AN ENGINEER'S DOWNFALL.

His Temper Brought Him to Death in a Prison Cell.

The announcement of the death of Lee Sanborn in a Philadelphia prison, for the murder of a child-in-law and grandchild, has elicited a great deal of attention among railroad men of this region because of his being formerly employed as an engineer on the Philadelphia & Reading's Catawissa branch, running between Laffy and Catawissa, for many years. He had the reputation of being one of the fastest engineers that ever took hold of a throttle. Sanborn had only one very bad quality which frequently got him into trouble, and that was his violent temper. It was the cause of his losing his position with the Reading some years ago, after which he removed to Philadelphia to reside with his son. He was a man of powerful stature, having been 6 feet 4 inches in height, and weighting over 300 pounds.

The act which brought his career on the Catawissa branch to a close, occurred one night while making a trip from Catawissa to Laffy. He and his friend, Harry Campbell, had some very angry words while climbing up the grade near Mainville. He charged furiously on the fireman, who took refuge on the train, knowing full well the desperate nature of the big engineer. Campbell returned to the engine, and when approaching the bridge near Ringtown, Sanborn seized him in his arms and threatened to dash him to death 150 feet below. He begged for mercy and escaped to an empty freight car. Sanborn fired and ran the remaining part of the run, and brought his train in on time to Catawissa on the return trip. After this he was unable to secure any work under the Reading, a circumstance which caused him to develop more desperate tendencies. In a moment of rage he committed the horrible murder with which he was charged when he expired.

EXPLOSION OF GAS.

Two Men Burned at the Turkey Run Colliery This Morning.

A blast of the Turkey Run colliery was the scene of a serious explosion today and, although no lives were lost, two men were very badly burned and one may be said to be dangerously injured.

The victims are Albert Wilkoczek, aged 49 years and residing with his wife and six children on West Poplar street, and Simon Boushke, aged 27 years, unmarried and residing at No. 219 West Raspberry alley. Both men were lured on the leads, floor, backs and shoulders, but Wilkoczek suffered the most and the parts of his body enumerated were covered with great blisters. Dr. J. G. Conroy was called to attend him and Dr. G. M. Hamilton was in attendance on Simon.

Both men stated that when they left the "blasting" to go to the face of their level this morning their lamps ignited a body of gas and the explosion followed. They allege that they were not told this morning that there was gas in the place, or warned to take safety lamps. The statement of the fire boss in charge could not be secured, as he was engaged in the mines during the day.

Reduction in Prices.

The improved Welsh lamp is now offered at the low price of \$2.00. Burns one-half the gas; gives three times the light. Ask any business or professional man in town if they would like to go back to the old way. A gas fixture without a Welsh lamp is losing money for you. See the agent.

Mrs. E. L. Fiedler, Bellefonte, Pa., writes as follows: "Two of our children were taken ill with diphtheria and the disease developed into a most serious form. By the aid of skillful physicians all possible means and medicines were applied and still our dear ones grew worse. A kind neighbor suggested we use Thompson's Diphtheria Cure. We did so and in less than twenty-four hours the coating was all removed from their throats and the boys were up and about. The third day they could eat with comfort. I cannot say too much for Thompson's Diphtheria Cure, as I feel sure it saved our children." Sold at Kirilin's drug store at 50 cents a bottle.
