**SCHUYLKILL GOLD DEMOCRATS.**  
They Held a Convention at Pottsville This Morning.  
Delegates Elected to the State Convention to be Held in Philadelphia to Elect National Delegates—No Action Was Taken on the County Ticket.

Special to EVENING HERALD.  
POTTSVILLE, Aug. 21.—The gold Democrats of Schuylkill county held a convention in Pennsylvania hall this morning which was largely attended and presided over by Col. H. Boyer, of Pottsville. Channing Stribling, of the Chronicle, and Moyer Strouse were the secretaries.

The convention elected delegates to the state convention which will convene in Philadelphia on Tuesday, next, to elect delegates to attend the National Democratic convention, to be held at Indianapolis on September 2nd.

The delegates elected at the convention this morning are as follows: First district, M. J. Moore, of Mahanoy City; Second, John S. Penno, Ashland; Third, Hon. W. L. Forbert, Girard Manor; Fourth, Hon. C. F. King, S. B. Briscoe and William J. Maze, Pottsville.

Resolutions were adopted instructing the delegates to favor the nomination of a President and Vice President who favors a gold standard.

The gold Democrats will take no action so far as the county ticket is concerned. They will very likely favor the Democratic county ticket. They want the national Democratic ticket nominated so that they will not be disfranchised.

**Exciting Runaways.**  
A Little Boy Escapes Uninjured From a Perilous Situation.  
A team of horses belonging to William Meyers and hitched to a coal wagon runaway this morning on Main street and created great excitement. William James, a boy seven years old, was in the wagon at the time and his perilous situation increased the excitement. The horses started from in front of Grosskeller's saloon. Near Coal street the rear wheels became detached, but the boy remained in the wagon and held on to the reins, making a fruitless effort to stop the horses. At Baird's field the body of the wagon parted from the front truck and fell to the street. The boy let go the reins and fell with the body of the wagon, but escaped injury. The horses and front truck of the wagon were found at the forks of the Ringtown and Brandonville roads.

When the runaway team passed the Farmer's hotel it frightened a horse belonging to James Moyer, of West Cherry street. The horse ran around the corner into Coal street, but was stopped by the wagon it was hitched to being caught by a telegraph pole. The shaft of the wagon and some of the harness was broken.

The dairy team of Frank B. Mall, ran away from the Pennsylvania station last evening, the horses being frightened by the blowing up of a whistle on an engine. While running up Main street, three cans of milk each containing five gallons, fell out of the wagon. The horses turned the corner of Main and Centre streets, and were caught at the dairy on West Centre street. The top of the wagon was torn off, and the rear part was also damaged. The damage to the team is estimated at \$50.

**Relics of Mound Dwellers.**  
Interesting Discoveries by Explorers at McKee's Rocks, Pa.  
PITTSBURGH, Aug. 21.—Great interest is manifested here over the discovery of a number of implements in a mound at McKee's Rocks, which is being excavated for scientific purposes. The mound is believed to have been built by the ancient mound dwellers, and the implements found yesterday place the mound on a par with those that have been explored elsewhere.

The work is being done under the direction of Mr. Thomas Harper, of this city, who believes that the specimens found here are not less than 1,000 years old and prove that they were made by the most ancient people that inhabited this country.

Bone needles or awls were included in the find, and Mr. Harper says they can be partially restored. A tomahawk which he regards as not being less than 1,000 years old was also found. The same kind of weapons are found on the British Isles. Mr. Harper says the weapon is similar in appearance to the halibut, which was used for striking. It is made of gnosis. He considers this an extraordinary discovery.

The bone implements, or flake, is regarded by Mr. Harper as possessing unusual interest. This is the implement with which primitive men, as well as ancient people, have used in making flint instruments. Since this mound was opened, a month ago, sixteen skeletons have been found, many of them being of gigantic stature.

**The Twin Shaft Horror Investigation.**  
HARRISBURG, Aug. 21.—Governor Hastings and Attorney General McCormick had a conference yesterday afternoon with Mine Inspectors William Stein, Edward Federick and Edward Brennan, who were respectively appointed by the executive to make inquiry into the cause of the Twin shaft disaster, near Pittston. The inspectors made a verbal report of their work, and at the request of the governor will present to him within the next ten days a written report, together with recommendations, to be submitted to the next legislature, looking to greater safety to workmen in mines of the state. The report will be given out by the governor as soon as it is submitted to him.

**Mr. King Withdraws.**  
From Pottsville Chronicle, Dem.  
Hon. Charles F. King, presidential elector from this district, unable to conscientiously place himself upon the platform adopted at Chicago, has tendered his resignation to State Chairman Garman. Mr. King, with many other prominent Democrats in this county, cannot force himself to believe that free silver is the panacea by which all the ills now complained of can be corrected and rather than appear before the people in a false light has resigned. He is for sound money, and an honest dollar for a dollar's worth of labor.
