"Instead of Biring Financiers to Let Us Alone We Ought to Try Them for Conspirney Against the Country"-Glad to be Opposed by Trusts.

WHMINOTON, Del., Sept. 22.—Last night an audience that filled the Auditorium here to its very utmost capacity, sitting and standing, became wildly demonstra-tive over a speech by William J. Beyan. Mr. Bryan was presented by L. Irving Handy, Democratic candidate for congress. In introducing the Nebraska ora-tor Mr. Handy referred to Major McKinley, and there was an outburst of cheering, interrupted with groans and hisses. More groans and hisses, but no cheers, followed his reference to the Indianapolis ticket. Mr. Bryan's reception was flattering in lts enthusiasm. When he finished his its enthusiasm. When he finished his speech he went on a platform on an open los near the Auditorium and addressed a large audience composed of those unable to gain admittance to the principal speech.

In the course of his speech he said:
"It is sometimes customary for the peo-ple who desire to see a presidential candidate to form exeursions and visit the home of the candidate. But times are hard this year and the candidate comes to you to save the expense of travel. I do not be-lieve our people can travel as cheaply, anyhow, as our opponents can during this

"I want to talk to you awhile about the financial policy of the government. have an old fashloned idea that the peple have the right to select their public servants, and that those servants should servants, and that those servants should conduct the government as the people want that government conducted. If you want to employ a man to do a certain kind of work you want to know that the man is able to do the work that you want done, and then you employ him. And so it is with a public officer. You want to find out first what you want done, and then you want to find out sirst what you want done, and then you want to do that work in a manner in which you want it done. which you want it done.

"I want to tell you how we believe the work ought to be done, and then you can decide whether our way is your way. The treasury department is an important part of our government. It has to do with our of our government. It has to do with our financial system, and I ask your attention to two features of the financial question. First, what use shall we make of the sli-ver dollars already in existence? Second, shall we have any more sliver dollars put into existence? In the first place, our silver dollar is not redeemable in gold by law. Our silver dollar is a legal tender for all debts, public and private, unless the contract expressly excludes the silver dollar. Our government has a right to pay every coin obligation in either gold or silver, whenever the government desires. Furthermore, this government has no gold Furthermore, this government has no gold obligations except gold notes, and for every note there is a gold dollar in the treasury ready to pay it. This government has no gold bonds. This government has no paper outstanding excepting the gold notes upon which gold can legally be demonstrated.

"What use shall we make of the silver clear forceses and described and deliar? I speak of this because all the con-ditions of which we complain are brought about by the failure of the government to exercise its rights to redeem its coin obligations in either gold or silver. Take base does not grow a silent right to pay all coin obligation in efficiency from the right to pay all coin obligation in efficiency from the right to pay all coin obligation in efficiency from the right to pay all coin obligation in efficiency for the right to pay all coin obligation admits that by law the government could redsem greenbacks and treasury notes in sliver, but Mr. Carlisle said in his judg-ment it would be unsafe for the government to exercise that right because other secretaries of the treasury had established a precedent, and that precedent was that the note holders should be permitted to designate the kind of payment instead of

government.
I lay this down as a ground work, be cause, my friends, the issue of \$252,000,000 of bonds was unnecessary. Those bonds were issued because the secretary refused were issued because the accretary remain to exercise the rights given by law, and preferred to saddle a bonded debt upon this country instead of departing from custom. More than that, my friends, not only has the accretary of the treasury issuch bonds to the extent of \$262,000,000 to buy gold when the necessity for buying gold could have been avoided by the use of silver-not only have those bonds been issued, but there is no end to the issues of conds if this financial system continues. and the Hopublican party proposes to con-tinue the same financial system that has cursed this country for the last twenty-

three years.

"Let me show you what is possible under this system, because I have so much confidence in the ability and patriotism of the people that I believe a clear under standing of the manipulation of the treas stanting of the manipulation are the transfer of the purpose would open the syes of the people and arouse a unanimous protest against it. The first \$50,000,000 of honds were advertised for, and the adverdiscment stated that only gold would be received for the bonds. Suppose a man had gone to the secretary of the treasury had gone to the secretary of the treasury with \$1,000 in greenbacks and treasury notes and said to the secretary, 'I want to buy \$1,000 worth of bonds.' The secretary would have said, 'We can't sell you those bonds for greenbacks and treasury notes. These bonds are issued to get gold, and therefore we can only sell them for gold.' This man would say, 'Well, if you won't sell them for greenbacks and treasury notes I will just deposit the greenbacks and treasury notes and have you redeem them in gold.' The secretary would have said, 'Well, that's what we are here for,' and would have given him the \$1,000 in gold. Then the man would say, 'Do I understand that you have some bonds for

drew out \$18,000,000 in gold to pay for those bonds, and to the extent of \$18,000,-000 the government had no more gold than when it commenced, although it had agreed to pay interest on \$15,000,000 of bands. If there is any man who cannot understand the absurdity of that proposi-tion I ask him to ask his wife about it, because there is not a wife that cannot tell you that it was an idiatic transaction. Then they issued \$50,000,000 and drew out a larger percentage of the gold than the first time. Then they made the Rothschilds contract. There was a contract by which this government sold to a private syndicate bonds at 1.01%, which were at the time worth 1.19 in the market. There is not a private citizen who would ever do that kind of business, or his relatives would have a guardian to take care of his property.

"They sold bonds and sent them across

the ocean, and before six months were up the same bonds that went across the ocean at 1.01½ came back to this country and took gold away from this country at 1.20. That is financiering. That is wisdom in financial circles. And if there is any one here that does not see that it is wise, do not say so, because they will say you are an ignoramus down in Wall street. That contract contained a stipulation by which the Rothschilds and Morgan syndicate agreed for a certain length of time to do their best to protect the treasury of the United States. They hired two men to back the treasury. If this government is going to admit that it depends for its financial existence upon two banking firms, one foreign and one domestic, then it puts itself where those people can charge this government whatever they please. I am not much of a financier, but my idea is that instead of hiring those men to let us alone we ought to try them as they do any other men who conspire against the

government and punish them for con-spiracy against the country.

"If some petty individual who did not have a high financial standing were to bry to beat the government out of \$100 they would put him in the penitentiary and make an example out of him. But if a man tries to beat the government out of \$3,000,000 he becomes a patriot and de-serves to be the chief guest where treasury officials are banqueted. I do not believe that the men who manage the financiering should be the bosom friends of the conspirators who never lose an oppor-tunity to bleed the people. I do not say this to seems the support of the Morgan syndicate. I know when I say it that I put myself in the ranks of the snarchists. I believe the time has come when the sec-retary of the treasury, instead of being invited before the magnates of Wall street and told what he must do, ought to invite the magnates of Wall street before him and tell them what they must do, and make them do it.

"I have been called an anarchist because I have opposed the trusts and syndicates which would manage this country. I am glad to have the opposition of these men. I am glad that if I am elected there is not a trust or syndicate that can come to me and say 'We put you there; now pay us

Another Past Day Proposed. Critcago, Sept. 23.-At a union meeting of Christian ministers and laymen of all denominations yesterday, which was called by D. L. Moody, and which completely filled the Central Auditorium, the suggestion was made that, in view of the present political and industrial crisis, it would be desirable to have a day of humiliation and prayer throughout the whole nation. The suggestion so manifestly reflected the feelings of all present that a call to the Christian patriots of the nation was at once proposed and unanimonaly adopted by a rising vote. Deadly Conflict Between Mine Strikers and Armed Guards.

FIVE OF THE LATTER KILLED.

They Had Succeeded in Causing a Conflagration at the Coroundo Mine, Which Barned \$25,000 Worth of Property. The State Militia on Duty.

LEADVILLE, Colo., Sept. 29. - Driven to desperation by starvation, Leadville's locked out miners, who have been threatening the peace for two months, attacked the Colorado mine with dynamite and guns at 1 o'clock yesterday morning, arousing the city and throwing its inhabitants into a panic.

The explosions were followed by many

rifle shots from the vicinity of the barri-cade surrounding the mine, which were fired by the armed defenders of the mine. The shooting lasted about ten minutes. Suddenly the off tanks and boller house

of the Coronado were discovered in flames, and despite the efforts of the firemen were almost totally destroyed.

At 3:30 a.m. an attack was made on the Emmett. There were over a hundred shots fired, but so far as known only one

if was lost and no damage to property resulted. The attack was repulsed. Five dead bodies lying at the morgue and half a dozen wounded, with damage to property to the amount of \$25,000, are the visible effects of the lawlessness. It is believed that when all is known the list of dend and injured will considerably ex-ceed these figures. The death list so far is as follows: Bert Meler, James Benson, John Mahoney, William O'Keefe and Michael Daugherty. All were strikers. The fifth name was added to the list at

6 o'clock last evening by the discovery of the body of Michael Daugherty on the ground near the Emmett mine, where he fell in the attack of the miners upon the Emmets while flushed with their victors at the Coronado. There were many people in upper windows and on house roofs roulded with night glasses, who in the rilliant moonlight saw the attack on the Emmett and the repaise of the rioters. Those watchers say the first volley from the mine was delivered at short range. and that the attacking party fell like grain before the sickle. How many met the fate of Daugherty it may remain for search of a long abandoned shaft in that vicinity to tell. It now seems that the rioters dragged

away their dead and wounded.

The story of the defense of the Emmett mine is a thrilling one. Easily accessible and surrounded only by a board fence, it was wonderful that it was not quickly overwhelmed. But the fifteen buckshot found in Daugherty's body and the story of the fearful effect of the first volley from the mine tells how quickly the rioters stomach for the bloody business. this mine been blown up the greet pumps which drain many other mines would have been destroyed and the ensuing dam-
