These the Controller will look into carefully, and wherever he finds an illegal claim that has been paid, he will surcharge the amount to the officer issuing the order. In the same way constables have deceed the county for years, but Controller Lloyd will prevent it in the future. He intends to cut down the expenditures of the county to the actual legal fees. The same state of affairs exist in this county, and the Controller of Schuylkill has the same authority as Mr. Loyd, but we question the legal right of the Controller to surcharge the Justices, alibough he may have that authority so far as constables are concerned. Now that all legal doubt in reference

Investigating Committee.

PRILAURLPHIA, Aug. 13 -- Citizens and politicians of high and low degree braved the interior heat and crowded together at yesterday's second of the sonatorial in vestigating committee. The attraction was the expected testimony of David Martin, the Republican leader of Philadelphia, denying that he received \$75,000 worth of stock in the Mutual Automatic Telaphor company for securing the passage of that company's ordinance through councils Chronicie, like the Democratic leaders in this county, has proved itself an adept as a fuancial contortionist. Mr. Martin, being untrained in the law and the examination of stinosses, was entitled, he thought, to the same privilege. Connsel for the commit-tee thought otherwise and advised the committee to stand by its original posttion. Chairman Andrews here called the committee around him, and after a few minutes' private consultation annot that Mr. Martin would be afforded a full hearing, but he could not be represented by counsel.

Martin who had been quictly Ils tening to the proceedings, then arow and in a backy voice denounced the committee for its action. He said: "I consider it an outrage that this committee does not give the same opportunity to be heard as it did my accuses. I will be guided entirely by my counsel." He and counsel conversed for a few minutes and then left the room together, amid the applause of the spectators. As they were leaving counsel for the committee announced that a sub poena would be issued for Mr. Martin, Yesterday he was present by his own volition.

Senator Porter was then called several times but did not respond. It was testi-fied that a subprena had been served on him. The candidates are perfectly able to make the selection, and they no doubt fully realize the importance of maning a man for the position importance of maining a man for the position : who can unite, for the time being, at least, the different factions of the party. #### 'I AM NOT A DEMOCRAT."

Jennings Bryan declared at Mount Vernon, is no substitute for Hood's. It is an in-HL: "I am not a Democrat."

What have Democrats to do with a man something else. Remember that all crat: who repeatedly boasted of his intention you do not want, are based simply not to support a gold candidate or a gold platform ; and who is now, after i wo years or more of intriguing with the Populists, the Populist candidate on a Populist platform?

Gov. Jones W. Binnon, of New Jersey, like every other clear-headed Republican, grasps the extent to which the financial question has effaced all other issues, and he has the coursigs to set forth the dominance of this question in a pointed and emphatic way. "I believe in a protective tariff," he says, "but I would assoner a thousand times live under a sound-money free-trade administration than under a free-silver administration that favored protection." This is the southment of a majority of the Republicans who understand the finance question, but not all of them would have the spunk to tell it so squarely and forcibly. It is a sentiment, too, which will grow as the canvass progresses.

The voters of the county well remember the position assumed by the Evening Chrontele, published at Potneville as the official organ of the Democratic party in this ounty
