Few men have been as sucassemil in scenting the passage of special legislation as be, and every bill champlaned by him has been heartily embarsed by his constituents. As between Mr. Wyntt and his Democratic opposent, the voters of the First district will whely choose the former. The complexion of the next Legislature will be Republican, and it will be an almost utter impossibility for a member of the minority. No importful observer of recent events can fail to recognize that the drift of public scatiment upon the some involved has been favorable to the Republican party. Within the past two town, weeks there has been a decided change in Fen decition to be held to-morrow there would be recorded a Republican victory for the county upon application.

CO-OPERATION IN FRANCE.

Under Flattering Prospects. Alm, France, Oct. 20.—Great festivities attended the opening yesterday of the co-operative glass factory which has been put up by the former strikers of the Carmaux Glass works. The strike, which grew out of the discharge of a member of the Glass workers' trade union last year, was trans formed into a lockout when the men noti-fied the management of their willingness to return to work. Great excitement was caused by the ineident throughout France, and efforts were made to induce the French minister to intervene in the dispute and secure justice for the workingmen. The Paris municipal council voted large sums of money to support the strikers, and many other municipalities all over the

ountry followed suit.

M. Candrin, of the Paris municipal conneil, at yesterday's ceremony, saluted the workers in the name of Paris. M. Henri Rochefort delivered a speech, as did M. Jaures, the Radical Socialist deputy for Carmaux, who was prominently identified with the championship of the cause of

the strikers, lit the furnaces.

At an open air meeting M. Jaures de clared that the present movement had founded a social revolution and marked the downfall of capitalism.
