53-CENT GOLD DOLLARS.

There was a time when the market price of silver was 10 to 1. It is now, owing to the american annual preduction of silver, only 22 to 1. It has gradually changed as the normal production of silver has increased.

Why not use only one half as much gold as is now in the gold dollar, and still stamp it one dallar, without waiting for the consent andstance of any other nation? Why

We produce considerable gold yearly, and key should there not be free and sulfimited colunge of gold at one-half or one quarter the amount of gold new in our dollars. It is the government strop that does it. Why

Why should not gold be put on the same hasis as allver-about one-half to one. If one is a good thing so is the other.

Reynn-and with him our own deat Wilhelm-wants the law changed and the mints opposed on solver and free and unlimited coin-Fare at 16 to L instead of the market cash value of B22 to I, or in other words about onehalf value. Why should we wait an gold any more than in silver ?

Is this nution being cheated in its gold dollar? Why not use only one-half as much gold as is now used >

Will the two"Wandering Willies"-William Bryan and William Withelm-kindly explain,

The attention of the Chief Burgess is gain called to the nuisances that exist in fferent parts of the town, and especially at he lower end of Main street. The lower end of Main street, the gutter in that is allowed to remain in the gutter in that locality is not only disagreeable to the eye of the passer-by but it is sufficient to breed an pidemic. There are other localities in the burough that should receive the immedia

attention of the Burgess, and numerou payements are badly in need of repair, which f not attended to soon will likely result in several suits for damages against the barough, The attention of the Chief Burgess was called to the existence of these nuisances at the meeting of the Borough Council in August, yet up to the present time they have not been abated. With three officials—the Chief Burgess, Health Officer and High Constable-there is no good reason why the state of affairs complained of should exist, and with the enforcement of the ordinance by the officials they can be abated. Will

It is to be hoped that the efforts of Chairman Edwards will be successful in inducing ex-Postmaster General John Wanamaker to address the voters of Schuylkill county during the present campaign. It is probable that Mr. Wanamaker will deliver an address at Pottsville, in the Academy of Music, the latter part of October, and if such proves to be the case the Academy will be Insdequate to accommodate the large crowd that will apply for admission. There are some Republicans, and with them one or two hide-bound partison newspapers, that object to the ex-Postmuster General addressing the voters of the county, simply because he is a candidate for United States Senator. That is a right vouchsafed to every Republican, and if the members of the Legislature should select him to succeed J. Donald Cameron this state would have a worthy representative and one in whom they could place implicit confidence. He has performed effective work in the interest of the party in the past and continue's to do so. While we may differ as to the hoice of a United States Senator-and the HERALD will, at the proper time, name its own choice—there is no good reason why narrow-minded men and newspapers should thrust their personalities so prominently in the present campaign. In unison with the Republican voters of the county, we sincerely loops that Mr. Wanamakor, can be induced to speak in Schuylkill, realizing that the Reitz lot in Tower City. presentation of the issues by him would result in hundreds of votes for the Republican ticket.

Efon teles of Edward O'Donnell to Gindisadvantage it is better for the people to find me out before election than afterwards." He then entered into a discus-sion of campaign issues, and at the con-

clusion of his speech returned to this city The demonstration that greeted Mr Bryan last night in this city was most remarkable in its character. Blockaded streets, crowded auditoriums, besieged peaking stands and crowds that defice the energy of the police were some of the features. Tammany is noted for enthus natic assemblages, and so last night within the big assembly hall, the members tore the air with shouts of approvaof the candidates, of the America and of every comment that savored either of patriotism or loyalty to Democratic principles. Every man who entered was presented with a flag, the effect being that when anything pleased the audience the crowded hall seemed one huge wave of the

Stars and Stripes. As early as 7 o'clock Tammany Hall was jammed to the doors, and the police were wrestling with the thousands outside who were demanding admission, which, when they did not get in, drove them to the various stands creeted at advantageous points within the space of six blocks of Tammany. The small army of policemen fought and struggled with the crowds to

keep the streats open for traffic, but they seen gave it up, and allowed them to stand massed in front of the stands. The police who escorted Mr. Bryan through the lines had to fight like tigers, the people refusing to move even when the horses almost trampled upon them. But soon after Mr. Bryan entered Tammany Hall a driving rain storm started, and it was not long before at least half the crowd had sought shelter. Many of them went home, but many others sought nearby shelter, waiting for the candidate. Very

soon the street were a mass of umbrellas. Hon. John W. Keller presided at the meeting in the hall, where stirring reso lutions were adopted declaring unswerv-ing allegiance to the Chicago ticket and platform. Shortly after 8 o'clock a com-motion in the rear of the stage sent a fresh buzz of excitement through the crowd and an instant later the police plowed a narrow passageway which revealed the figure of Mr. Bryan. On either side of him were Arthur Sewall, the vice dential candidate, and George Fred Willlams, just nominated by three conven-tions for the governorship of Massachu-

The ensuing scene has rarely be equaled in old Tammany. The crowd fell into a frenzy, and the tremendous volume of sound which began then ended exactly seven minutes later, and the air was ka-leidoscopic with waving hats and flags. Finally Mr. Bryan raised his hand and secured stlence. Then he began his speech by a reference to Tammany's loyalty to Democratic principles, and followed it by an argument against ex-President Harri-son's arraignment of the supreme cour-plink of the platform. He then extered into a lengity discussion of the limited
