A RICH VEIN OF COAL CUT.

The Orchard Will Give Gilberton Valley a Boom.

The Draper Cut it Yesterday and the Gilberton, Lawrence and Stanton Collieries Will Also Work It—Eight Feet Thick and of a Fine Quality.

The Draper colliery, in the Gilberton valley, is now one of the best operated by the Philadelphia & Reading Coal & Iron Company. In 1894 the company erected at the colliery one of the best breakers it owns, supplying it with all modern improvements, and corresponding improvements were made inside the mine during the six months of idleness. Since then the shipments have constantly increased and at present the main hoisting slope is not able to get to the surface all the coal that is being taken from the Back Mountain, Mammoth, Four Foot and Holmes veins.

Yesterday the Orchard vein was cut. The coal is of excellent quality—eight feet thick, and has only nine inches of refuse in it. To reach the vein a tunnel was driven 400 feet from the Four Foot vein, northward, and the Primrose vein, containing four feet of good coal, was also cut by the tunnel. The Orchard dips on an angle of 40 degrees and at a point 400 feet vertical height from the surface.

Taking the width of the basin into consideration there is no doubt but that the veins will go down at least 600 feet vertical height and give the company three or four lifts of coal for a mile in length; and will crowd the breaker, which has a capacity of 700 cars per day, to its utmost. Several plans have been suggested for hoisting the coal expected from this source, but none have yet been accepted. It is believed that either a new slope will be sunk, or the vein will be worked from the present subterranean slope and the hoisting slope.

The Gilberton colliery, located on the north side of the basin, will be equally benefited by yesterday's penetration of the Orchard vein. Both collieries are operated by the Philadelphia and Reading Coal and Iron Company and are on the Gilbert and Sheaffer Estate. The Lawrence and old Stanton collieries join them on the western boundaries. The latter collieries are worked by the estate and it is intended to immediately drive a tunnel to cut the Primrose and Orchard veins. These veins have never been worked in the Gilberton valley and up to the present time were an unknown quantity.

Prisoner in a Breast.

Evan Davis, 21 years of age, residing at Gilberton, and employed to keep a slush box from blocking or overflowing at the Gilberton colliery, had a thrilling experience yesterday. The box runs through an old breast and Davis is in the habit of making his appearance at the opening of the breast to let those outside know that he is all right. Yesterday he failed to make an appearance up to 4 p. m. and the outside foreman and several men went inside to learn what had become of Davis. The young man was located at the bottom of an old breast which was too steep for him to climb. He had slipped and rolled down the breast and was a prisoner all day. He was hauled up with ropes, uninjured.

Miners in Politics.

The United Mine Workers of America held a meeting at Glen Carbon last night, and the following resolution was adopted: "Resolved, That we, the miners of Glen Carbon, in public meeting assembled, do hereby declare that we are in favor of selecting men to represent the miners from the Anthracite Legislative districts who will pledge themselves to work for the best interests of the miners and laborers of Pennsylvania, and to have laws passed for the protection of life and limb."

Killed on the Rail.

A distressing accident occurred at Mahanoy Plane at about 4:30 yesterday afternoon, by which Henry C. Wadlinger received injuries from which he died soon after. Mr. Wadlinger was coal routing agent at the weigh scales office, about a mile north of Mahanoy Plane, and on his way to the latter place stepped from one track to the other to escape an approaching freight train, and as he did so was overtaken and struck by the engine of a miner's train coming in the opposite direction. His head struck with much force, causing concussion of the brain. He was removed to his home in Mahanoy City by a special train, and died on the way. The deceased was 40 years old and leaves a wife and five children. He was a cousin of George J. Wadlinger, Esq.

Church Social.

A church social was given last evening at the home of Mrs. Hower, on West Coal street, by the Y. P. S. C. E., connected with the Trinity Reformed church. The evening was enjoyably spent in amusements, and all present had a delightful time, among them being the following: Misses Sadie Sterner, Lizette and Ella Letzel, Emma Beck, Lottie Lambert, Mercie Bees, Mr. and Mrs. Guy D. Sterner, Mr. and Mrs. Frank Starr, Mr. and Mrs. Sandon and Mrs. Hower.

There Never Was a Better Cure Than Pan-Tin for coughs, 25c. At Grubler Bros., drug store.

Rev. Morrison Still Ill.

It is regretted that Rev. T. Maxwell Morrison, pastor of the First Presbyterian church of town, has suffered a relapse and is still ill at the home of his parents in Arvada, Chester county. The pulpit will be filled to-morrow night by Rev. George B. Carr, of the Lincoln University.

Umbrellas re-covered while you wait at Brumm's.

Communion Services.

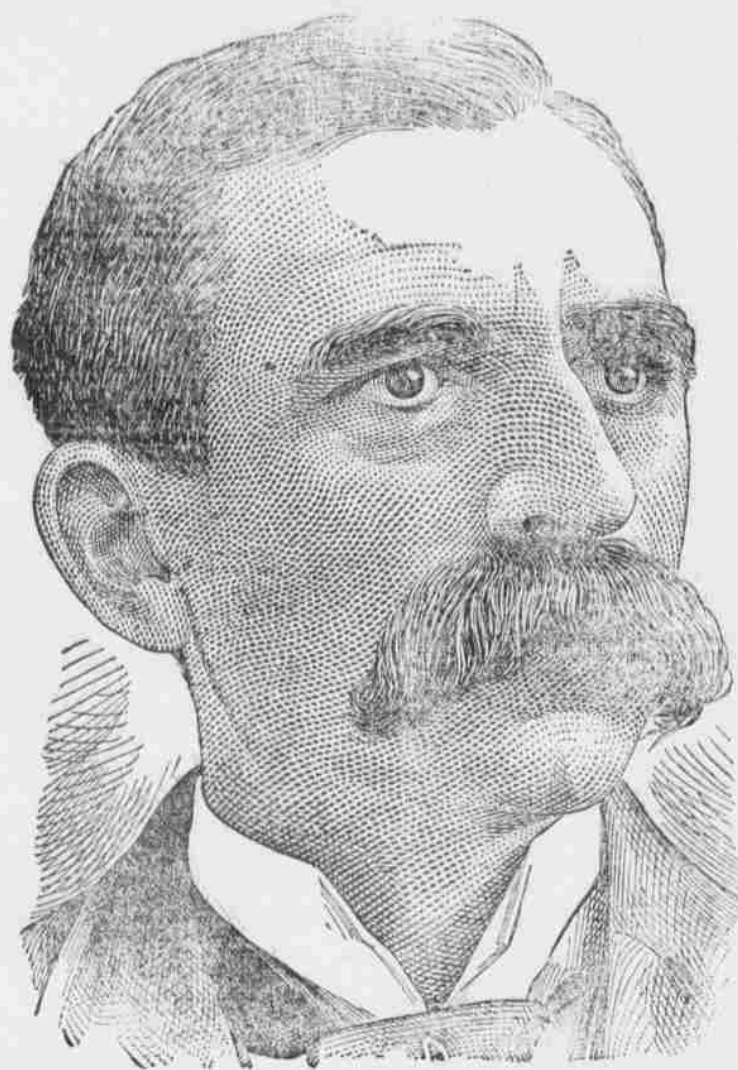

Rev. Sweigart, of Ashland, will assist Rev. I. J. Reitz, the pastor, in the United Evangelical church to-morrow. He will preach at both the morning and evening services and there will be communion in the evening.

Funeral of John Smith.

The remains of the late John Smith, father of Deputy Sheriff B. J. Smith, who died at Gordon on Wednesday night, were interred at Pottsville this afternoon, in the Presbyterian church cemetery. The funeral was largely attended.

From Maine to Texas.

The Tide of Public Opinion is all Favorable to Paine's Celery Compound.

Congressman Bell, of Colorado, One of Those Recently Restored to Health by Paine's Celery Compound.

There is just now no lack of news from the western states.

Public opinion in Colorado and Iowa is as promptly and accurately heard of as from any New England state.

From all over the west come reports that Paine's celery compound occupies practically a clear field in the cure of diseases arising from a tired or otherwise impaired nervous system.

No other remedy was ever used by so many men of sound and reliable judgment. No remedy but Paine's celery compound has ever been recommended by so conspicuously fair-minded a body of men and women. The half-hearted experimental efforts of scores and scores of sarsaparillas, tonics, and so-called nervines, with which the market is constantly recited, are in startling contrast with the confident—because thoroughly scientific—way in which Paine's celery compound sets about restoring health and vigor to the worn out body.

Why will people be silly enough to jeopardize their lives and lessen their chances of getting well by taking anything else?

There is no help so sure and so immediate as one gets from the use of Paine's celery compound. Detailed information of innumerable cases of rheumatism, neuralgia and dyspepsia, completely cured, has established this great invigorator as the most valuable remedy those run down in health can make use of.

Women whose stock of nervous energy was well nigh exhausted have been restored to a

joyful, contented state of body and mind by this same great nerve and brain restorative.

Paine's celery compound is the greatest achievement in modern medicine. It banishes weakness and pain as surely as its famous contemporary, the electric light, banishes darkness.

Paine's celery compound frees the body of vicious humors that cause kidney and liver complaints. Only a great remedy based on a deep knowledge of these diseases could do the work that Paine's celery compound is now doing. Better nutrition for the nerves, an awakened appetite, purified blood and complete assimilation—these follow the conscientious use of Paine's celery compound as surely as day follows night.

If you are alarmed by a throbbing of the heart, an irritable stomach, or general debility, be fair with yourself, use the best means there is, examine what Paine's celery compound is doing. It has cured an astonishing number of men and women of Bright's disease, rheumatism, neuralgia, heart and liver trouble. No sufferer can pass lightly over the remarkable record that Paine's celery compound has to show to every sick and ailing person.

Among the thousands of testimonials received this year is one recently sent by Congressman John C. Bell of Colorado, who says he has used three bottles of this best of all remedies for dyspepsia and rheumatism, with the most satisfactory results. Among the testimonials received since January there have been no less than 16 from Congressmen from different states.

The Largest Stock of Dry Goods in Schuylkill County.

Never before in the history of this store has there been such a magnificent display of fancy dry goods. It is hard to find so many beautiful designs chosen from the dainty creations of the weavers' art in this and other countries, as you will find here. This is the store of the people and their appreciation of fair and square dealing is shown by the liberal patronage they extend it. We are much gratified at the admiration our selections receive and will endeavor to always keep this large and popular dry goods house up to the high standard it has so successfully maintained since its establishment twenty-one years ago.

Novelty dress goods were never so attractive and, quality considered, never so cheap. We have them in many designs, most of which we have exclusive control of for this market, and would be pleased to have you inspect them. The prices are 25c, 40c, 50c, 70c, 75c, \$1.00, \$1.50 and \$1.75 per yard.

We are enabled to show you a larger line of all kinds of fine dress goods than any other house in the county. 38 inch serges, all wool, extra quality, 25c per yard; 50 inch serges, 40c; better quality, 50c to 75c per yard.

The fashion sheet of Butterick patterns, free of charge. The Delineator and Metropolitan catalogues are now ready and show many beautiful designs particularly well adapted for making up the many choice fabrics we have to show you. The Delineator, in addition to its superb new colored lithograph plates of dress modes and millinery, contains a great deal of information, and is full of all sorts of good things. Subscribe for it. You won't miss the dollar it costs you for a year, but you will miss much, very much, if you are unfortunate enough to let one number escape you. A full line of Butterick patterns, the recognized standard of the world, always in stock.
