MR. BRYAN'S EASTERN TRIP.

The Candidate Satisfied That the Silver

Sentiment is Growing.
Chicago, Sept. 5.—"I am perfectly satisfied with the result of my trip east,"
said Mr. Bryan, "and my observation is not based simply on impressions formed from the rostrum. To address people by the tens of thousands, as I have done since leaving Chicago, would naturally carry with it the impression that the audience with it the impression that the audiences addressed were swayed by the utterances delivered. A speaker is ant to be corried away by such an idea. But when I say that I am asticiled with the result of my teip east I do not mean that my observations from the speaker's stand have led me to suppose that the large audiences whom I have addressed were carried away with the principles advecated, as their appliance would appear to indicate. My estimate is based on entirely different sources.

People whom I have met and who have mingled with audieness at Democratic gatherings have voluntarily come for-ward to assure me that the southment was vering around toward the Democratic platform. I have taken occasion after leaving the speaker's stand to talk with men whom I have observed in the audience as on the doubtful seat, if I might so express myself, regarding the currency question. Such have come to meafterward and have expressed themselves as more than half convinced that the tenets of the Chicago platform were after all the truest. In the popular interest. Others have come to me, men who even disagree with our party principles, and have as-sured me that the change in sentiment to-

ward the free coinage of silver was some-thing they had never seen the like of, "Added to this the approbation which every public speaker cannot fail to discern in the eyes of a sympathetic audience has convinced me that a large proportion of the people whom I have addressed have been impelled to applaud, not out of sym-pathy with the speaker, but out of appro-bation of the truths spoken. If a speaker be qualified to judge of the effect of his speeches on audiences then I think that without egotism I may say the people whom I have met and addressed are for more enthusiastic in favor of free silver Bellef in Six Hours.
