**Obituary.**  
Howard, the 18-month-old son of Frederick Keithan, the North Main street confectioner, died last night from diphtheria.  
Richard Dabb, Sr., died last night at the home of his daughter, Mrs. Louise Seymour, in Jackson's patch, from the effects of a stroke of paralysis sustained on the 9th inst. He suffered a stroke about two years ago. The deceased's wife died about 12 years ago. He is survived by three children, Richard Dabb, Jr., the photographer of town; Mrs. Louise Seymour, of Jackson's, and Mrs. Elizabeth J. Eade, of Wisconsin. The funeral will take place to-morrow at 2 p. m.

**A Basket Picnic.**  
Several members of Shenandoah Valley Encompiet No. 255, L. O. O. F., and their families held a basket picnic in the Ringtown grove yesterday and had a very enjoyable time. Among those who attended were John Bonn and wife, C. G. Palmer and wife, Edwin R. Williams and wife, John Hodges and wife, Henry L. Jones and daughter, Moses Owens and daughter, William Zerby and William Draper. Several Odd Fellows of Ringtown and their families also took part in the picnic. Games of various kinds, including base ball and quoit pitching, were indulged in by the male members of the party. The committee desires to extend a vote of thanks to Mr. Benjamin Richards for a donation of refreshments for the occasion.

**LUCKY BABIES.**

**Always Plump and Well on Lactated Food.**

**No Fear of Cholera Infantum in These Homes.**

**Babies Need No Coaxing to Eat Heartily.**

**A Diet Accurately Fitted to Their Strength.**

**Lactated Food Never Disturbs Most Sensitive Stomach.**

Babies that will not eat when hot weather comes in must be made to eat—But not made to eat by forcing or coaxing them against their wills. For a baby's stomach, made to take food against its will, is of the same opinion still, and not at all in a mood to digest heartily and completely.

By an intelligent study of baby's proper food in hot weather it is today possible to make baby eat—because it wants to.

Lactated food is prepared with the true scientific knowledge that nothing better can be done than to follow nature as closely as possible in the difficult task of feeding babies that are not thriving, either because of hot weather or because of natural low vitality. Lactated food is most like mother's milk. It has saved the lives of thousands of little ones. It is within the reach of all.

Until within recent years infants deprived of mother's milk have been reared in a haphazard and unscientific manner, with the usual result that the enormous mortality during the first five years of life has been a reproach to medical men.

But all this is now changed. Practical, scientific, philanthropic-minded men of the highest standing have devoted themselves exclusively to these great problems of infant feeding. Many valuable results have come, but the greatest and the most practical is the preparation of lactated food, the most nourishing, strengthening, readily digested and palatable food that can be given the baby.

Just now when the death reports show a fearful prevalence of diarrhea and cholera infantum—the effect of improper diet in hot weather—lactated food is doing its best work. It is saving the lives of little ones in nearly every city and town in the United States.

Mrs. H. C. Bennett, of Upton, Mass., the happy mother of the three babies whose pictures are here given, writes to the proprietors of lactated food, "I endorse here-

with photograph of my twin girls born June 2, 1894, and baby Vera, born May 21, 1895. I had no milk for the twins, and the nurse recommended—'s' food. But the babies did not thrive on it. We called in our doctor, Dr. A. J. Gallison of Franklin, and he said the food must be changed at once. He recommended lactated food as the best infant food. We tried one box, and were so well pleased with the result that we kept on using it. I commenced to nurse the younger baby, but had not enough milk, and, as she did not thrive on milk, we gave her lactated food, which agreed with her perfectly."

**The Greenbackers.**  
At the executive session of the Greenbackers, held at Pottsville yesterday, the following executive committee was appointed: William Wilhelm, Pottsville; Daniel Duffy, St. Clair; J. H. Pomeroy, Shenandoah; J. W. Parker, Mahanoy City; J. E. McGinnis, Frankville; Owen Gentry, Ashland; C. B. Cosgro, Schuylkill Haven; W. I. Haldeman, Pinegrove; John W. Kenschner, Schuylkill township; E. F. Walsh, Brownsville; John C. Hannigan, Palo Alto. This committee will meet at Pottsville on next Monday morning at 9 o'clock to take such action as in their judgment will best advance their cause. Those from Shenandoah in attendance were: M. J. Lawlor, J. H. Pomeroy, Esq., A. B. Lamb, David R. James and P. W. Bierstein.

**No Respector of Persons.**  
That much dreaded disease diphtheria, is no respector of person, age or condition in life. It attracts the rich and the poor, the young and the old. But it has met its unflinching foe in Thompson's Diphtheria Cure, which is just what its name indicates. No case of diphtheria was ever known where this medicine was used according to directions and failed to cure. Croup, hoarseness, quinsy, sore throat, etc., are equally removed by it. Sold at Kirilins drug store, at 50 cents a bottle.

**POTTSVILLE LETTER.**

POTTSVILLE, Aug. 8.—Markus Bacharach, of the firm of A. Bacharach & Co., of Philadelphia, brought suit against Thomas H. Hutchinson, proprietor of the Ferguson House, Shenandoah. The suit is an action of trespass and \$5,000 damages are asked. The plaintiff claims that while he was at the Ferguson House last July he requested Mr. Hutchinson to have his baggage taken to the depot so as to be able to leave on an early train for Atlantic City, where he had an important business engagement the next morning. This Mr. Hutchinson refused to do. Mr. Bacharach then employed a drayman and paid his hotel bill, yet Mr. Hutchinson refused to give him his trunks until the following morning. For this injury and loss Bacharach has brought suit for the above amount.

**A Dute Cow Thief.**  
David Dettrey, who sports about town in a fashionable light suit of clothes, wears kid gloves and has otherwise won distinction as a dute, was arrested at 5 o'clock this morning by Constable Bollin, of town, and Constable Leitenberger, of Mahanoy City, at his boarding house on North West street, on a charge of cow stealing. It is not the first time he has been arrested on a charge of that character. In the present case it is alleged the cow was stolen from a Mahanoy City party and Dettrey drove the animal to Shepperton, Pleasant Hill, Tanquetta, and thence to Summit Hill, where the cow was sold. The authorities claim to have shadowed Dettrey closely and they can show that he was absent from this town on the days that the cow was driven from Mahanoy City to the place where it was sold. Dettrey was taken to Mahanoy City for a hearing and committed for trial.

**Wood's Shenandoah College.**  
One school in nine cities, with an attendance of over four thousand students. Every finished student now regularly employed at a good salary speaks volumes for the great school.  
A diploma from Wood's College is worth \$1,000.00 to any one as it means high moral character and excellent scholarship.  
The college will re-open August 24th, in both day and night sessions, with a large and experienced faculty, all college graduates.

**Shot by an Officer.**  
A young man by the name of Morris South, of Shamokin, was notified by Coal and Iron Policeman James Lippitt riding on a P. & E. coal train. He motioned to him to get off but this the fellow refused to do, as the train was going too fast, and he feared arrest. Thinking to scare him the officer pulled out his revolver and fired, and was surprised to hear the man cry out, and roll over on the top of the car. He at once signalled the engineer to stop up, when he boarded the train and found that the man was badly wounded. The bullet struck a piece of iron on the car, and glancing struck South below the shoulder, coming out of his back. He was removed to the Miners' hospital, accompanied by the officer, who feels badly over the result of his luckless shot.

**IN THE FRONT RANK.**

The Pittsburg Times of May 23, 1896, says of the Bloomsburg State Normal School:

"Since the opening of the school, 28 years ago, it has stood in the front rank as an institution of learning, has advanced and improved with the times and enjoys a reputation among the leading educators as a model institution, where a complete education can be secured at a small cost."

The National Educator of March 14, 1896, says of the same school:

"The growth and prosperity of the school have been phenomenal. We will briefly enumerate some of the material changes. New furniture came first, then the beautiful auditorium was modeled. Next the large four story dormitory and gymnasium were built. Electric lights, the new library, the Elevator and the employees' Dormitory and Sanitarium soon followed. The new Athletic field is another remarkable feature of this growth. In short, the school has grown so wonderfully that those who have not visited it in five years would be
