Mr. Bryun's Beavy Mail. LINCOLN, Neb., July 21 -- Each day the pile of letters at the home of William J. Bryan increases in size. Instead of catching up with his correspondence the Democratic presidential candidate gets farther behind. More letters come in each day than he, his wife, and his secretary can open and read. In the thousands of let-ters and telegrams there might be one from Cleveland, Hill or some prominent Democrat that should be attended to at once. In order to let the people who have written to him know the condition of affairs Mr. Bryan yesterday gave out a state ment of the facts, and urging his many correspondents to desist.

The delegates favorable to the inderse ment of Mr. Bryan met again yesterday at their headquarters at the Lindell hotel, and made permanent their temporary or ganization by electing Hon. J. B. They also appointed a stearing committee, with Mr. Weaver as chaleman, to take in hand the movement for the indersement of Mr. Bryan, and to act very much as the silver steering committee did at the Democratic convention in Chlongo. Among the states represented at the meeting were Maryland, Pennsyl vania, Colorado, Kansas, Oklahoraa, Nevada, Urah, California, Washington, Wes Virginia, Nebraska, District of Columbia, idiata, Iowa and Montana. Earl D. Smith, of Chleago, has been cir

culating a series of resolutions which have en approved by many individual Popu lists, and which the originator thinks will meet all the difficulties confronting the party. Among the resolutions is one reognizing Bryan as a safe leader and a mon of high character, but another recites the necessity of maintaining the People party, and it is proposed to select north bes for president and vice president, an then to express a second choice for Bryan and Sewall. Adivision of the electoral vote in the several states with the Democratic is recommended. If the number of People's party electoral vote is found to b less than that of the Democrats the for-mer's electors are to vote for Bryan and Sewall, but if the People's party has a larger number of closters than the Democrats are requested to cast their votes to the numbers of the People's party. DENVES, Colo., July 21.—Senator Teller and eleven of his associates who left the national Republican convention last ever ing made public an address to the silver Republicans of the country setting forth their views of the sirundon. The silver Republican congressmen and sometors have been in conference at Manifou for several days over this statement. In ad-dition to those signing the address Sen-ator Pettigrew of South Dakots and Sen-ator Camen of Utah are declared to be in sympathy with it, although Senator Cannon was not present at the conference,

owing to business engagements in Boston.

The address says in part: The address says in part:

'The Democratic party, in its Chicago convention has taken a position in its platform so pronouncedly favorable to silver, and has nominated condidates of such unquestionable convictions in favor of the bimetallic policy and of such high personal character, that we have determined to the personal character. mined to give them our support. We support such candidates because they represent the great principle of bimetal-ism, which we believe to be the cause of humanity and civilization and the paramount question now before the American

"We therefore announce that we shall by voice and vote support Messrs. Bryan and Sewall for president and vice president, and we appeal to all citizens, and especially to Republicans who feel, as we , that gold monometallism would be lasting injury to the country, to act with us in securing their election.

The Demograts who believe in the gold standard are announcing their intention to support McKinley, or proposing to put a third candidate in the field for the avowed purpose of aiding Mr. McKinley's election. A great number of leading and influential Democratic journals have declared that they will support the Republi-can nominess. It is evident there is to be a union of forces on the part of the advoestes and supporters of the gold standard to elect Mr McKinley and a congress favorable to him, which will support the financial policy outlined in the Republican platform.

To those who believe in himetallism, which means the equal treatment of both gold and silver at the mints of the testion there is but one course to pursue, and that is to units all the siver forces and to oppose with all our might the candidate reresenting the policy which we believe be fraught with discourt to the nation and ruin to the people."
