A message was sent to SuperIntendent Mintarn, of the St. Paul railroad, at Green itay, asking for a train to take the people away. The operator who sout the message was driven away from his instrument by the burning of the building. A train was ordered there from from Port, twenty-six uiles south. The train reached Ontanogon and took a load of people to Rockland, ten miles away. It left again for anothe-load and since then nothing has been heard there. At 5 o'clock the flames had swept

through the main part of the city, de-stroying all the business houses, many residences and the watch company's mills the water works, electric plant, court house, jail, etc. The flames then worke up the river to the rest of the city. The operator, who left the instrument which had been temporarily put up, said noth-ing could save the city from utter anni-hilation, and that unless the wind went down by dark every house would be de-stroyed.

Just in the Nick of Time.

MRS. WAKEFIELD.

Women, like men, are divided into two classes; one that is prompt to act and the other dilatory. The former class carries off the trophics in buse iness, love and war, while the latter bears the burden of disappointment always. The good woman whose portrait appears above had arrived at a condition physically, where prompt action was necessary. The drafts upon her reserve force had been too great and physical bankruptcy was imminent. It was impossible for her to sleep, and if women cannot sleep they have reached the beginning of the end. Mrs. Wakefield had grown worse under the doctor's care and hope was fast departing, when she was recommended to try Dr. Miles' Restorative Nervine. She acted promptly on the recommendation and received the reward of her prompt action, in renewed health,

Women frequently suffer for months and even years without complaining or making their sufferings known, and the result is liable to be a sudden collapse. As soon as the first evidence of weak perves is felt Dr. Miles Nervine is indicated and may be relied upon to give quick and lasting relief. One bottle taken in time often effects a cure and the first bottle is guaranteed to benefit or money will be refunded, by the druggist of whom it was bought. mailed free on application. Read Mrs. Wakefield's statement: Shelbyvillo, III., March 28, 1895. "I was in very poor health and my symptoms gradually developed into acryous prostration. I suffered greatly from nervous headaches, and at times was unable to attend to the slightest household duty. Sleep at night was im-possible, as I had spells of nervousness when I had to get up and walk the floor. The hast noise would startle me, in fact my nerves were in a ter-rible condition. I was recommended to try Dr. Miles' Restorative Nervine and purchased six bottles of the remedy. The first bottle did me so much good that I took the second, and I can safely say it is all it is recommended to be. My appetite is much better: the nervousness has disappeared; I can enjoy a good night's rest and I have gained health to such an extent that I would consider it folly to look for a better remedy. I have also used Dr. Miles' Pain Fills, and they have given me much, relief. I found them a sure cure for sick headache." Mas. S. Wakefield.

A few weeks and the above journal believed the Bryan munrhistic luckers to be the Coulds, but now it knows that the Goulds are very "small pointoes" compared with the con-spirators who are really engineering the cheme to make this the banner sliver country of the world.

"TAKE three dollars, one of gold, one the aliver dollar is bullion, and is worth as courts ; the gold dollar is buillion, too, and worth 100 cents." This was not a very strong argument for his cause that Senator Tillinian ment that is making the voters of Shenandoub think, as it is a condition argument in favor of a stable currency. Money is a modium of exchange and it has been found thist the presides we the most of evaluate and useful for that purpose. The constitut is likely to retain its value, whether it has the stamp of the "government" upon or nut, is the most reliable as it is loss indisto discustion. Report for experience of the leading commercial nations of the world, Reving found gold has lister to discussion in value, have adopted it as the standard by which values are measured. This is the contoution of the Republican party and the position it has taken upon the correctly question, that gold is the more reliable metal to which to gauge values and should be the lassis iffion which our circulating medium is established. Semitor Tilimun's illustration is an apt one from the gold standpoint.

THE state convention of Sound Money Demograts, held in Philadelphia yesterday, to cloct delegates to the National Democratic convention to be held in Indianapolis next week, was a gathering of the most prominent members of that party from every district in the state.
