Reading's Bribery Scandal. READING, Pa., Aug. 18.—Detective Henry Marx is preparing the papers for additional arrests in the remarkable bribery cases, and it is predicted that in a day or two there will be some startling developments. He had expected to capture a conneliman at last Friday night's special meeting of council in the act of receiving money for his vote, but Conneliman Mellor, who was offered \$100 for his vote, made the fact known to the press. It is believed that Select Conneliman Witman, now under arrest, will be compelled to give increased bail.

Senator Quay's Big Tarpon. ST. LEWIS, Mo., Aug. 18.—The largest tarpon ever caught at St. Lewis was landed last evening by Senator Quay, of Pennsylvania. It weighed 23 pounds. After an exciting struggle, in which the craft was nearly swamped, the senator landed his fish safely in the boat. While struggling with the fish Senator Quay was struck on the leg below the knee, but was not seriously hurt. The boatman also had a narrow escape.

Mines Started on Full Time. HAZLETON, Pa., Aug. 18.—For the first time in many months Cox Bros. & Co. yesterday started up all of their mines on full time. In the opinion of Superintendent Kudlich this improved working time is likely to continue until January. Fully 12,000 coal workers are benefited by the change.

THE LYON-DUNN CONTEST.

The Contestant Permitted to File Additional Bills of Particulars. PITTSVILLE, Aug. 18.—The Lyon-Dunn contest court again convened in court room No. 1 yesterday afternoon, with the three judges and the attorneys for both sides present. Mr. Schalek, for the respondents, called the court's attention to one or two errors in the printed report of the proceedings. The court then made the following order: "Now, August 17th, 1906, after hearing lengthy and full arguments of counsel in favor of and against the rule, and after a careful review of the authorities on the question as cited by counsel on both sides, and considering also the status of this case, we feel obliged to make the rule absolute, and allow the additional bill of particulars, as offered July 6th, 1906, and direct the same to be filed on record in the case and further direct that additional bills of particulars will be allowed to be filed as the case progresses, providing they shall be in line with the charges and specifications as set forth in the petition of the contestant and upon giving ten days notice to respondents' counsel, the court reserving the right to prescribe a limit."

The respondent's counsel did not anticipate such a sweeping order by the court, and showed their surprise by vigorously opposing it, but court was inexorable. The argument consumed the entire afternoon session of yesterday. The counsel for Judge Dunn say the rule will allow the summoning of every voter in the county.

The New Telephone. The new Shamokin-Mt. Carmel telephone company is now in full working order and is giving perfect satisfaction. The line at present extends from Saubery to Shamokin and Mt. Carmel, and there are now about 700 phones in use. Shamokin has about 225 subscribers while Mt. Carmel has 74. Each subscriber in the latter town has a separate wire connected with the exchange which is a great convenience. Under this arrangement communication can be made with more privacy than is now done.

Work to be Resumed. It is understood that the Newton Coal Company expects to resume the work of mining in a portion of the Twin mine this week. The gas has been cleared out of a large portion of the west side of the shaft, in the sixth vein, and it is believed to be safe enough to permit the resumption of work in chambers not affected by the cave in. About 10 or 12 chambers will be worked at the outset, but the number will probably be increased as rapidly as possible.

"Little Italy" Again. Between the "colored gent" of Little Italy and the increasing foreign element of Pottsville that town is gaining an unenviable reputation for bloody encounters. Saturday evening a shooting affray occurred in the quarters known as "Italy," and as a result a negro was shot by another, which last night culminated in a suit. The negro who received the bullet wound had no friends and was committed to jail.

Of Interest to Veterans. General Mulholland, the U. S. pension agent at Philadelphia, calls attention to the act of Congress, approved August 23, 1894, requiring fourth-class postmasters to administer oaths to pensioners and their witnesses to pension vouchers. This will be a great convenience to thousands of pensioners throughout the country as, in many cases, they are obliged to travel several miles to catch a Justice of the Peace.

A truck that was being hoisted caught in the guide rails and tore out some of the timbers. The cage was considerably damaged and an old one was put in the shaft to enable the colliery to resume operations this morning.

SOME SILVER STATISTICS.

Reports Received by the Government from Twenty-one Countries. WASHINGTON, Aug. 18.—From official information received by the treasury department from twenty-one countries the coinage of silver during the calendar year 1905 amounted in the aggregate, to \$115,072,300. Of this sum \$13,933,200 was net coinage; deducting this sum from the total coinage, gives the coinage of silver from new bullion in 1905 as \$101,039,000.

The country showing the largest amount of silver in 1905 was Mexico, with a coinage of \$24,832,500; followed closely by Japan, with a coinage of \$23,888,500; next comes China, with \$8,233,343; Spain, \$7,100,500; Great Britain, \$5,831,151; United States, \$5,068,000; Austria-Hungary, \$5,266,000; Peru, \$4,070,000; Russia, \$3,554,000; Ecuador, \$2,500,000; Germany, \$1,830,000.

The silver coinage executed by Great Britain during the year for her colonies was: For Canada, \$1,138,000; Hong Kong, \$2,000,000; Straits Settlements, \$450,000; a total of \$3,588,000. France coined for Hindoo-China \$5,000,000 in silver, and for Morocco \$284,000.

During the year 1905 the United States received the largest amount of silver, viz.: \$4,850,000, followed by Austria-Hungary with a coinage of \$3,318,500; England, \$2,100,000; Germany, \$1,835,000; Russia, \$1,500,000; India, \$484,500.

From Jan. 1 to Aug. 1, 1895, the coinage of silver dollars by the mints of the United States was \$8,592,412, while the coinage of silver dollars from 1792 to 1873 aggregated only \$8,031,388.

The world's product of silver during the calendar year 1905 is estimated to have been \$225,000,000. The amount of new bullion used in the coinage, so far as known, was \$100,000,000, and from reports received from twelve countries, the amount used in the industrial arts was \$12,000,000, while the exports to the east amounted to \$37,000,000, making the total disposition of the world's silver product for 1905, so far as known, \$179,000,000, which would leave \$146,000,000 for coinage and use in the arts by the countries from which no reports have been received.

Zions Grove Notes. Mr. Charles Hunschberger, for many years "sawyer boss" for Cox Bros. & Co., at Shepton, has resigned his position.

The attendance at the Zions Grove camp meeting was very large, despite a severe rain late in the afternoon.

William Honicker, better known as "Billy, the Blinker," and Samuel Fisher had a pugilistic encounter at Hankus' hotel. They say Billy came out on top.

Ulysses Hunschberger, son of Charles Hunschberger, has returned from Michigan. Charles Breadbender, of Zions Grove, and Miss Mary Hanks, of Beaver Valley, were made one last week.

Report says that an unknown man and woman were waylaid on the road below Lucian Krebs, late Friday night. The assailants made good their escape.

The Coal Trade. The anthracite coal trade is now in the condition of mid-summer dullness usual at this period of the year. There are few new orders for coal in the market, and dealers are buying only from hand to mouth to supply immediate requirements. The mining and carrying companies are rigidly restricting the output of coal as closely as possible to the actual necessities of their customers, and some of the companies that have overshipped their quota of production for this year to date have temporarily suspended operations at their collieries. Saturday, the Feast of the Assumption, was generally observed as a church holiday throughout the anthracite fields, and there was general suspension of mining operations. The prices for anthracite are generally being well maintained, notwithstanding rumors of some concessions being offered by individual operators.

God's American Volunteers. The local corps of God's American Volunteers seems to have received renewed life since First Lieutenant Haslam and wife have taken charge and many people have expressed their appreciation of the services of the lieutenant and his wife by sending food and other tokens to their home at 243 East Coal street. Lieutenant Haslam and his wife say they love the old Salvation Army movement, but he loves the flag of freedom and independence as well and is always ready to carry it at the head of the procession. The lieutenant has done missionary work at the Eastern State Penitentiary and his talks on his experiences there make the meetings of the corps very interesting.

Another "Squire for Mahanoy City. The "powers that be" have declared that Mahanoy City is entitled to but two Justices of the Peace, but Neal Brennan has declared otherwise. He holds a commission as Justice of the Peace of Mahanoy township, and in order to give the people of Mahanoy City the benefit of his judicial mind has rented the old Skeath property, situated about 100 yards from the L. V. depot and close to the borough line. This he intends fitting up in first-class shape as a business office. His town headquarters will be in Alex. May's insurance office, where he can be consulted on matters relating to the business of his office.

Found Dead in the Mines. While passing through a manway at Albright's colliery, near Llewellyn, about 4 o'clock yesterday afternoon, a workman came upon the prostrate body of Paul Slamp, a Pole, 22 years old. The man was removed to the manway. The body was lifeless and from all indications had been so for an hour or more. None of the workmen could throw any light on the tragedy. They had heard the report of a blast about an hour before Slamp's body was found.
