REPUBLICAN NATIONAL TICKET. FOR PRESIDENT, WILLIAM BRANTLEY, OF OHIO...

FREE silver at the population ratio of 1 to 10 will hurt every citizen, but it will hurt the world more than most of all.

EDITOR PARKER, true to his convictions of the past, is a strong supporter of the Greenback movement. He favors the nomination of a free silver man for Congress.

It is seriously asserted that Bryan will not carry Nebraska. If Bryan is defeated by the coin-fallen in his own state, what sort of a metaphor will he use to describe his feelings?

PORTERVILLE is opposed to the creation of the Odd Fellows' orphanage at Sunbury. This was to have been expected. If the county seat had been selected as the location, things would be different.

All the incongruous and dangerous elements of the country are joining the Bryan party in a hope of unbridled plunder. But the men who saved the Union and afterward made it prosperous are in line of battle once more.

The Senatorial investigation in Philadelphia has developed a bad state of affairs in the government of that city. Somebody should be behind prison bars.

VENERABLE'S "horrid heat" will not soon be forgotten. We have had higher temperatures, but not very often, and certainly never any that was more oppressive, or that prostrated so many, or that was so generally depressing in its influences.

The free silverites, in their arguments to prove that the unlimited coinage of the good metal at a ratio of 16 to 1 would be a good thing for this country, avoid the Mexican silver dollar as much as a bull does a red flag. There is more silver in a Mexican dollar than in a United States dollar, yet the purchasing power of the former is about one-half as much as the United States dollar.

The letters say that four of them have been killed, and those still alive are in a condition worse than slaves, and they are anxious to return to their Louisiana homes.

Last May a number of young negroes in this vicinity and at Jacksonville contracted with agents to go to Central America to work on railroads. Flattering inducements were held out to them. They were promised high wages, easy work and splendid treatment. The letters some of them have written home indicate that they were badly deceived. Henry Wind, of Jacksonville, has received a letter from his brother dated at Panos, July 27, containing information that James Shaw, Willie Bradley, a boy named Sam and another whose name the writer did not know had been killed near Panos while attempting to escape. The negroes employed on the railroad are guarded by soldiers of the Guatemalan government, and treated brutally. It is alleged, and receive scant rations and very small pay.
