WHAT the people of this country want is more confidence and less free silver.

WHEN the returns from Maine are received, Candidate Bryan won't know what struck him.

EX-PRESIDENT HARRISON'S speech is one of the kind that is sure to remain unanswered to the end of the campaign.

THE low comedy element crops up even in politics. Tillman has received a challenge to ex-President Harrison to discuss the issues.

"PITCHFORK" TILLMAN has shaken the dust of Schuylkill county from his feet, for which the workingmen are devoutly thankful.

TAROET is a fine chance for Bryan to distinguish himself by improving upon the speeches that he has been making since his nomination, and the task is by no means a big one, either.

AND now every man who smokes or chews will be saving up for his wife the story of the Michigan man who, after smoking fifty years, took an anti-tobacco specific, went mad and jumped from a second story window.

FOUR years ago Candidate Bryan advocated free trade on the ground that it would make prices lower; today he is shouting for free silver because it will make prices higher. One would need to be well up in turning double somersaults to keep in line with Mr. Bryan.

"LET us hold fast to that which we know is good," is McKinley's motto, as conveyed in his letter, while that of Bryan is: "Let us kick over everything, the currency, the ministries, the Supreme Court and take chances on something else." This suggests more excitement than the people want at this time.

HON. GALUSHA A. GROW sums up the political situation in a few words as follows: "The Republican party in all its policy has always stood for an honest dollar and a way to earn it. The policy of the 53-cent dollar silverites and the 40-cent-dollar Populists stands for any kind of a dollar and no way to earn either kind."

A GENERATION ago the name of Harry Hill was as familiar to every sporting man in the country as that of John L. Sullivan or Corbett is now, but of late years he has been living in retirement until Thursday last, when he died at the residence of his son, in Flushing, L. I., at the age of 70 years. His place in the Bowery was at one time one of the sights of New York.

WOMAN'S college begins its second year under most favorable circumstances. While the first year has fully sustained the expectations of its proprietors, it starts out on its second year with even brighter prospects. A business education is essential in the present age, and no young man is fully equipped for the battle of life unless he has taken a course in an institution of this kind.

EDWARD W. BOK, in the September Ladies Home Journal, reviews the provisions and operations of the curfew ordinance, which in variously modified forms, has been adopted by municipal legislative bodies in the West. He gives hearty endorsement to the law, and asserts that, although it met with general opposition at first, there is not a city or town in which it has been enforced, that would have it abolished. "Wherever the curfew ordinance has gone into effect," Mr. Bok contends, "its advantages have been conceded. This is true now of over three hundred towns and cities, some as large in population as Omaha and Topeka. In each case the excellence of the law has become apparent, opposing parents have conceded its wisdom, and even children are said to be pleased with it. It has placed in the hands of the police a most effective weapon for clearing the streets of hoodlums at night, and in many cases where disorder reigned at street corners quietness, law and order now prevail. So well has the ordinance worked that reports, gathered from not less than forty of the towns where it is a law, show that the fine or imprisonment penalty has not been inflicted in a single case. The first caution has served the purpose. These reports show, too, that the ordinance is not enforced in any oppressive manner. In the case of evening winter or summer entertainments, which would keep the children out later than the curfew hour, authority is easily obtained and readily granted by the mayor or town official for an extension of the time. Its rigid enforcement is applied most strictly to the hoodlum element, and with this class the police claim they have never been able to deal so successfully. It will be at once obvious to all right-minded parents, I think, that they should

This was the third time these two men have met.

Sleep

Induced by the use of coca, opiate or narcotic compounds is bad, decidedly bad. They undermine health and shatter the constitution and the patient is steadily growing into a worse condition—often resulting in the terrible slavery and misery of the cocaine and opium habit. Sleep induced by the use of Hood's Sarsaparilla does not perhaps come as quickly, but it comes more surely and more permanently through nature's great restoring and rejuvenating channel—purified, vitalized and enriched blood. This feeds the nerves with life-giving energy and builds up the system and constitution from the very foundation of all health and life—the blood—pure, rich, red blood.

THE FARM MORTGAGE

Showing Why It Should Be Paid in Good Dollars.

The following letter is one of many that are daily received by the Times-Herald. It is supposed to contain the strongest free silver argument that can be addressed to the farmer, and it is used by the free silver orators with immense assurance of its success:

LINCOLN, Neb., Aug. 3.—To the Editor: My land is encumbered by a mortgage of $1,000, payable in lawful money Nov. 1, 1897. I must pay this debt with the products of my farm. Under ordinary circumstances I will be able to raise 1,000 bushels of wheat next year. If there is no change in our financial system this wheat, at fifty cents per bushel, will pay half the debt. When the value of a silver dollar is reduced to 50 cents by free coinage a bushel of wheat, without any change in its value, will be worth a 50 cent dollar. With free coinage of silver I shall, therefore, be able to pay the entire debt with the 1,000 bushels of wheat. The burden of paying a debt of $1,000 has doubled since I borrowed the money. I have obeyed the laws of my country under the gold standard, and shall obey them under a silver standard. The opponents of free coinage of silver are appealing to the laborers, the creditors and policy holders to protect their own personal interests. If I should fail to look out for my own interests who will do so for me? Is there any reason why I should not vote for the free and unlimited coinage of silver? Very respectfully,

J. W. BINGER.

The answer is not far to seek.

When this farmer borrowed the money it was the equivalent of $1,000 in gold. It was the same as if he had received it all in gold twenty dollar pieces. He could have it in that way if he so desired. Perhaps he did, for many such loans have been made. When he expended it he got $1,000 in gold equivalent. He probably improved his farm to that extent or bought stock or machinery. In whatever way he used it, unless he burned it up or squandered it, he got value received. The borrowing and lending was a business transaction and the borrower used the money to promote his business interests. At no time since that mortgage was executed, for few mortgages run over five years without renewal, would a thousand bushels of wheat have paid it.

When Mr. Binger in the above letter says, "The burden of paying a debt of $1,000 has doubled since I borrowed the money," he must remember, if he is stating what is true, that the "burden" is not alone upon him, but upon every other business man who has borrowed money. Merchants and manufacturers feel the same stress of the hard times as the farmers do. It is not because they borrowed gold and have to repay gold that the burden is greater, but that their earnings and assets have not turned out as they hoped and expected. Competition and overproduction have affected the whole world, but repudiation is not the proper cure for it.

Honesty is the best policy—as a policy merely, without reference to its moral quality—for nations as well as for individuals. A man who has repudiated his debts is never trusted again and is regarded with contempt by all his neighbors. And so is a nation. A free coinage law is repudiation, and that it is understood in that sense is indicated by such letters as the above.—Chicago Times-Herald.

People Won't Have It.

One of our best Indiana county farmers remarked the other day that three years ago, under the McKinley tariff bill, he sold his wool at the rate of $2.23 for each sheep. Under the Democratic free trade arrangement this year he only got 75 cents a head. That's the sort of "a change" the Democrats gave us four years ago. They now want us to try another experiment in the shape of free coinage. But the people won't have it.—Indiana Messenger.

REPUBLICAN LEAGUE.

Call Upon the Republican Nominee for the Presidency at Canton.

CANTON, O., Aug. 29.—The members of the National Republican league committee from Milwaukee called on Major McKinley yesterday, and included Colonel George Stone of California, B. G. Dawes of Nebraska, John Goodnoe of Minnesota, O. S. Glick of Wisconsin of T. L. Edinborough, of Michigan, L. F. Walker, Wisconsin, T. T. Moyer of New Jersey, W. F. Poucher of New Jersey, George W. Rush of Pennsylvania, F. J. Higgins of New Jersey, M. J. Dowling of Missouri, Congressman Howell of New Jersey, Congressman McEwan of New Jersey, Thomas F. Barrett of West Virginia.

Major McKinley responded to an introduction, in part, as follows: "Mr. Goodnoe and Gentlemen: It gives me great pleasure to greet at my home this large committee, representing the Republican clubs of the United States. I know something of your worth and work. I know how in former campaigns the splendid services of the young Republicans of the country have contributed to being to us most signal triumphs.

"We cannot over estimate the value of the young men in politics, and I would not have followed it if Mr. Goodnoe had not told me that they were not practical politicians. My experience with them has been that they have been politicians of the most practical sort known in American politics.

"Gentlemen, you never had a worthier cause to strive for than you have this year. The financial honor of the country and the prosperity of all its people are enough to inspire every American heart to the best possible effort. I have seen somewhere an inquiry: 'Cannot the United States establish a financial system of its own; is it too weak and dependent to do that?' I answer: The United States now has a financial policy which in the main has been pursuing since the beginning of the government, and which it does not mean to change until it can find a better one."

A delegation of 300 people from East Ohio United Brethren conference followed closely upon the exit of the league committee. Bishop J. S. Mills made the presentation for the party.

Squaw Men in Open Revolt.

GUTHRIE, O. T., Aug. 29.—The squaw men in the Seminole Indian reservations are in open revolt and threaten to exterminate the full bloods. At the last session of the Seminole council a law was passed ordering all the white men who married Indian women to leave the nation. There are 800 squaw men. Wednesday, when a body of police Indians attempted to put the council laws into execution, an open battle took place, in which three Indians were killed. For several years it has been the practice of white men to go into the nation, marry an Indian woman and thus obtain sixty acres of land. The effort of the full bloods and half breed Seminoles to break up this practice causes the trouble.

Love, Liquor and Morphine.

BALTIMORE, Aug. 29.—Dr. Argyle Mackey, the young Washington physician who shot himself in the breast on Wednesday in the City hospital, died yesterday from his wound. He entered the office of the College of Physicians and Surgeons on Wednesday, and after a few minutes' conversation with persons in the office drew a pistol from his pocket, placed the muzzle against his left breast and pulled the trigger. The bullet entered his breast just over the heart and lodged in his back.

Mobbed at a Political Gathering.

FORT SMITH, Ark., Aug. 29.—Congressman Hugh A. Dinsmore, of the Fifth Arkansas district, was mobbed at a political gathering at Engeltine, Van Buren county, and sustained injuries which will confine him to his bed for several days to come. The congressman was roughly handled, and but for the interference of friends he would probably have suffered much worse injuries. Dinsmore was recently nominated for a third term in congress and has been stumping his district.

The Crisis Over in Zanzibar.

ZANZIBAR, Aug. 29.—The crisis here is regarded as ended. The new sultan, Hamoud Bin Mohammed Bin Said, is expected to follow the peaceful lines of his predecessor, and it is understand that Great Britain does not intend to make any change in the existing form of government. The suggestion that the presence of the suppressed usurper, Said Khalid, at the German consulate, implies a political intrigue, is not credited here, and it is expected that Khalid will be handed over to the British officials as soon as the German consul receives the necessary instructions from Berlin.

Dr. Gallagher Released.

LONDON, Aug. 29.—Dr. Thomas Gallagher, of New York, the Irish political prisoner, was released from Portland prison yesterday in charge of an infirmary nurse. Tickets were taken from Waterloo railroad station, London, but it is believed that Dr. Gallagher and the nurse will stop at Southampton, as it is understood that the United States embassy has booked a passage for Gallagher on the American line steamship St. Paul, which sails for New York today. He looked very pale and thin, was extremely weak, and his hair has turned gray.

HARRY HILL DEAD.

Destitute in His Old Age After the Police Forced Him Out of Business.

NEW YORK, Aug. 29.—Harry Hill, the famous old time concert hall keeper and all around sporting man, died yesterday in "Harry Hill's Original Road House," in Corona, near Flushing, L. I. He was 70 years old, and besides his widow three sons survive him. Harry Hill was known as "the squarest man" that ever ran a sporting place. Fifteen years ago his resort at Houston and Crosby streets was the best known of its kind in the United States, and no "true sport" could afford to say that he did not know the genial, hearty proprietor, who was then reputed to be a millionaire, and whose note was good for almost any amount among many bankers in New York city.

It was Harry Hill's boast that nobody was ever robbed in his place. He was scrupulously honest, and used often to relieve a drunken man of his roll and return it to him when the drunkard got sober. Thousands of dollars at a time used to be entrusted to him for safe keeping, and he always returned it. It is said that on one occasion a drunken man gave him $80,000 to take care of and got it back intact when his spree was over. There were many rough and tumble fights in Hill's place, however, and several times rowdies entered the resort with the intention of "doing" the proprietor. He overcame those desperadoes without the aid of the police, Billy Edwards once giving him valuable assistance.

A little over ten years ago Harry Hill alleged that he was made to pay altogether too much to the police for his protection. He made a kick of the biggest kind, and charged the police with levying blackmail upon him. Afterwards he tried many places, all of which proved failures, and he died poor.

The Lynching of Italians in Louisiana.

WASHINGTON, Aug. 29.—The state department has received the report of the governor of Louisiana on the recent lynchings in that state. The speech will not be given out for publication, but will be transmitted to the Italian authorities. In a general way the report states that after a thorough investigation by the state authorities no affirmative evidence can be found that the men lynched were Italian subjects. It cannot be learned either that they have ever taken out American naturalization papers. The governor says that every effort is being made by the authorities of the state to find the perpetrators of the deed. As the governor's report does not appear to mitigate the circumstances of the affair there seems to be little doubt but that the United States will have to pay an indemnity. The case is similar to that which occurred in Colorado last year, at which time Secretary Olney recommended to congress that indemnity be given to the families of the Italians killed. The Italian government is quite as insistant that the perpetrators of the outrage to pay shall as that money should be paid as indemnity.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed in the spring, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, Indigestion, Constipation, Dizziness yield to Electric Bitters. Only fifty cents per bottle at A. Wasley's drug store.

STOCK AND PRODUCE MARKETS.

Closing Quotations of the New York and Philadelphia Exchanges.

NEW YORK, Aug. 29.—The transactions in stocks to-day, while on a moderate scale, were well distributed, with the activity in spots. For the first time the market appeared to reflect with some degree of spirit the improving financial outlook, which is chiefly based on the substantial gold imports and the implied relaxation of the present stiffness in money and in the commercial money market. Marvelous Results.

From a letter written by Rev. J. Gundermann, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at A. Wasley's drug store. Regular size 50c and $1.00.

A WIDELY known Wisconsin publisher, who resides at Green Bay, writes March 6th, 1895, as follows:

My attention was called to Dr. Miles' Restorative Nervine, and I commenced to use it with the very best effect. Since then I have kept a bottle in my house and use it whenever my nerves become unstrung, with always the same good results. My son also takes it for nervousness with like never failing success.
