Philadelphia Times sued for libel.
PHILADELPHIA, Sept. 19.—James L. Miles, the Republican nominee for sheriff, has had warrants issued for the arrest of Colonel A. K. McClure, editor, and Frank McLaughlin, publisher, of the Times, on the charge of criminal libel. A civil suit with damages placed at \$100,000 has also been begun by Mr. Miles. The alleged libel was in an editorial in which occurred the sentence: "If such a man as Jim Miles can be elected sheriff of Philadelphia at the dictation of Lehighist Martin, and that at a time when his own as well as Martin's connection with corrupt legislation in the city council is fresh in the public mind, the hardest things that have been said by the critics of American politics would be justified."

Why Paine's Celery Compound is Famed in Washington Families.

Many persons out of health have found an excuse in hot weather for doing nothing toward getting well. "I will wait until fall," they have promised themselves. It is now time, if ever, in thousands of cases, to keep that promise. Nothing should now interfere with building up the weakened nerves.

Now is the time of year when rheumatism and neuralgia must be cured, when debility and nervousness must be mended—if one hopes to get well. The natural, unchecked course of disease is from bad to worse as the fall and winter wear on. It is not that rheumatism, neuralgia, insomnia, and kidney troubles are hard to cure—Paine's celery compound has made a host of sufferers well—but people make themselves chronic invalids by neglecting the first symptoms of disease.

Thousands of lives that are now fast wearing out, would be prolonged if Paine's celery compound were in each instance used to stop those ominous pains over the kidneys, to build up the rundown nervous strength, and cure permanently those more and more frequently recurring attacks of headache and indigestion. There is absolute relief from nervous prostration, sleeplessness, poor appetite, growing
