The senator, it is said, also requested the appointment of J. Henry Marshall, of Sharon Hill, as sheriff of Delaware county, to fill the unexpired term of Elwood T. Carr, whose death occurred Tuesday. Neither the governor nor Senator Quay will tell what passed between them.

A PALATIAL ESTABLISHMENT.

Wilkinson's New Store Will be Opened Tomorrow Evening.

L. J. Wilkinson is making final preparations for the opening of his new store at the southeast corner of Main and Lloyd streets to-morrow afternoon. It is a spacious and magnificent place and will be an imposing addition to the business places of that street. It has many advantages that few other stores have. No other place in the town is as well lighted. Mr. Wilkinson takes special pride in this part of the arrangement. There is 'hot case' saleroom and it embraces all departments of the business. The room is on the first floor and there are no stairs to climb. Light during the day is furnished by nine good-sized windows on the Lloyd street side and two skylights, each 8x10 feet. At night illumination will be furnished by 24 Wellsbach lights in addition to an arch light in front of the store. The second floor of the building is reserved exclusively for duplicate stock and all sales will be made on the main floor. The saleroom is fitted in solid oak and all the gas fixtures and overhead fixtures are nickel-plated. Mr. Wilkinson is carrying a stock of from \$25,000 to \$30,000 worth of goods and even the immense proportions of the saleroom are inadequate for a proper display of goods. On the Lloyd street side of the room are the dress goods, domestic cottons, flannel, sheeting and ticking departments; on the opposite side the departments for notions, corsets, muslin underwear, hosiery, domestic goods, toilet articles and general in the goods, purses, cologne, toilet waters and soap; and the rear of the saleroom is devoted to the cloak and carpet departments and cashier's office. A cash carrier system will be operated from the office to all parts of the store. The cloak department is a feature. It is furnished with all the latest improved fixtures. Mr. Wilkinson will throw the store open to the public to-morrow afternoon. In the evening, at 8 o'clock, the Lithuanian band, under the direction of Prof. F. Zeitz, will give a grand concert at which the following program will be rendered: "March, 'Comes'; 'The Rag in Ireland'; 'Praise the Lord'; 'Fair Maid of Perth'; 'McKinley Club March'; 'Let us Have Joy in the Lord'; 'The Coons' Picnic'; 'Around the Metropolis'; 'Comfort ye, my People'; 'march, 'Northwind'."

The Coal Trade.
The anthracite operators appear to think that 4,000,000 tons will meet the market requirements for the month of August and in this they are not likely to be disappointed. There is no change in the price list at tide-water, nor at the west, but there may be some slight change in what is known as the live trade price between the mines and tide-water. The market can hardly be called active at present, and the business which has been done has largely been that of filling orders which has been carried over. The main thing which bothers just at present is the fact that all the retailers of any financial standing at all have pretty full stocks, and the coal does not move with any degree of activity from the yards to the ultimate consumer, who is apparently of the impression that rates will be no higher some time hence than they are at present, and there is therefore no necessity for haste on his part in giving his order. From all that can be gathered from the reports of trade condition, the anthracite producers should exercise their wisest judgment and keep the output down for the next six weeks.—Swards Coal Trade Journal.

An Unlikely Story.
There is much discussion at the county seat over a rumor in political circles to the effect that a deal is on between the Greenback element of the Republican party and the Democrats. It is said that a meeting was recently held in Pottsville, and the outcome of the consultation is for the Greenbackers to endeavor to have a modification of the free silver platform adopted by the recent Democratic National Convention introduced at the Republican County Convention next Monday for endorsement. In the event of the failure of the scheme this element will bolt the Republican party and will join issues with their Democratic brethren. In the event of their alliance with the Democratic party they will endeavor to have that party take up the following ticket: Daniel Duffy, for Senator; William H. Stout, of Pinegrove, and James W. Carlin, Esq., of Pottsville, for the Legislature. The Republicans place little faith in the rumor.

The truth, the whole truth and nothing but the truth. That's our motto; and we add leather, solid leather and nothing but leather. That's the way our shoes are built.

The New Telephone Company.
In a short time Pottsville and other towns in Schuylkill county will be supplied with a new telephone service. The Schuylkill Telephone Company is the name of the new company. The company will connect with the lines of the Shamokin, Seubury and Mt. Carmel Company that is now in operation. The committee has been canvassing the past few days and over 100 phones have been subscribed for in Pottsville alone. The price is \$24 a year with the privilege of talking anywhere in Schuylkill and Northumberland counties. William A. Marr, of Ashland, is the president of the company and Judge Savidge, of Northumberland, and Senator Monaghan, of Shenandoah, are directors. The Town Council accorded the company right of way some months ago.—Journal.

Two boys named John Lee and George Moyer were put under \$200 bail each this morning by Justice Lawlor for assaulting Philip Yarowski, a West Centre street merchant. They attacked the man with stones and Yarowski says the assault was wholly unwarranted. A large lump was raised on his side by the attack. It is said; the boys have made unprovoked attacks on other people.

avoidable," he said, "the scene in our car was terrible. Women fainted and men rushed in mad panic for the door. But it came almost before we knew it. The third car was cut right in two and the lower portion of it lifted bodily from the track and tumbled over. Every car was crowded, and it is hard to think of the numbers who must be lying under those ruins! The roof of one of the cars fell in as a mass, and everybody in that car was buried under it. It simply dropped in on the people."
