EXPLOSION OF GAS.

Three Men Suffered in the West Shenandoah Colliery Today.

An explosion of gas in a heading in the West Shenandoah mines, at eight o'clock this morning, made victims of three men, one of whom is in a critical condition. The injured men were Frank Lewis, the assistant fire boss of the mine and also assistant fire marshal of the borough, and two Poles named Simon Hanak and Peter Sabowicz.

The three men were burned about the head, face, neck and hands. Lewis received the effects of the return fire and, therefore, suffered more than the others. Dr. J. Pierce Roberts, the attending physician, says Lewis' condition is critical, but he hopes to pull him through to recovery. Peter Sabowicz is receiving treatment at his home on East Lloyd street from Dr. G. M. Hamilton. Simon Hanak lives on West Line street, but he was sent to the miners' hospital. Lewis has a wife and child and resides at 221 South West street. Hanak has a wife and three children in Poland and Sabowicz is single.

There is a conflict in the stories as to the cause of the explosion and Mine Inspector Stein says that as soon as the condition of the victims will permit a rigid investigation will be made. The two Polish victims say that Lewis ignited the gas and the latter says that while he was engaged with the men in brushing gas out of a chute his light went out. He then went into an adjoining chute that was free from gas to re-light his lamp. While he was thus engaged, and after he had secured a light, somebody opened a door in the gangway and the air admitted sent the gas which had been driven out back to his light. The fire first struck him, then went through the heading to the chute in which the other two men were brushing out the gas, and then returned and burned Lewis a second time.

Mine Inspector Stein says the story of the accident he gleaned after investigation is quite different. The version he gets is this: Lewis, contrary to the mine law, allowed the men to brush out the gas. His light was extinguished by the brushing and he went down to the gangway to re-light it. Having done this Lewis, instead of returning with the air, went up an outside chute and into the heading through which the gas was passing. In this manner Lewis met the gas the men were brushing out and ignited it.

If you want a fine wedding cake, let Otto make it for you.

The night will be spent there and on Saturday the inspectors will go to Harrisburg and lay the report in the Governor's hands.

Among the testimonials received this year by the proprietors of that greatest of all remedies, Paine's Celery Compound, are found many, as usual, from families of national reputation.

One of these is the following sincere statement that bears the signature of Agnes B. Quay, the wife of the Hon. Matthew S. Quay, United States Senator, whom Pennsylvania so urgently named for the Presidency at St. Louis:

"WASHINGTON, May 15, 1896.
"MISS WELLS & RICHARDSON,
Burlington, Vt.
"Dear Sirs:—My daughter and I have been using your Paine's Celery Compound this spring with most beneficial results. "Those in an over fatigued condition will find it a gentle stimulant, and an excellent tonic, and I add my testimony to others without reluctance."
The relative merits and efficiency of Paine's Celery Compound in making people well is clearly shown in the character of the people who today rely on it to cure insomnia, nervous debility, persistent headaches and a rundown condition.
It is the power of rapid repair of the tissues that makes Paine's Celery Compound the great saver of life that it is. It brings just the needed nutriment to the distracted nerve tissues all over the body and increases the volume of healthy blood so that a breaking down of some vital part is averted. While taking Paine's Celery Compound, there is a general building up of the deep-lying tissues all over the body, and a throwing off of unsound elements that clog and interfere with its healthy activity.
