THE GOLD STANDARD DEMOCRATS

Comptroller Eckels Speaks Enthusiastically of the Work of the Coming Convention, and Mentions Senator Vilas as a Possible Nominee for President.

INDIANAPOLIS, Sept. 1.—There has been considerable discussion today about the platform which the gold Democratic connention will adopt, and there are indications that a fight may be the outcome. Mr. Bynum yesterday received from Abram S. Hewitt, of New York, a draft of the platform which the New York man thinks should be adopted. Mr. Hynum some time ago wrote to a number of lead-ing gold Democrats throughout the coun-try, asking them to submit their ideas as to what the platform should be. Several have responded with drafts of different planks, but Mr. Hewitt has sent an entire

All the communications which have been received on the subject by Mr. Bynum will be turned over to the committee on resi-lutions when it shall be appointed. Mr. Bynum says that it does not necessarily mean that because Mr. Hewitt had drafted a platform that it would be the one adopted by the convention. Some of the delegates now here think that it is a mistake to have any idea get out that the plat-form was drawn by Mr. Hewitt or any

A draft of the money plank, prepared in the treasury department, has been seen by several leaders of the gold movement, and there is a general impression that suggessions from this quarter will be received by the committee on resolutions and the con-vention with a great deal of favor. It is pessible that several of the money plants which have been prepared are drawn on the lines suggested in the treasury department, and possibly Mr. Hewitt's draft may contain these suggestions.

There is also talk of a plank in favor of currency reform, having for its main ob-ject the retirement of the greenbacks, and a revised system of issuing bank notes to take the place of the greenbacks, the notes to be redeemed and reissued and supported by a gold reserve in the banks, with the maintenance of all currency at a par with gold. This scheme is said to have behind it several strong men who will push it before the committee on resolutions.

There is also a movement to secure an indersement of the principle of the income tax, but this does not receive very heariy support from the delegates now here. Perry Belmont, one of the delegates from

New York, arrived yesterday. Several of the leaders of the gold movement, including Chairman Bynum, had long confer-ences with Mr. Belmont during the day and in the evening. Mr. Belmont had absolutely nothing to say for publication.

J. Parke Postles, of Delaware, is here.

He says the situation in Delaware depends upon the success of a contemplated ar-rangement between the Higgins and Addicks factions as to the electoral ticket. With unity of the Republicans, he says, the ticket to be nominated at Indianapolis would poll enough votes to give the state to McKinley. Unless the Republican difficulty is adjusted the Republicans will be more hopelessly divided than are the Democrats. He says that an adjustment

Democrats. He says that an adjustment is possible on the electoral ticket, but not on other features of the canvass.

Mr. Postles was asked if there was any talk about Senator Gray, of Delaware, for the presidential nominee of the convention, and replied that Senator Gray was not a candidate. He did not say that toe Gray would not accort if the nomination was tendered him. Louis R. Ehrich, of Colorado, is a gold

delegate from a very strong silver state He says it is idle to talk about McKinle carrying Colorado, and one might as well say that Bryan would carry Maine. The Democrats and Populists have fused on an electoral ticket, and will sweep the state. A second Democratic ticket will not be put in the field in Colorado, and the Demoerats who do not want to vote for Bryan will cast their votes for McKinley. Mr. Ehrich says it is impossible to guess the vote for McKinley in Colorado. In coming cast Mr. Ehrich had an oppor-

tunity to talk with men of Kansas and Nebraska. The Kansas man said the siler movement was on the wane, and Me Kinley stock was rising. The reports from Nebraska were conflicting, but the im-pression seemed to be that the big corn crop of the state would tend to destroy the discontent and thus increase the McKin-

ley vote.

Among other noted leaders here ara
Compareller Eckles, of Illinois, Senator
Vilas of Wisconsin, and ex-Congressman
Outhwaite of Ohio. The real influx began to-day. Secretary John R. Wilson
already has the signed cretentials of over 600 delegates, and has received telegrams announcing that they are on their way. Thus far but one delegate has appeared who does not favor the nomination of a ticket.

The managers, however, look upon a ticket in the doubtful states as of vital importance, but the general expectation now is that an electoral ticket will be put up in almost every state in the Union. It s pointed out that an active canvass is to be made by the gold Democrats under the auspices of the committee to be appointed by the convention to succeed the provis-ional committee against the Chicago non-iness, and that this could be more effec-tively and more consistently done with nominees in the field.

"They would," said Congressman Sper-Despite the fact that in this can paign the money question overshadows all else, it would be almost impossible for Eumocrats to advocate the election of McKit.ley on a platform which gave preference to protection and other things to which we have been and are still unalterably opposed. The only detraction to McKinley's election seems to be the fact that many gold Democrats will vote for McKinley, and

the real strongth of the gold Democrats will not be nomified in the vote east."

Comptreller Eskals is enthusiastic over the prospects of the convention. He says it will be a magnificent body of men and a great credit to the entire in which they are calisted. Mr. Eckels says be has not looked over the ground and knows very little about the present situation as to candidates, but he volunteers the statement that there is considerable sentiment in favor of Vilas in northern Illinois. Mr. Eckels says that from his observation on Eckels says that from his observation or his trip through the west he is of the opinion that the silver wave is receiling very rapidly, "and when the votes are counted you will find that ten Democrats vote for McKinley where one votes for Bryan."

No Silver Redeemed in Gold.

WASHINGTON, Sept. I. - Chairman Faulknor recently addressed a letter to Secretary Carlisle stating that in view of the re-peated assertions by public speakers that silver deliars had been kept at a parity with gold by reason of the readiness of the trensury to redeem them in gold upon request, he would like a response to the ques-tion whether the treasury had over re-deemed aliver dollars. Secretary Carlisle writes in response: "So far as I have been able to ascertain neither the treasury department nor the sub-treasury has ever been called upon to redeem silver dollars in gold, and no such dollars have over been in fact redeemed in gold."

NEW Your, Sept. 1.-John L. Sullivan New York, Sept. I.—John L. Sullivan and Tom Sharkey met in a three-round friendly bout in Madison Square Garden last night before 1,000 people. Both parties became so noisy when before Justice Cardin that he committed them to the lockup until this morning to give them time to cool down and get soler. They were discharged this morning upon payment of costs, and Rice told an interesting story. Six months ago, he said, his wife ran away to Chicago with another man, leaving four small children dependent upon him. On Saturday last his wife returned and she was much surprised to find her husband alive. She said relatives but written that her busband had been killed in the mines and the object of her return was to claim \$500 from the beneficial fund. Her disappointment led to a free fight.
