JEFFERSON'S RULE FOR A COIN- AGE RATIO

"The proposition between the values of gold and silver is a MERCANTILE PROBLEM altogether. Just principles will lead us to disregard the legal proposition, to figure into the market price of gold in the several countries with which we shall probably be connected in commerce, and TAKE AN AVERAGE from them."

Be sure that your taxes are paid before the 1st inst. Otherwise you cannot vote at the November election.

The Wandering Willies are ably represented in Schoykill county by our own William Wilhelm, with sentiments that they all approve.

For a country lawyer with a small practice, Bryan is a wonder, but so was Tom Thumb, and no one ever thought of running him for President.

ACCORDING to the newspapers, Bryan's idea is to get elected President of the United States without the consent or assistance of any other politician on earth.

An effort is being made to account for Mr. Bryan's vote for General Weaver, instead of the Democratic candidate, in 1892. It is needless to say that the explanation does not explain satisfactorily to real Democrats.

Two wrongs will not make a right, Bryan yells morality and dishonesty on J. Pierpont Morgan and the government bond deals, and then turns around and wants to work his own fifty-three cent dollar scheme, which we all know is wrong.

JUDGE LANSING, of Nebraska, who is a neighbor of Hon. William Jennings Bryan, has told the drummers at their Monday meeting that Mr. Bryan will lose his own state by 20,000, his own city by 1,000 and his own voting precinct by from 50 to 75 votes. This sort of arithmetic must be very exacting to the free silverites of this country.

LACK of school accommodations are reported not only from Philadelphia and New York, but from a number of other places. For lack of funds ten schools in Delaware township, Hunterdon county, have been closed, depriving about 800 children of educational facilities. Are we losing our regard for the education of our children? It looks that way in a number of localities. Shenandoah, however, is sustaining its past reputation in this line by furnishing the proper facilities for the education of the young.

If MR. BRYAN is elected President of the United States and free coinage of silver is adopted as the policy of the Government, and if such policy has the effect of enhancing the price of silver, as the champions of that policy say it will, then the success of Mr. Bryan will be worth to William R. Hearst, proprietor of the free silver New York Journal, not less than \$100,000 a year. This is the estimate placed on Mr. Hearst's windfalls, as they say, on the appreciation of value of the product of his silver mines.

This week an athletic competition between soldiers of various regiments of the United States army will occur at Denver, Col. Teams from posts in Utah, Arizona and New Mexico have been ordered to take part and were to rendezvous at Fort Logan. Athletics of various kinds have been receiving considerable attention in the army in the past few years, primarily to improve the health of the soldiers and to give them a more manly and virile character. The competition at Denver will no doubt be very interesting.

The meeting held last night under the auspices of the Republican County Executive Committee, was a success in more ways than one. To say that Mr. Healey, the principal speaker, justified all that had been previously said of him, is to express the merit of his speech but faintly. His address was moderate, dignified, conciliatory and full of originality and force. The whole gave evidence of being written by a man of the soundest judgment, and of the highest ability in direct speech. He speaks in favor of the free array classes against the deal in glittering TO BE SOLD 3 BARS Wilhelm, Esq., and E. B. FO... were also received in the audience. MAHANAY CITY.

A Miner of Many Years' Experience Meets His First Accident.

MAHANAY CITY, Oct. 1.—Robert Sneddon, an aged miner residing on East Pine street, was injured at the Elmwood colliery yesterday afternoon. While looking for the effects of a shot a piece of coal fell and struck him, slipping his upper lip and bruising his legs and arms. He has been a miner for 35 years and this is his first accident.

There will be a Republican mass meeting here to-night, in Armory hall. David Healey, R. H. Koch and C. A. Snyder will be the speakers.

The Springle colliery, operated by Lentz, Lilly & Co., shut down yesterday for an indefinite period. No cause is assigned.

Secretary Purcellman, of the Y. M. C. A., has arrived from Philadelphia and will be tendered a reception in the rooms of the Association this evening.

The borough authorities have issued notices that hereafter the ordinance prohibiting bicyclists from riding on the streets at a greater speed than eight miles an hour will be strictly enforced.

Wants the World to Know It.

H. P. Huff, of 816 Hepburn street, Williamsport, Pa., says: "I can say positively that Thompson's Diptheria Cure saved my life and also that of my sister. The doctors had given up both of us. Our friends were advised to try Thompson's Diptheria Cure on us. They did and in two days' time the dreaded disease had disappeared. I am only too glad to have the privilege of letting the world know the wonderful curative powers of this medicine, and wish I could tell every one individually. No medicine like it in the world." For sale at Kiril's drug store at 50 cents a bottle.

The Hospital Patients.

Besides ministering to the needs of 90 regular patients, they treated six that were newly admitted and 45 at the dispensary, but two of whom were new. Charles Heintz, 21 years old, of Frankville, who was struck down by a mass of coal at the Burner colliery and almost buried, was subjected to an operation. He suffered a compound depressed fracture of the skull with rupture of meningeal artery, the parietal and temporal bones being involved. The physicians removed three lobes in all, covering four or five square inches. He may recover.

William Patterson, 25, New Castle, iron worker, but employed at Wm. Penn colliery, suffering from a compound fracture of three of the bones of the foot. The wound extended from the heel to the toes on the outside. He also sustained lacerated wounds of the scalp. Falling coal was the cause.

John Yumalawicz, 29, Shenandoah, miner, Kohlnor colliery, fracture of seven ribs of the left side with abdominal injuries. His heart was displaced to the right about half an inch, and it may not be possible to replace it. His recovery is doubtful.

Anthony Ponska, 14, Lanigan's Patch, doorman, Edgewood colliery, severe contusion of the right knee. He was caught between the hammers of mine cars.

Alex. Lakofski, 41, Shenandoah, laborer, Kehley Run Colliery, severe sprain of the knee joint with swelling of the thigh sustained three weeks ago and treated elsewhere in the meantime.

Peter Eouline, aged 22 years, Wm. Penn, laborer at Wm. Penn colliery, extensive lacerated wound of the forearm, caused by falling coal.

Naturalization Day.

Thursday and Friday, October 1st and 2nd, are the days set down by the courts for parties desiring to become naturalized. Applicants, therefore, will govern themselves accordingly. James R. Deegan, Prothonotary. 9-24-1f

The Company Censured.

Coroner A. J. Lemhan, of Centuria, empaneled a jury who investigated the facts of the death of the late John Simons, who died from injuries received in an accident at the Logan colliery, and rendered a verdict censuring the company as follows: "We, the jury, find that the said John Simons met his death because of the negligence of the Lehigh Valley Coal Company in failing to have the trestling which fell and caused his injuries, put in repair, and we find that the company deserves severe censure for said neglect, which resulted in the death of the said John Simons." The jury was composed of the following persons: Messrs. A. C. Rooney, foreman; A. J. Barrett, Charles Fetterman, J. Kalkwich, Hugh Conway and John Murray.

Officers of the Prison Association.

MILWAUKEE, Oct. 1.—The report of the committee on nominations of the National Prison association yesterday named the following officers: President, Thorolf Brinckhoff of Mansfield, O.; vice president, Charles E. Felton of Chicago; and Charles T. Lewis of Morrisstown, N. J.; secretary, Rev. John L. Milligan of Albany, Pa.; financial secretary, Joseph H. Byers of Columbus, O.; treasurer, Charles M. Joseph of New York.

State Senator Shifts in His Account.

CINCINNATI, Oct. 1.—State senator Adolph Plummer has been missing several days, and yesterday the city treasurer stated that he had failed to turn over for the school board for his library fund. Senator Plummer retired as treasurer of the library in June and was unable to settle them or them. The senator is not considered guilty of any embezzlement, but so pressed that he cannot meet his obligations. He was a millionaire five years ago.

Verdict Against a Railroad Company.

TRENTON, Oct. 1.—Augustus Larue, the Pennsylvania railroad fireman who was injured some months ago while riding in his seat near New Brunswick by being struck by a piece of timber extending from a passing train, secured a verdict against the company yesterday in the United States court amounting to \$4,000.

Miss Mary Cooney, sister of John F. and Michael Cooney, of Pottsville, died at the latter place on Tuesday evening. The funeral will take place to-morrow morning.

The Biometalists Meet.

The Biometal League held a conference at the Exchange hotel, Pottsville, yesterday. There were about two dozen representatives present, among them being M. J. Lawlor and Joseph H. Pomeroy, of town; John Parker, editor of the Mahanoy City Record; Hon. Charles Palgrave, of Schuylkill Haven; Daniel Duffy, of St. Clair; William Wilhelm, Harry J. Foster and others. The conference was held at 10:30 o'clock and was not adjourned until 12:30. The meeting was private, no reporters being admitted. The principal work was the preparation of a declaration as to the principles and plans of the league. This declaration will not be made public for a day or so yet. The question of endorsing Shepherd for Congress was the main topic, but the doubt as to his honest desire relative to free silver caused some of them to oppose such a move, while the majority favored it. A series of meetings will be inaugurated, the first to be held here this evening, and will be addressed by Joseph Pomeroy and William Wilhelm, Esqs.

Fatal Theater Fire in Scotland.

A HERSCOTT, Oct. 1.—The Palace of Varieties, a play house, was burned at the beginning of the performance last night. The performers were compelled to take to flight, leaving all their property. The theater was quickly destroyed. A search of the ruins resulted in the finding of three corpses, and it is feared that there may be still others who did not have time to make their escape, so rapid was the fire's headway. Forty persons were injured by being burned or trampled upon in the panic.

Officers of the Prison Association.

MILWAUKEE, Oct. 1.—The report of the committee on nominations of the National Prison association yesterday named the following officers: President, Thorolf Brinckhoff of Mansfield, O.; vice president, Charles E. Felton of Chicago; and Charles T. Lewis of Morrisstown, N. J.; secretary, Rev. John L. Milligan of Albany, Pa.; financial secretary, Joseph H. Byers of Columbus, O.; treasurer, Charles M. Joseph of New York.

GREAT DAMAGE BY THE STORM

(Continued from First Page.)
crashed into the house of Evan Davis, and the inmates had a narrow escape with their lives.

Building Blown Down, Two Killed.
READING, Pa., Oct. 1.—During the storm the east house of the Temple furnace at Temple Station, five miles above Reading, was blown down by the wind and nearly a dozen workmen were buried in the ruins. The men were almost down by the heavy timbers and it was some time before they could be reached. The dead are: Edward Hamiller, leaves widow and five children; Samuel Trout, leaves widow and two children. Five were badly hurt, and it is believed some of them will die.

Fatal Flood at Staunton, Va.
RICHMOND, Oct. 1.—The city of Staunton, in the Shenandoah valley, was visited by a terrible flood yesterday. Many lives were lost and great damage done to property. The water invaded the lower portion of the city, rising so rapidly that many were unable to escape in time. Others barely escaped with their lives.

Fifty Lives Lost in Florida.
JACKSONVILLE, Fla., Oct. 1.—It is a conservative estimate to say that fifty people lost their lives in Florida from Tuesday's hurricane, and the number may run much higher. News from that portion of the state where the storm first struck is very slow in coming, for wires are down and railroads are impassable.

Nine Large Tobacco Sheds Destroyed.
TOWANDA, Pa., Oct. 1.—A terrific wind and rain storm visited this section about 2 o'clock yesterday morning, doing great damage, the farmers especially suffering heavy losses. Nine large tobacco sheds within a radius of five miles were completely destroyed.

The Canadian Pacific Strike.
TORONTO, Oct. 1.—Trains on the Canadian Pacific are all delayed in consequence of the operators' strike. In some cases they have arrived three and four hours behind schedule time. Communication between stations where the striking operators have been replaced by inexperienced men has been carried on with the greatest difficulty. It is said that the Grand Trunk operators and switchmen are only waiting a favorable moment to join the men on strike.

Seven People Reported Killed Near the National Capital.
WASHINGTON, Oct. 1.—Reports from the suburban towns about Washington show that great damage was done by the storm throughout the surrounding country. At the Catholic university, just outside the city, the new dormitory in process of construction was demolished. At Brookland, a few miles out, the town hall was partially destroyed and many other buildings unroofed and otherwise damaged. The train sheds at Alexandria were blown down, and the debris is across the tracks. In this city the papal legation was unroofed and the Chinese legation was damaged about \$2,500.

Reports from Rockville, Md., and other small places along the Metropolitan branch of the Baltimore and Ohio railroad show that the storm did a great deal of damage, but no loss of life was reported. The Episcopal church in Rockville was demolished and a tree fell upon the Episcopal parsonage, wrecking a portion of it. Houses were unroofed and trees blown down in all the smaller towns outside of Washington. Great damage is reported in the farming districts, where all grains in stack or shocks have been strewn over the land. Many barns have been blown down. All reports indicate that the storm was very severe in every direction outside of Washington.

The White House was slightly injured by the storm, a portion of the copper roofing being stripped off and other damage done. The most notable loss to the building was that of the tall flagstaff from which the signal was given to the city that the president was in town. In the beautiful grounds surrounding the house the damage sustained was harrowing to the feelings of the lovers of nature. No less than twenty-five of the splendid trees were completely leveled, while fully fifty of the other trees are permanently defaced. There is reason to fear that the beauty of the lawn is permanently injured. Fully 5,000 of the 600 trees in the city are destroyed.

Intelligence of the death of seven persons as the result of the storm has reached this city. Dr. H. C. Sherman, of this city, cousin of Senator John Sherman, of Ohio, died of fright at his country residence at Olney, Md. Three colored men, names unknown, were burned to death in a cabin at Washington grove, about twenty miles from Washington. A tree blew over, demolishing the cabin and overturning the lamp, which set fire to the place. Captain Robert Chelsindling, with his schooner Capital, having a crew of a white and a colored man, was caught by a blow at Sandy Point, thirty-five miles from Washington. The boat was overturned and all three were drowned.

At Alexandria, Va., the storm was relatively more severe than in Washington. There were forty fatalities and three persons were more or less injured. The dead are: W. D. Stewart, killed in bed by falling walls; Mrs. Holt, a visitor from North Carolina, killed in bed; Tillman Doss, colored, and an unknown colored woman. The loss in and around Alexandria is estimated at \$200,000.

A special bulletin issued by the weather bureau states that for one minute the wind reached the fearful velocity of eighty miles an hour.

SAVANNAH BADLY STRICKEN.

Eleven Lives Lost and Nearly \$1,000,000 Worth of Property Destroyed.
SAVANNAH, Oct. 1.—The hurricane that swept over Savannah Tuesday noon cost nearly a dozen lives and entailed a financial loss of nearly \$1,000,000. Each report that is received is worse than the first. The following is a list of dead: J. W. Johnston, Captain C. E. Murray, the tug Robert Turner, and the following all colored: Harry Waring, Eliza Henry, Fannie McCall, Ruty Williams, Julia Jackson, two deck hands of the Robert Turner, an unknown man and an infant.

Hundreds of residences are injured, and the most beautiful trees in the city are down. The loss to shipping will amount to over \$100,000. The most serious casualty was the capsizing in midstream of the Savannah river of the Norwegian bark Rosentus and the total loss of the tug Robert Turner.

At Brunswick four persons were killed outright, as follows: William Daniels, Al Davidson and John Jefferson and baby, all colored. A careful estimate places the damage in Brunswick at \$500,000.

FOR OFFENSIVE PARTISANSHIP.

A District Attorney in Virginia Resigns by Request.

WASHINGTON, Oct. 1.—Whatever doubt may have existed as to the course of the administration with reference to the enforcement of the rule against officers of the government, especially those in any way connected with the judicial branch, actively engaging in political campaigns, was dispelled yesterday by the action of Attorney General Harmon in accepting the resignation of Francis H. Lassetter, United States attorney for the Eastern district of Virginia. Complaints had reached the department of justice that Mr. Lassetter was acting as chairman of a campaign committee and otherwise taking a prominent and active part in the practical politics of his district. In letters to Mr. Lassetter Judge Harmon says in part: "Whatever rule may prevail in other departments it is well settled in this, that there is an impropriety in officers like you acting as committeemen to manage and conduct political campaigns. The reasons are so manifest that they should not require more than a mere suggestion. As United States attorney you determine who to prosecute and whom not to prosecute. You conduct or recommend the discontinuance of prosecutions already commenced. You have admission to the grand jury room, and indictments are found or refused largely upon your office. Your political work necessarily brings you in direct contact with people of all classes, whose assistance you seek to gain or whose opposition you seek to overcome. It is impossible for you to do and to have done the work which devolves on members of a campaign committee, especially in times of high feeling and great excitement, without gathering a crop of friendly and unfriendly feelings which, as common experience teaches, very often have an unconscious influence on thought and action. It is more than likely that some of the persons with whom your political activity so brings you in contact will be involved in your future official action. The fact that you were known as a man of active political habits when you were appointed is irrelevant, because the question now concerns your conduct while in office. The knowledge of the fact by the people of your district merely serves to emphasize the danger and impropriety of your carrying into political contests the weight and authority of your office."

Joseph Chamberlain Homeward Bound.
NEW YORK, Oct. 1.—Hon. Joseph Chamberlain, British colonial secretary, and his wife, formerly Miss Entleott, sailed for Europe yesterday on the White Star line steamship Germanic. Mr. Chamberlain's name did not appear on the passenger list of the steamer. Mr. Chamberlain arrived in this country four weeks ago. Before his departure he said that his trip had been solely for pleasure and to enable Mrs. Chamberlain to visit her relatives.

Taken to an Asylum.
NEW YORK, Oct. 1.—Albert C. Whitehead, otherwise known as "John Murphy," recently released from an English prison, was taken from Bellevue hospital to the insane asylum at Antietam, Long Island, today. The papers declaring Whitehead insane were signed last night by Dr. Weisman, state examiner for the insane.

It doesn't matter much whether sick headache, indigestion, and constipation are caused by neglect or by unavoidable circumstances. DeWitt's Little Early Biscuits will speedily cure them all. C. H. Hagenbach.

Serious Strike in Bohemia.
PIRAHE, Oct. 1.—A serious strike is in progress throughout the coal regions of north Bohemia, due to the incitement of anarchists. A band of about fifty strikers has been marching from pit to pit at Breux, forcing the miners to stop work, and at Ossage and elsewhere the strikers are smashing windows or doing other damage, besides intimidating the miners. The managers of the mines have asked for military protection.

Jewish Quarter of Fez Burned.
TANGIER, Morocco, Oct. 1.—The Jewish quarter of Fez, the principal city of the empire of Morocco, has been burned and several persons have been killed and many have been fatally injured. Five hundred were compelled to fly in an unclad condition to the country until the flames were quenched. It is estimated that there are 10,000 Jews in Fez out of a total population of 100,000.

Theories of cure may be discussed at length by physicians, but the sufferers want quick relief; and One Minute Cough Cure will give it to them. A safe cure for children. It is the only harmless remedy that produces immediate results. C. H. Hagenbach.

Will Not Perform Miracles But It Will Cure.

DR. MILES' RESTORATIVE NERVINE cures nervous prostration. Not miraculously, but scientifically, by first removing the germs of disease, and then supplying healthy nerve food, increasing the appetite, helping digestion and strengthening the entire system. Desperate cases require prolonged treatment as shown by that of Mrs. M. B. Beed, of Delta, Iowa, who writes: "As the result of a lightning stroke, the physicians said I had a light stroke of paralysis, my limbs would all draw up. I would have throbbings in my chest that seemed unendurable. For three months I could not sleep and for three weeks did not close my eyes. I prayed for sleep, and felt that if relief did not come I would die or go insane. I took Dr. Miles' Restorative Nerve and the second night slept four hours and from that time on my health improved; slowly at first, but steadily surely. I took in all 40 bottles, and I can express how grateful I am, for I am perfectly well, and have taken no more for over four months." Dr. Miles' Nerve is sold by druggists on guarantee that the bottle benefits or money refunded. Book on heart and nerves free. Medical Co., Elkhart, Ind.
