REPUBLICAN NATIONAL TICKET.

FOR PRESIDENT,

WILLIAM MCKINLEY,

OF OHIO.

FOR VICE PRESIDENT,

GABRIEL A. ROBERT,

OF NEW JERSEY.

REPUBLICAN STATE TICKET.

FOR GOVERNOR-AT-LARGE,

GALUSHA A. GROW,

OF SHENANDOAH.

SAMUEL A. DAVENPORT,

OF OHIO.

MR. BRUNN is displaying weakness early in the canvass. It may yet be necessary for him to make a few speeches on the financial question.

On March 17th last, in a speech at Mt. Vernon, Ill., candidate Bryan stated that if the Democratic party in its National platform did not declare for free silver he would not support the Democratic ticket. Is it any wonder that Democrats are refusing to support him, and what claim has he upon their support?

TOM COOPER, of Media, who in the past was referred to as the red-headed and hopeful statesman from Delaware county, is figuring on the result of the vote in November. Times who remember his figuring in the campaign for state chairman in 1885 have a high opinion of his ability as a political mathematician. He figures on 233 electoral votes as sure for McKinley and Robert.

AND now again comes word from Havana that the Cuban insurgents are in a very hopeful mood; were never stronger in point of men, never had better equipments, never so many offers of additional men, which they cannot accept because of inability to arm them. That a big battle is imminent now appears to be generally conceded, and it may be that it will prove the ending of the uprising one way or the other.

THE merchant who gives his printing to a foreign establishment that has no interest in the town's welfare and contributes nothing to its support, is doing a very unwise thing. He may save a few cents at the time, but in the long run he may lose many dollars in the future. On the other hand, we have heard of considerable sums of money being paid to the printer. Apparently, Mr. Brunna is on the train.

IT has always been recognized as a proper courtesy extended between candidates that each be allowed the delegates from their home towns without opposition on the part of the other candidates. It appears, however, that Mr. Brunna has found that delegates favorable to his re-nomination in other parts of the county are so scarce in Shenandoah that it is not advisable to seek support at Shenandoah. It certainly displays a weakness on the part of the present Congressman. We do not think his pilgrimage here yesterday will avail him anything.

THE nomination for County Register has brought forth three candidates so far, and among the number appears the name of Frank C. Reese, the prominent young Republican of town. Mr. Reese is at present filling the important position of Deputy under Controller Severn, and his record in that office fully attests his competency for the position to which he aspires. The young Republicans confidently expect recognition at the hands of the county convention, and toady so, and there are few more deserving than our friend Frank. He is making an active canvass for the position.

JUDGE CRATO, of Carbon county, recently handed down a decision of considerable importance to the mine inspectors and deputy coroners of this and other counties. A man lost his life in the mines in that county and the mine inspector directed that an inquest should be held. The law directs that the inquest shall first visit the scene of the accident and if, after examination, he finds that a coroner's inquest is necessary, then he shall notify the coroner that one shall be held. Judge Craig holds that this notice must specify why the inquest shall be held, and unless it does so specify, the coroner has no jurisdiction. He, therefore, decided that the county was not liable for the cost of the inquest in that the evidence failed to show that there were suspicious circumstances connected with the death of the deceased.

NOW the great life insurance industry of the country has awakened to the fact that its very existence is threatened by the platform of the Chicago convention and its thousands of busy workers and those who hold policies are determined to crush the free silver ticket beneath an avalanche of votes. The officers of the many life insurance companies, societies and associations see in the success of the anarchistic Democratic ticket and the platform it represents the depreciation of policies to an alarming extent. Several of the larger insurance concerns have taken such an interest in the issues of the approaching campaign as to warn policy holders of the dangers of a free silver victory. Never before have these corporations touched upon political questions, but after a careful study of what the election of Bryan would mean to the holders of policies the officers deem it their duty to place the matter before their members in time to avoid what they term a national calamity.

DELIGHTFUL CONCERTS.

What the Shenandoah Papers Say of Our Famous Band.

Since noon of yesterday, at which time the celebrated Grant band of Shenandoah, arrived in Shenandoah to depart almost immediately for Maysville park, the later place was crowded with people anxious to hear the music. The greatest crowd was that of last evening, fully 2,000 being on and surrounding the pavilion. The band, consisting of twenty-one members and attired in handsome blue uniforms, played dance and concert music, each selection being up to date and received with applause. The two-step was especially delightful and at 11 o'clock when the last selection was played the floor was still filled with dancers. It is to be trusted that the band will be re-engaged within a few weeks, as no attraction has thus far equalled it this season.—The News.

The Grant Band, of Shenandoah, played two engagements at Maysville yesterday and its fine music was enjoyed by thousands of people who congregated during the day. The band well deserves the excellent reputation that has been given it by the press throughout the state, and it is hoped that it will favor Shenandoah with another visit, secondary Harry Shipps and Lake Switzer, formerly of this city, and who were members of "Our Band," are members of the organization. There are thirty members in the band, seven of whom are the Schoppe brothers.—Dispatch.

The noted Grant band of Shenandoah gave two concerts at Maysville park yesterday afternoon and evening, which was attended by several thousand people from Mt. Carmel and Shenandoah. This excellent organization fully maintained its high reputation by the quality of music rendered.—Mt. Carmel News.

The State Industry.

While other industries are prostrated the slate business in both the Slatington and Bangor districts is booming and large exports are being made. Last week the Carbon Slate Company, of Slatington, shipped 71 cars to England, and another order for 8,284 squares of roofing slate has just been received. A representative of five large dealers in Germany is at Slatington to make arrangements to have 250,000 slates shipped to the South American market. John W. Bess, of Penn Argel, has sent their New York representative to Europe to close negotiations for the sale of between 35,000 and 40,000 feet of blackboards. David R. James, of town, and John McInnes, of Frackville, are interested in a slate quarry at that place.

The Appointment Not Mandatory.

An important ruling under the new compulsory educational law has been made by Charles M. Plank, the solicitor of the Reading School Board. As the demand for seating capacity in the school already exceeds the supply, the Board was in a quandary as to whether it would be compelled to appoint a trustee officer whose position would be a sinecure. The solicitor decides that the clause of the act providing for the appointment of a trustee officer is not mandatory, but a matter within the discretion of the Board.

PHILADELPHIA RECORD

In recent years that those of their readers who are not thoroughly familiar with the world are not excusable if they should occasionally lose sight of the fact that a horn leader of newspapers, like any other originator or discoverer, is never contented except in the foremost position.

When The Philadelphia Record undertook nineteen years ago to demonstrate that the best of morning newspapers could be made and sold for one cent, publishers were generally skeptical. But the world of readers was not asleep. Consequently The Record was not long in reaching a commanding position, and its growing reputation, its circulation and influence were finally recognized among the foremost of America's great journals. Hence the compliment of imitation, which is now paid to it in every city of note from the Atlantic coast to the Mississippi Valley. Every city worth mentioning now has one or more copies of this morning paper, though so recently as only 19 years ago, Philadelphia and The Record stood alone in this respect.

News Concisely Published

Without the omission of any essential feature, is still the BEST NEWS, understanding the once more prevalent tendency to pad it and stretch it out.

The Honey Man's Paper, and publishers, still originates, still leads, and publishes MORE NEWS in the column than its neighbors of larger dimensions.

The Daily and Sunday

RECORD

With their several admirable and always instructive features in addition to the day's news from all the world, are now almost unrivaled in circulation as to good qualities. With an average daily circulation of over 100,000 copies and an average of 120,000 on Sundays, The Record is still, regardless of all imitations, easily a leader of leading newspapers. A paper so good, with 10 to 14 pages for one cent, is still very properly a favorite. Through low in price, it is never cheap, but spurs no expense that will give its readers the very best and freshest information of all that's going on around them.

THE BRYAN MEN IN CONTROL

(Continued from First Page.)

vote was taken by states, and again the majority report was sustained.

The Missouri contest was withdrawn. Five minutes was given each side of the Wisconsin case, involving one seat. Mr. Cole, who had been seated by the national committee, stated he was a Bryan man, and for that reason was not to be allowed a seat? He appealed to the fairness of the southern delegates to seat him. The announcement of the preference for president was greeted with cheers by the Bryan men. The majority report unseating Cole and seating Isaacs was adopted.

The report of the committee on permanent organization was then read. The announcement of the election of Senator Allen, of Nebraska, for permanent chairman was the signal for a wild Bryan demonstration, which lasted several minutes.

John W. Hays, of New Jersey, was selected for secretary and the other temporary officers were made permanent.

The minority report, naming James E. Gampton, of Maine, for permanent chairman, set the "middle of the road" men on fire. The Texas and Georgia delegates climbed on to their chairs and yelled like Indiana. Several large "middle of the road" banners were paraded through the aisles. The western delegates as a rule took no part in the demonstration. One of the Georgia delegates pulled up his state standard and followed the "middle of the road" banner, which was held aloft by two members of the delegation, one white and one colored. The standards of Texas, Arkansas, Ohio, Mississippi, Missouri and several other states joined the procession. In a scuffle for the possession of the Alabama gulfion the staff was broken and a free fight almost precipitated. Bedlam reigned for ten minutes.

The roll call of states on the organization committee's report was again demanded, and proceeded with amid the greatest enthusiasm. The constant gain made the Bryan men enthusiastic, and they cheered lustily at every announcement. The "middle of the road" men did not make a gain until Mississippi was reached, when a gain of two was made, reckoned on the former vote. They got a good chance to cheer, however, when North Carolina, which divided 75 to 30 on the first vote, divided her vote equally between Allen and Gampton.

When the chairman announced the result as 75 for Allen and 54 for Gampton, the Bryan men screamed with joy. They got on their chairs and cheered. They whirled their coats, umbrellas, hats and everything they could grab. They uprooted their state standards and paraded them about the aisles. A number of colored men took possession of the Alabama standard, but the Bryan men at last carried it off victoriously. Only the Texas and other "middle of the road" southern delegates sat silently in their seats during the wild demonstration. The gulfions of the Bryan states danced for five minutes about Nebraska and then, Indian file, they were borne about the delegates' enclosure.

The hand played, but it could just be heard. Four colored men with banjos got near the stage and sang a Bryan song. The scene, with the exception of the fact that the gulfions did not participate in the demonstration, every much resembled that at the Coliseum in Chicago when Mr. Bryan was nominated. It lasted about eighteen minutes.

The following list will show the geographical location of the Bryan strength, the states being classified according to the majority of their votes:

For Allen—Colorado, Connecticut, Delaware, Florida, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Massachusetts, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Dakota, Oregon, Pennsylvania, Rhode Island, Wisconsin, New Mexico, District of Columbia and Arizona.

For Gampton—Alabama, California, Georgia, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Rhode Island, Texas, Vermont, Wisconsin and Indian Territory.

The votes of North Carolina, Wyoming and Oklahoma were equally divided.

After order was restored Delegate Williams, of California, climbed on to the stage. "We have made a square fight," he shouted, "we have been fairly beaten, and in the interest of peace and harmony I move that the selection of William V. Wallace as permanent chairman be made unanimous." His motion was carried with a hurrah, but there were loud cries of dissenting in the direction of the Lone Star delegation. Ex-Congressman Life Pence, "Cyclone" Davis and Ignatius Donnelly were appointed a committee to escort Senator Allen to his platform.

In presenting Senator Allen to the convention "Cyclone" Davis said: "Now, my fellow citizens, I want to assure you that for more than four long days and four nights I have done every honorable thing that I could to elect a 'middle of the road' man, but I have never done one dishonorable thing against any man. What the Populist committee and the Populist convention had chosen the distinguished senator from the western plateau, and I had been selected without my knowledge until my name was called to notify him of the fact. I went out to that special committee. I now reach you from the south up the Mississippi valley and give you your chairman from the plateau, Senator Allen."

Senator Allen spoke at some length, being listened to with a great deal of interest. He has a reputation as a speaker. During the debate on the repeal of the Sherman law he had held long hours of earnest discussion. He advocated the nomination of Bryan. He said that he was not in favor of any action which would elect a gold standard man. His reference to those who were trying to have the Populist party elect a gold standard man as having "the Mark Hanna's bloodline in their pockets" was greeted with hisses and cheers.

"Do you want McKinley?" asked Allen. "No!" shouted the crowd.

"No Bryan either," said several delegates.

It was 9:30 when Senator Allen concluded. Several attempts to secure an adjournment were made, but Senator Butler, acting as a delegate, moved the appointment of a committee to confer with the committee of the silver convention. There were many and loud cries of "no," and Mr. Branch, of Georgia, moved to table the motion. The nays seemed to be in a large majority, and the motion to table was declared lost. Senator Butler's motion was carried with a loud chorus of ayes and great cheering. The Bryan men were apparently in full control of the convention.

A Tennessee delegate offered a resolution declaring that free and unlimited coinage was paramount, and directing the conference committee to bring it about.

Ministers Should Use Dr. Miles' Heart Cure.

There is no profession, whom labor so severely tax the nervous system, as that of the ministry. The derangement of the nerve centers of the brain by over work, frequently brings on attacks of heart trouble, and nervous prostration.

There is no profession, whom labor so severely tax the nervous system, as that of the ministry. The derangement of the nerve centers of the brain by over work, frequently brings on attacks of heart trouble, and nervous prostration.

Rev. J. P. Koster, M. D., Pastor U. B. church, London Mills, Ill., himself a physician, writes Feb. 25, 1895: "Heart affection and nervous prostration had become so serious last fall that a little over work in the pulpit would so completely prostrate me that it seemed certain I must relinquish the work of the ministry entirely. Heart palpitation became so bad that my auditors would ask me if I did not have brain disease. Last November I commenced taking Dr. Miles' New Heart Cure alternately with Dr. Miles' Nerve and derived the greatest possible benefit. I have just closed revival work of 10 weeks, preaching nearly every night and twice on the Sabbath. I can speak for hours without suffering as I formerly did. My working ministers should keep Dr. Miles' grand remedies on hand."

Dr. Miles' Heart Cure is sold on guarantee that bottle will benefit or money refunded.
