The Miners Endangered.

The Miners Endangered.

There is considerable discussion among miners and mining experts at Ashlami over the mysterious appearance of water in Bear Hidge calliery and the sudden reduction of the elements in the half swamped Preston mine. Several months ago the Girard mines, in the east end of Girardville, were abandoned and the study turned in with the survey. purpose of filling them up. About a month ago water suddenly broke into Preston colago water suddenly broke into Preston col-liery No. 3, which is in the vicinity of the Girard. It covered the pumps and rose rapidly into the workings. Suspension fol-lowed and pumping from the surface has been in progress ever since. Not until Satur-day evening, however, was the gain of any moment. From that time the water legan steedily to lower, and is now 17 feet believ its high mark. On that Saturday evening water broke into the Bear Ridge colliery which is now heavy with it. At the time it was said that a breast had "unboied," but now there are many who attribute the flood to a break are many who attribute the flood to a break in the vicinity of Preston No. 3. They be-lieve that Preston's flood is making Bear Pidge its reservoir. Opinion on the matter s not unanimous, however; colliery official deride this theory, and it is not probable that the cause will be known until the several workings are relieved of their burdens.

Lynn, Muss., Oct. at.—The Recipport express on the eastern division of the Boxton and Maine read had a narrow escape from being precipitated into Sangus river yesterday afternoon through the failure, it is said, of the airbrukes to work. As it was the market of the reciprocal control of the control was the engine of the train went into the river, while the tender and first passenger car were both derailed and left banging over the edge of the draw within a few feet of the rushing waters.

The Saugus river draw was opened to allow a coal barge to pass through as the train approached. The train slackened speed, but it pushed on in spite of every effort on the part of the engineer to apply the brakes and bring it to a standstill. The train hands managed to stop the train by the hand brakes, but not before the engine toppled over into the stream. Engineer Doberty and Fireman Jameson were rescued from the river somewhat injured. There were marky 300 massengers The Saugus river deaw was opened to jured. There were nearly 200 passenge

Heavy Floods in Southern France. PARIS, Oct. II.—Heavy storms and floods Teams to Hire.

have occurred in seathern France. The river Rhone has risen to such an extent that it has overflowed its banks in several places. Requemeure, Beaucaire and Valu-bregue have been inundated, and the an-cient amphitheaters and castm, have been flooded. The inhabitants of Valabregue are living for the time being in the upper stories of their houses. Great anxiety is felt concerning the condition of affairs at Avignon, the lower portions of which have been flooded. The valleys of the Saone and of the Ardeche have been inundated by the torrential rain. Auxerre has been inundated, and food has to be taken to the inhabitants from outside distriets in boats.

If you have ever soon a little child in agony of summer complaint, you can realize the danger of the trouble and appreciate the value of instantaneous relief always afforded by DeWitt's Colic and Cholera Cure. For dysentery and diarrhoes it is a reliable rimely. We could not afford to recommend this as a cure unless it were a cure. C. H. Hagenbuch.
