Pitiable Condition of Dr. Gallagher, the Released Fenian.

STRONG EVIDENCES OF INSANITY.

Dr. Gallagher Will be Sent to a Sanitarium on Long Island, and His Future Will be Well Provided For by the Irish Societies of New York.

New York, Sopt. 5.—Dr. Thomas Gallagher, who was liberated tast week after serving thirteen years' penal servitude in Chatham and Portland prisons, arrived here yesterday afternoon on board the American liner St. Paul. He was met at Quarantine by a delegation of representatives of Trich scapities in this country. tives of Irish societies in this country. Among those who went aboard the St. Paul to greet him was James Gallagher. who is a brother of the released man. Dr. Gallagher recognized his brother at once but he was in a very excitable mood and acted very strangely. Dr. Anthony Mo-Bride, who accompanied Dr. Gallagher across the ocean, would not permit any of the newspaper men to speak to his charge. It was evident that the doctor's mental condition was a total wreck. He looked to be fully twenty-five years older than when he left America a little over thirteen years ago. When the members of the delega-tion of Irishmen were presented to him the doctor was unable to recognize any of them, and almost immediately ran away through the corridor, shouting loudly and incoherently. He was followed by two of the stowards, but before they grasped his arms, he threw a handful of pennies through one of the porthole windows and

"I have got my fare over the ferry, at any rate.

citizen must be treated?"

He broke away from the attendants again, but they finally locked him up in a room. When he quieted down one attendant was left with him, and Dr. Mc-Bride asked all the poor fellow's friends not to disturb him for some time.

When asked as to the doctor's condition Dr. McBride said.

Dr. McBride said:

"I have not examined Dr. Gallagher and cannot say whether he has suffered any bodily injury from his treatment in prison. He complained frequently that he was He complained frequently that he was treated very harshly, and said that three of his ribs were broken in Chatham prison. His general health is in a precarious con-dition and mentally he is in a very doll-cate state. It will be necessary for him to have absolute quiet for fully twelve months, and then I am not quite sure that he will recover sufficiently to have the use of all his faculties." of all his faculties."

Dr. Gallagher is at the Savoy hotel. He
is being looked after by his sister and
niece and two trained nurses, under the
direction of Dr. McBride. This afternoon he will be examined by two experts on in-sanity, who will consult with Dr. Mc-Bride. The reception committee appointed

Why Bardsley Should be Pardoned. Hardiseum. Sept. 5.—The board of pardons made public yesterday its reasons for recommending a pardon for John Bardsley. The beard is unenimous in

recommending the pardon and it can be said with a reasonable degree of certainty that the governor will approve its action. The reasons for recommending the pardon are based almost entirely in the extreme ill health of Bardsley. From the facts presented to the beard it was conclusively shown that the offense of which he was guilty was a conversion of funds in his possession, but returned by him to his credit in bank before his arrest, and there was no noney actually learn by him to was no money actually kept by him
