while on the other hand even a sound money President would have only the veto power to ward off dangerous financial legislation. If Congress should fall into the clutches of the silverites, the battle for the gold standard must therefore be waged vigorously in every Congressional district with the determination of electing a sound money majority to the House. The same course should also be pursued in every state where legislators who will vote for a United States Senator are to be chosen. In short, the sound money fight must be started and kept up all along the line. Schuylkill county will be the scene of a hard struggle and it behoves every citizen who desires to see the honor of the country upheld to vote for a candidate whose views are not in doubt.

If thy feet offend thee, don't cut 'em off. Bring them to the Factory Shoe Store, and we will fit them comfortably. J. A. MOYER, Mgr.

LENGTHY COUNCIL SESSION

(Continued from first page.)

There are a lot of receipts that would be a blamed sight worse," included the Burgess.

President James: "We ought to have them here."

More talk followed, in which 29 fines and costs for misuses were criticized and failure of Justices to make returns of fines collected or arrests by constables were spoken of, and Mr. Englehart, a special officer, ought to be employed to help the police on Saturday nights, but it all ended in talk.

Mr. Gable said a chimney in a new house on Huckleberry alley was not being properly constructed and the blue committee was instructed to look into the matter. Mr. Rose also called the committee's attention to Carmen's candy kitchen on North Main street.

On motion of Mr. Murphy it was decided to pay the M. A. Boyer judgment and costs, without interest, amounting to \$323.33.

Supervisor Llewellyn said a number of people complained that Mr. L. J. Wilkinson was taking up four feet of the pavement for garden purposes on the Lloyd street side of his property and after considerable discussion, upon motion of Mr. Gable, the Chief Burgess was authorized to instruct Mr. Wilkinson to remove the wall he had laid for a fence on the pavement and, upon Mr. Lally's suggestion, and the Chief Burgess was also to instruct all parties in the borough violating the law in that particular to remove the obstructions from the streets.

The full scope of this motion cannot be taken in at a glance. It involves every obstruction that is not a porch, Council holding that it is a porch and five-foot limit can be used only for porches or steps to buildings.

Mr. Murphy said the Sanitary committee could locate no nuisance on Plum alley, as complained by Mr. Sheeler, but that there was bad nuisance on South Pearl alley. Then Messrs. McTeigue, Coalkey, Englehart and Lally came forth with a string of nuisances, designating the north side of Centre street, opposite Peach alley, corner of White and Coal streets, on Plum alley, near Coal street, at Catherine and Centre streets and on Market alley, near Coal street. All were referred to the Sanitary Committee.

Mr. Gable said that to comply with the position for an extension of the West Coal street water main would involve from 2,000 to 2,500 feet of pipe and digging and the revenue would be about \$600 a year. A shorter line could be made, but all the families would not be reached and 2/3 of the pipe would be idle. No action was taken.

It was decided to pay the bill of William Semplek less the amount of demurage.

Mr. Korn asked that another fire plug be placed at Turkey Run.

Mr. Gable said Mr. C. E. Titman wanted to meet the Water committee again, but he inferred that the proposition Mr. Titman would make for supplying water would not be as how as the borough could get from other sources.

D. R. James said "We are not getting water rents in. The plant has been running near a year and only \$4,500 has been collected. We will go into the next six months without having the last six months in." He thought an office for the superintendent should be established in the center of the town and a public notice ought to be given to the people to pay up.

On motion of D. R. James the chairman of the water committee and superintendent of water works were instructed to act in conjunction in purchasing water meters and placing them where their in judgment they may be deemed necessary.

President James appointed Philip D. Holman to succeed T. F. Miles as representative from the Fourth ward on the Board of Health.

Mr. Coalkey moved that W. G. Gregory be re-elected Borough Surveyor and on Mr. Lally's motion the election was made by acclamation.

The Chief Burgess, other officers and street committee will meet Engineer George S. Clemens next Monday morning to visit a location for a public dumping ground. The P. & C. & L. Co. will give under certain conditions not specified.

Never saw anything like it.

It is always safe to profit by the experience of others, and especially when it concerns life and health. Maude Johnson, Brookside, Pa., writes: "I had diphtheria and catarrh very bad and used a bottle of Thompson's Diphtheria Cure. Never saw anything like it; it took nearly all the membrane out of my throat in one day, and also cured my earache." Sold by druggists everywhere at 50 cents a bottle. Never failed in a single instance when used according to directions.

The Khalifa's Cruelty.

LONDON, July 17.—A deputation received here yesterday from Arab officials reports the messenger who carried the news to the Khalifa that Omdurman that his army had been defeated at Fisket was immediately put to death by crucifixion. The Khalifa announced that the same fate as that which befell the messenger would be imposed upon any one who mentioned Fisket in his hearing.

Ex-Secretary Whitney's Attitude.

NEW YORK, July 17.—Mr. W. S. Whitney has sent the following dispatch to the Associated Press: "Will you be kind enough to correct the statement that I desire the endorsement by the state organization of the Chicago ticket? There are no possible conditions or circumstances that would induce me to vote for it at any cost."

Silverites Instructed for Bryan.

TOPEKA, Kan., July 17.—The silver convention here yesterday elected E. C. Little chairman. He was United States consul at Cairo, Egypt, under the Harrison administration. R. W. Turner, who was one of the secretaries of the convention, was also United States consul under the same administration at Cadiz. Sixty delegates were elected to the St. Louis convention of bimetallists. The delegation was instructed to vote as a unit in favor of endorsing William J. Bryan for president.

Arkansas' Populist Convention.

LITTLE ROCK, July 17.—The Populist convention nominated A. W. Files of Pulaski county, for governor, by acclamation. No other nominations were made. The delegates then listened to an hour's address by Master Workman Sovoyeau, and elected an uninterested delegation to St. Louis.
