ONE OF BRYAN'S SOPHISTRIES.

In all of his speeches, Mr. Bryan dwells, upon the alleged inconsistency of the Ignace Paderowski has written a new min-Republicans in declaring for the main-ter for the plane, which he has dedicated to tenance of the gold scoulard and at the his American admirers and given the signifisome time favoring no international argument for the larger use of silver gards the new composition as his best, and believes that it will need with greater popular favority at the gold standard is a good thing," he sakes, day after day, "why do they want foreign nations to help us let go of it?" This bit of sophistry is on a par with the first minuted written by Paderewski since rest of his so-called arguments against sound money and a safe standard of walue.

As a matter of fact, the Republicans are not looking for a way to get rid of the gold standard. They say in their platform, "We are opposed to the free coimage of silver, except by international agreement with the leading commercial nations of the earth, which agreement we pledge carried ves to pro-

This does not mean that they prefer a double standard, or an alternating standard. Scinaton and Rev. 18. Denabinski, of Huxle-but only that they believe our government ton, is appointed his successor. The removal should enoperate with others, whenever such a thing is possible, for the buying and coining of the world soutput of silver under such conditions as shall not endanger the permamency of the gold standard. That is the kind of himetallism which they are pledged to promote, and not the kind that would abelish the gold standard.

There is no invensistency in such an attitude, and no qualification of the declaration for the maintenance of the present standard The Espublican party is not the enemy of silver; it has put more of that moral to use s money than any other party in our history If all the silver in existence could be coined to-morrow and kept on a parity with gold,

the Republicano would be glad to see it done But they know that the conditions are now such that a step of that sore would destroy The 100c simulard and put the country on a 53c basis, with disserting consequences to all classes. Therefore, they are opposed to free coimage, as they say, "except by international agreement," or in other words, under conditions giving assurance of exemption from the exils of a depreciated currency. They are not against sliver simply because it is white instead of yellow, but because the free and unlimited coinage of it as troubles, catarrh - cures which prove eirenmstances now stand would be a capacious misfortune.

Whenever other nations will enter into an agreement with ours for the purpose of doing what no one nation can do alone—that is coining the whole silver product of the earth on such terms as will insure the continuance of the gold standard-there will be no objection from the Republican party; but until that time comes the power of that

party will certainly be exerted to the atmost for the prevention of an experiment that A Young Man Who Proved Ingrate to would inevitably result in the substitution of poor money for good money, and the ruffiction of immeasurable loss and misery upon the country.- N. Y. Advertiser.

MEDFORD, Mass., Sept. 19.—Star Pointer. at Mystic park yesterday afternoon, not only best two accredited faster horses, Robert J. (2.01%) and Frank Agan (2.03%) but paced the three fastest heats ever made In competition, the times being 2.0214 2.03% and 2.03%, an average of 2.03%. He also lowered the world's record for the fastest first heat ever paced, 2.0214, as well as the records for the fastest quarter and

half, 20% and 50%, respectively. The race between the three great pacers was phenomenal, for while in the first heat Robert J, was beaten by ten lengths. In the next two he was close on to the leaders, coming in second in the third heat. Frank Agen in the whole race was never a length behind, and at one time was a nose to the good. Star Pointer, however, managed to get under the wire first in every heat, and must have had some thing in reserve, for McCleary never raised his whip in the three heats.

It was shortly after 8 o'clock when the gong rang for the pacers. Robert J. was the favorite, 100 to 200 with Frank Agan 5 to 200, and Star Pointer 55 to 200

Star Pointer had the pole, and after two attempts the three were sent away well bunched. The pace from the start was terrifle, much too hot for Robert J., who dropped behind the other two, being lengths in the rear at the first quarter which was made in 20% seconds. Pointer and Agan were nock and neck all the way down the back stretch, making the half in The three-quarter pole was reached in 1.31% with Pointer slightly in the lead, and netwithstanding the fact that Me-Carthy applied the whip, the son of Flora could not reach Pointer, and the two rushed under the wire in the record broaking time of 2.02%. Robert J. was ten

The second heat was still more exciting for Agan poked his brown nose in front of Pointer while on the back stretch, but b was only for a moment, and with a listic burst of speed Pointer soon regained his place. Robert J. showed up much better in this heat, and was close on Agan all the way through. The quarter was made in 31, the half in 1.03, the three-quarters in 1.33 and the mile in 2.03)4.
In the third heat Pointer led from the

start, but Robert J. managed to overtake Against the three-quarter pole, and the last furlong was the most exciting of the whole race. Pointer, however, won the heat and race by a nose in 2.03%, making the quarter in .50%, the half in 1.01% and the three-quarters in 1.321,
