"I AM NOT A DEMOCRAT."

On March 17, 1896, the Hon. William Jennings Bryan declared at Mount Vernon, Ill., "I am not a Democrat."
What have Democrats to do with a man who has proclaimed that he is not a Democrat; who repeatedly boasted of his intention not to support a gold candidate or a gold platform; and who is now, after two years or more of intriguing with the Populists, the Populist candidate on a Populist platform?

A PHILADELPHIA policeman very nearly caught a burglar Sunday morning, but got quite.

There is no question that boy Bryan is a "readin' an' rittin'"—reading other people's speeches and writing his own out of them; but his money lines show him deficient in "rhetoric."

THE Cleveland Administration is still giving all the assistance possible to its good friends, the Spaniards, while the American people are harridan in accord with the struggling Cubans.

We are indebted to Mine Inspector William Stein for a copy of the report of Inspectors of Coal Mines for 1905. The delay in issuing the report is not due to any fault of the Inspectors but is attributable to the state printing office.

THE hotel men of Atlantic City are in ecstasies over the large crowds that flock to that popular resort. The crowds that go thither are a curious mixture, as on Sunday last there were ex-consorts of Red Men, Hibernalians, ex-president and political hangers, while on Sunday next there may possibly be Drugglers, Italians, Californians, Afro-Americans and Beer Slingers. Everything goes to and at Atlantic City.

THE state agents who operate under Connecticut's law against the adulteration of food claim to have found by actual tests that the articles most impregnated with coffee, pepper, mustard, maple syrup, lard, milk, cream of tartar and honey, coffee, both ground and unground, is subject to imitation and adulteration to a remarkable extent. It is the opinion of the Connecticut experts that more than half the coffee sold in this country is a sham and a swindle.

AMERICA is honored by the visit of the distinguished Irishman, Lord Russell, of Killowen, who is to deliver an address at the meeting of the American Bar Association. Lord Russell is Chief Justice of England, and recently distinguished himself by his ability in the trial of Dr. Jim, of Transvaal fame, when he brushed aside the attempts of the defendant's lawyers to obscure the issue on trial to fog the minds of the jury, a trick which has been popular with the profession time out of mind.

THE report of Mine Inspectors Stein, Brown and Ederick upon the Pittston mine accident, upon which they are now engaged, is awaited with a great deal of interest, not only in the mining regions, but in every section of the state. The evidence is voluminous, and with their official duties makes the task one that requires much labor and thought. The Inspectors will hold another meeting at Shamokin tomorrow, and the following day will appear before the Governor in answer to request from the State Executive for consultation. Inside of two weeks it is likely that the labors of the Inspectors will have been completed, whereupon the report will be forwarded to Governor Hastings.

THERE is no animal better entitled to kindly care in hot spells than the horse. Patient, uncomplaining and obedient to orders, he is in all his ways and his humane and careful drivers will not forget that, instead of giving the animal copious drinks when overheated, the best of distress may be greatly alleviated by sponging out its mouth with cold water at short intervals. Men suffer when exposed to the fierce rays of the sun. So do horses. When not in motion give them the benefit of the shade, whenever and wherever it is possible. In a word, do everything you can and you will have your reward in not only saving them from heat damage, but the consciousness of having performed a noble duty.

CANDIDATE BRYAN and his followers have declared war on the national banks. Instead of the government being taxed to sustain the banks, as claimed by the "Boy Orator," the banks actually pay the government several millions in taxes each year. They have assisted the government to maintain its credit, especially during the civil war, and annually save the United States treasury millions in placing the loans and distributing the currency. Shenandoah has two of these institutions at which Bryan has exhibited such a distaste, and the hundreds of widows

and others who hold stock, to say nothing of the business men of the town who are stockholders and depositors, will naturally resent this unjust and uncalled for attack. One of the chief functions of these banks relates to the distribution of the currency. This could not be done in another manner without an enormous cost to the government. In order to secure a uniform distribution of the currency, as we have, the government would be compelled to create thousands of assistant treasurers, with the outlay for salaries that such a creation would involve. Under the national system the Secretary of the Treasury can designate any bank as a depository, and in such cases the bank becomes an agency of the treasury. When Mr. Bryan attacks the banks, he not only attacks the rich and poor alike, who have their money invested in these institutions, but he strikes at an institution that the people consider a necessity rather than a burden.

THE licensed retail liquor dealers of Luzerne county, through their state organization, have waged an active warfare against those places where liquor is sold without the formality of a license, commonly known as "speakeasies." Detectives were engaged and many violators of the Brooks high license law were arraigned. In Lackawanna county they have adopted an entirely different plan, and have decided to boycott all local and other brewers who refuse to pledge themselves not to sell beer or other malt liquors to unlicensed dealers. According to the Scranton papers only one of the brewers of that city was willing to give this pledge, and consequently all the others come under the boycott. This is virtually holding the brewers responsible for the existence of the "speakeasies." While this plan may not appear to be fair to the brewers, who are naturally disposed to sell their product to all who have the cash to pay for it, nevertheless if the brewers could be induced to assist the licensed dealers in this respect the "speakeasy" would be a thing of the past in a very short time. Schuylkill county has its full quota of unlicensed dealers, and from the returns to court made by the constables, who are apparently unmindful of the existence of these shebeens in their bailiwicks, the machinery of the law is inadequate for the proper enforcement of the Brooks law. The brewers of Lackawanna naturally resent dictation as to whom they shall sell their product, but the proposition has brought out at least two facts, that if they are to be driven out of the business the Legislature must furnish more adequate machinery for the enforcement of the law. The existence of the "speakeasy" is an injustice to those dealers who have paid for and received their licenses, and who make an honest endeavor to obey the law.

The Boy and the Gun.
While August Zimmet, aged 11, and Annie Lann, aged 8 years, were playing on the streets of Ashland Sunday evening, Zimmet taking offense at a remark made by the little girl ordered her to go home; she refused to do so, whereupon young Zimmet drew a revolver from his pocket and without a word fired at the unsuspecting child. Luckily the hammer fell on a blank cartridge, the powder, however, burning the girl's eyes severely.

Heat Victims Recovering.
Miss Susie Russell, of Lost Creek, who was overcome by the heat while attending the Trinity Reformed and Presbyterian Sunday schools picnic, is now convalescent. Miss Lou Garner, who was similarly affected on the same occasion, has recovered sufficiently to be able to return to her home in Jenningsville.

That Tired Feeling
Makes you seem "all broken up," without life, ambition, energy or appetite. It is often the forerunner of serious illness, or the accompaniment of nervous troubles. It is a positive proof of thin, weak, impure blood; for, if the blood is rich, red, vitalized and vigorous, it imparts life and energy to every nerve, organ and tissue of the body. The necessity of taking Hood's Sarsaparilla for that tired feeling is therefore apparent to every one, and the good it will do you is equally beyond question. Remember

John Ritzki, aged 23 years, and employed at Boston Run colliery, was admitted to the hospital, suffering from a lacerated wound of the forearm.
William Mittenik, a 14-year-old resident of Gordon, who is suffering with a revolver wound. The injury was self-inflicted, however, having been perpetrated while trying with the weapon. The ball was removed from the thigh yesterday.
Charles Mutalawicz, of Mt. Carmel, who was suffering from a bullet wound inflicted in a fight at the above place Saturday night, was admitted Sunday.

Andrew Mills, of Mt. Carmel, received severe injuries about the hip through a fall of coal yesterday at Luck Mountain colliery.

Felix Winger, of Mt. Carmel, aged 25 years, was badly burned about the neck, face and arms at Greenridge colliery.
The dispensary department had the usual number of calls. Mrs. Kenney, 20 years old and a resident of Girardville, had a fracture of the forearm reduced. She received the injury from a fall at home on Sunday.
Matthias Burgnad, 14 years old, whose home is at Ashland, received treatment for a very bad inflamed eye. The optic was struck by a bit of flying coal in the Loest Gap breaker.

Frank Morrow, 34 years old, residence Mahanoy City, was treated for a severe contusion of the leg sustained while mining in Mahanoy City colliery.

Joseph Sobuski, of town, aged 25 years, is suffering from a swelling of the right hand. He received a cut there several days ago while working at Maple Hill colliery. Some particles of coal entered the flesh and were allowed to remain there too long. The poison, it is said, was absorbed from the coal and is composed largely of sulphur.

John Fahy, aged 31 years, resides at Haven Hill and works at Packer No. 2 colliery. He received a severe fracture of the forearm.
Catherine Malosky, of Girardville, is suffering from a sprained wrist.
James Roush, residing at Girardville, is being treated at the hospital suffering from a lacerated wound in the palm of the hand. He works at the Hammond colliery.

The Empire Was Well Armed.
HELENA, Ark., Aug. 18.—A number of local players at Packer leave between colored teams for a stake of \$5 broke up in a pitched battle between the opposing sides, in which two boys were fatally shot and four others more or less wounded. Negro boys from the Palk and the Lowry plantations constituted the opposing teams. William Griffin, the umpire, and an adherent of the Palk side, held the stakes. In the third inning Griffin gave the Lowry team the hot end of a close decision, and the aggrieved team, led by Israel Tate, made a rush for the umpire and his son, who was acting as official scorer. The umpire opened a valve and passed pistols to members of the Palk team and the battle began. Israel Tate was the only man on the Lowry team that had a gun, but he did effective work. He emptied his pistol into the Palk team, reloading and emptied it again. He is credited with having shot four men.

Delaware's Democratic Convention.
DOVER, Aug. 18.—The Democratic state convention to nominate a candidate for governor and one congressional member took place this afternoon. The indications are that the silver standard Democrats will be in complete control of the convention, and the Chicago platform and Bryan and Sewall will be endorsed. Senator Gray is not expected to be present, and the probabilities are that the gold Democrats will not take any prominent part in the convention proceedings. Peter J. Ford, of Wilmington, is the favorite candidate for the nomination for governor. Should Ford be named, by congressional committee will very likely be John D. Hawkins, of Kent county or William H. Rogge of Sussex.

Burglars Caught in a Parsonage.
HILL BANE, N. J., Aug. 18.—The Baptist parsonage was entered by three burglars early in the morning. The Rev. J. K. Maizinger is away from home, but the men were seen going in the house by Joseph Conover and Frank Bostell. They followed the thieves into the house and succeeded in capturing two of them. The other man made his escape. The two thieves who were caught were taken to the town jail, but escaped from there by picking the locks of their cell door. No booty was secured by the burglars.

Boys Tried to Wreck a Train.
WASHINGTON, Aug. 18.—An attempt was made to wreck a local train on the Southern railroad near Manassas yesterday. A large log was placed across the track. The first truck of the engine passed over the obstruction before the train could be stopped. No one was injured, and the delay was brief. This is the second attempt to wreck a train in the same vicinity in a week. It is believed that the attempt was made by mischievous boys.

Where Danger Lurked.
First Burglar—Got your chloroform ready?
Second Burglar—Yes. Dope the old man first, I suppose?
"Not on your life. The baby first."

Wants the World to Know It.
H. P. Huff, of 816 Hephurn street, Williamsport, Pa., says: "I can say positively that Thompson's Diphtheria Cure saved my life and also that of my sister. The doctors had given up both of us. Our friends were advised to try Thompson's Diphtheria Cure on us. They did and in two days' time the dreaded disease had disappeared. I am only too glad to have the privilege of letting the world know the wonderful curative powers of this medicine, and wish I could tell every one individually. No medicine like it in the world." For sale at Kirkl's drug store at 50 cents a bottle.

TERRIBLE DYNAMITE EXPLOSION

It Results in Three Deaths and Injuries to Many Others.
LANCASTER, Pa., Aug. 18.—Three men were killed, fifteen or more injured and several buildings were demolished or wrecked by the explosion of twenty-five pounds of dynamite at New Holland, thirteen miles from Lancaster, yesterday.
The Pennsylvania Telephone company is building a new line in that vicinity, and had stored the explosive in the summer kitchen of the Eagle hotel. Charles F. Cannon, an employe of the company, and one of the gang just about to start to work, went to the summer kitchen to get out enough dynamite for the day's use. A few moments later there was a terrible explosion and one side of the summer kitchen was blown out. A big hole in another side had blood and flesh on the ragged edges, and it is supposed that Cannon's body was sent through here. The unfortunate man was blown to atoms, his stomach having been found two blocks away.
Frank Hammond, of Harrisburg, who was standing outside of the building, had every bone in his body broken and was instantly killed.
George Crossman, of Steffton, a water boy, was also standing near the building, and was so badly injured that he died while being brought to this city.

Among those most seriously injured are Michael Wade of New Holland, who may die; Frank Lewis of Lancaster, Frank Peale of Scranton, David Hoffman of Reading, Joseph Mann of Allentown, Walter Fausig, porter of the hotel, and John White and Robert Shirk of Lancaster.
The damage to property will amount to a large sum. Just what caused the explosion can only be conjectured, as Cannon was the only person in the building when it occurred.

Serious Riots in Belfast.
BELFAST, Aug. 18.—Serious rioting occurred here in connection with the Nationalist demonstrations in favor of granting amnesty to the Irish political prisoners. There were several processions of Nationalists through the streets as a beginning, and they were met by a large force of police, headed by batmen, armed with spears. The procession soon attracted immense crowds of people, and some throwing stones. This served to excite the Nationalists, and their batmen attacked the crowds with their spears, wounding many people. The police charged the rioters and used their batons freely, with the result that several persons were hurt before order was restored.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her, and she says it saved her life. Mr. Thos. Eggers, 120 Florida St., San Francisco, suffered from a dreadful, cold, approaching consumption, tried without result everything else, then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in Coughs and Colds. Free trial bottles at A. Wasley's drug store. Regular size 50c and \$1.00.

NEW YORK, Aug. 18.—Health Officer Alvin E. Doty, of this city, returned from Havana yesterday. He spent only two days in Havana, because he found so arduous a task that it would be impossible for him to reach either Santiago or Cienfuegos, where he says there are alarming outbreaks of smallpox. He found that there was a great deal of yellow fever and smallpox in Havana and the surrounding country. The sanitary conditions are variable. The whole city's sewerage, he says, is dumped into the bay, and the tide is not sufficient to carry it to sea. There were 500 cases of yellow fever and 100 deaths reported from the military hospitals during the two weeks previous to Dr. Doty's visit.

Almost Distracted?

DID YOU EVER suffer from real nervousness? When every nerve seemed to quiver with a peculiar, creepy feeling, first in one place, and then another and all seemed finally to concentrate in a writhing jumble in the brain, and you become tremble, fretful and peevish; to be followed by an impatient, wearied condition of the nerve centers, ringing in the ears, and sleepless, miserable nights?
