MR. BRYAN'S DAY OF REST. The Candidate's Brief Respite from the

Activity of Campaigning. JAMESTOWN, N. Y., Aug. BL.-Mr. and Mrs. William J. Bryan enjoyed a day of ense yesterday, after a week of campaign-ing which has included speeches in the largest inland cities of the state, in two or three farming centers and many short ones from car platforms. Two or three and sometimes more speeches have been made by Mr. Bryan each day, and the intorvals between have been spent in travel-ing by trains and carriages. The week with him was a lesson of unremitting tarmoil, pushing through crowds, riding af-ter brass bands, with fireworks flying br cannon rearing in his ears. Even in the quieter moments at hotel tables and in car sents, there have always been a dozen people at his clow to shake hands, to try to talk politics or tell him how the campaign must be run. He has even had to wield a fork with the left hand while writing autographs with the right. Despite this continuous strain, Mr. Bryan was looking almost as fresh as a

Colville, in the morning Afterward they drove to Lake-wood on Lake Chautanqua, twelve miles from here where they were entertained by Norman E. Mack, of Buffalo. Wherever they stirred curious groups gathered about thun. Today Mr. Bryan leaves New York state, probably to return in October when he will speak in Brooklyn and other

Governor Blanco, however, estimates that the separatists number at least 4.000. He has asked the government to send reinforcements. The Spanish ministry yesterday decided to send 2,000 troops to the Philippine islands without delay

## All Quiet at Alexandretta.

WASHINGTON, Aug. 81.—The navy de-partment has been informed by Admiral Selfridge, commanding the European sta tion, that everything is quiet at Alexandecta, Turkey. This information came to the admiral from Captain Shepard, commanding the San Francisco, which is now at Alexandretta, where she has been for a week. The fact that affairs are quiet at the place named is regarded as a favor-able sign, because the dispatches from Constantinople have stated that the attank on the Ottoman bank and the slaugh-ter by the Turkish soldiers have led to an excalus from the capital city, foreigners and native Armenians and others fleeing in large numbers southward in the direc tion of Alexandretta. The dispatch also indicates that the naval officials in Mediterration waters are watching closely the condition of affairs in Turkey, so as to keep the government promptly informed of what transplres.
