EVERY time Tom Reed opens his mouth he says something. In Connecticut on Thursday he made a speech in which he said, "No one knows all about the currency question. When Adam was alone on this earth there was not much complication to society. Things were uncommonly simple. If there had been railroads be could have gone forth, made innumerable speeches and come home unanimous on the subject. When Eve was drove to Sheppton this afternoon and will be presented there was complication at once; and from that time to the present affairs of there conight society life have become more complicated." The School Teacher Won.

The suit of Miss Bridget McLain the Coyningham Township School District, to recover five months' salary at \$65 per month, was tried before Judge Savidge at Bloomsburg yesterday, M. M. Burke, Esq., of town, and Ikler & Ikler, Esqs., of Rhooms-burg, appearing for the plaintiff and W. A. Marr, Esq., of Ashland, and Col. Freize, of Bloomsburg, for the defendant. The jury returned a verdict in favor of the plaint for the full amount of salary claimed, \$325. and all costs of suit. Two interesting questions arose in the trial that may be of importance to teacher, and School Directors elsewhere. In the election of the teachers in the district named names of the Directors voting for and against the appointment of Miss McLain. The Act of 1862 requires this to be done. FINANCE AND TRADE. ~

Distinctly Better Conditions Produced by

Foreign Demand for Wheat, New York, Oct. 10.—R. G. Dun & Co.'s rockly review of trade says: Distinctly better conditions have appeared of late better conditions have appeared of late, and are reflected in somewhat larger employment of labor, in larger transactions, and in continued buying of materials for manufacture. A great part of the change is due to the demand abroad for our wheat and the unusually heavy foreign demand for corn, which is a rarely falling sign of deficient crops abroad, where other grains are used instead when wheat becomes

scarce and dear. Bradstreets' review says: Colder weather, continued heavy receipts of cobton and wheat and other influences have stimulated demand for the staple goods at various points, but the volume of trace remains moderate without material change from a week ago. The tendency at some centers is to a smaller volume of trade, but the general outlook is for an improved demand after election. Interior merchants adhere to the hand-to-mouth policy of buying and wholesale merchants

are inclined to examine into credits closely.

With the prespect favoring an exceptionally large domand for wheat for ex port within the next six months, a supply than heretofore reported, is likel to prove fortunate. The total exports a wheat this week amount to 4,050,77 bushels, against 4,915,000 bushels has week, 2,244,000 bushels in the first week October, 1865, 5,317,000 bushels in 1861

2,802,000 bushels by 1883 and 3,625,000 bushels in the corresponding week of 1882. There are 201 business fallures in the United States reported this week, a de-cline of thirty-four as compared with last week, but an increase of seventeen as com-pared with the first week in October, 1895, and an increase of lifty-three as compared with the corresponding week in 1894.
