TWO STATES STILL DOUBTFUL

A CLOSE VOTE IN TENNESSEE AND WYOMING.

McKINLEY IS SURE OF 277!

Any Change That is Possible Will be in the Way of an Increase.

NORTH DAKOTA ALSO ON THE LIST

EVEN KANSAS SEEMS TO BE NOT BEYOND DOUBT FOR THE POPOCRATS.

IT WAS A GLORIOUS VICTORY!

President-Elect Congratulated by Bryan. The Announcement of Defeat Was No Surprise to the Democratic Leader. Chairman Jones' Statement Conceded McKinley's Triumph. Tillman Says Bryan Will Win Text Time.

Special to Evening Herald. NEW YORK, Nov. 6.—Several states in which the vote for President is remarkably close cannot yet be claimed with absolute certainty either for McKinley or Bryan. This debatable list includes Tennessee and Wyoming. The table printed below shows 277 electoral votes for the Republican nominee. All these are absolutely certain, and are conceded even by the Democrats, with the exception of the three from Wyoming. Any change that may be made in this total will be to swell it from the returns of the now doubtful states. North Dakota was assigned to McKinley yesterday.

Kansas is retained in the Democratic side of the list, although the latest figures from the state give the Republicans fairly good ground for claiming it. Wyoming is certain to return one Republican elector, and there seems little reason to doubt that he will be joined by his two colleagues.

The two parties apparently polled within a few hundred votes of each other in Kentucky, and it was the general belief late last night that the Blue Grass State would be transferred from the doubtful to the Republican column.

Tennessee seemed still more likely to join the McKinley procession, according to the confident claims of the Republicans of that State late last night.

South Dakota's figures are still incomplete and doubtful. Neither party claims its electoral vote by more than a few hundred.

THE BUSINESS REVIVAL

Railroad Shops Resuming with Enlarged Forces—Other Industries Boom.

CINCINNATI, Nov. 6.—Special dispatches indicate a revival in business throughout the Ohio valley, as well as here. The Pitts-Four, Chesapeake and Ohio and Baltimore and Ohio railways all ordered their shops opened yesterday and enlarged forces at these already running. The Knott Car works at Huntington, W. Va., resumed. The car works at Mount Vernon, Ill., got an order for 300 cars from the Louisville and Nashville road and resumed work. The Niles Tool works and other shops at Hamilton announced increased forces. Furnaces at Ironton, Ashland and other river towns announce that they will go in blast soon. The Griffith Wood works and the Powell Brass works, both large concerns employing many men, announce that they will resume at once.

McKinley Touched the Button. TONAWANDA, N. Y., Nov. 6.—At exactly 3:30 o'clock yesterday afternoon President-elect McKinley touched an electric button at Canton which lighted a fire in furnace B at the works of the Tonawanda Iron and Steel company. The lighting of the furnace means work for 500 men. The number of lighting the fires was unique. Electric wires were strung around the furnace, and at each of the seven openings an incandescent lamp was placed with a portion of the glass removed. Powder was poured around the fires, and above this was suspended cotton waste saturated with oil, which ignited ten cords of wood and several hundred tons of coke inside the furnace. When the button was touched at Canton it completed an electric circuit at the furnace, the incandescent lamp flames ignited the powder, which in turn ignited the cotton waste.

The Review: To-night. The Gown Feast in the M. E. church, last night was attended by a goodly number. It was a joyous season. The pastor and his people expect to enjoy a season of gracious blessing at the meeting this evening. All indications point in the direction of a blessed closing of the sixth week of the revival services. By special request, Rev. Alfred Heister, who has conducted these meetings, will preach the sermon, by a unanimous vote of the congregation. A cordial invitation is extended to all members and friends of the church to be present this evening and assist in making the series one of special interest and blessing. Let all come who can and receive the help such a meeting promises. Song service at 7:15. Preaching at 7:30. Come.

A LIVELY COUNCIL SESSION

The First Ward Nuisance Creates Discussion and Threats.

MR. LALLY TALKS ABOUT WARRANTS

Announced That the Chief Burgess, Chairman of the Sanitary Committee and President of Council Would be Arrested To-day.

A regular meeting of the Borough Council was held last night with President T. J. James presiding and the following members in attendance: Reese, Magargle, Bodin, McGuire, Lally, Kearns, D. R. James, Straughn and Murphy. Some parts of the meeting were quite spicy and the members did not appear to be in a hurry to rush the business. At one stage of the proceedings Councilman Lally gave notice to his colleagues that if they didn't do something in connection with the nuisance in the vicinity of the Flynn property in the First ward, some of them would be arrested. The dialogue between the member, President James and Councilman Murphy at this stage was both interesting and amusing. President James took advantage of the opportunity to give the Board of Health a hard rib blow.

There will be rejoicing at Turkey Run to-night over the result of the meeting, as the assistant Defender Hose Company of that part of the borough becomes the owner of a horse carriage. No member left the Council Chamber last night more pleased than Councilman Kearns and while on his lonely walk to the city on the municipal forest entirely the sorrowful results of Tuesday's election and thought only of the rejoicing he would cause on his stamping ground by the announcement that the Borough Council had given the Defenders an apparatus.

Mr. Becher opened the reports of committees by stating what the roads and highway committee had done during the past three weeks. He said it fixed up a berry street, from Jarlin to Main, and has about finished Main street, from Centre street to the Lehigh Valley railroad and all crossings east of Main street, including one at the corner of Centre and Main and three at the corner of Main and Adoyt streets, and the crossing in the First ward mentioned in the petition presented at the last meeting would be attended to as soon as the contractor could do the work. Many crossing plates cannot be laid because people have not put in curb stones upon which to fasten them.

Mr. Kearns said a crossing was needed at the corner of Oak and Gilbert streets and Mr. McGuire said Bridge street should be filled between the creek and the railroad. A discussion over the creek brought out a statement from President James that the City Engineer might to see the effects of the C. & L. and Thomas truck companies in regard to it.

Mr. Reese, of the fire apparatus committee, expressed his belief that the new hose wagon had arrived and was satisfactory and the fire alarm system was in good condition. He also commended Chief Burgess on his work thus far in connection with the system.

Before taking his seat Mr. Reese made this significant announcement: "The fire apparatus committee thinks the fire companies ought to come together and reorganize the fire department, as it seems the companies are having difficulties. They ought to have better discipline and more control of the men with at fires. The committee proposes to get together some time next week and have a re-organization."

On motion of D. R. James the new hose wagon was accepted.

Mr. Kearns said he had been informed that the Columbia Hose Company hadn't room for the hose "erks" since the new hose wagon had arrived and the Defender Hose Company would like to have the "erks." Mr. Reese said the fire apparatus committee would recommend the transfer and upon motion of Mr. Lally it was decided that the Defender Company be given the "erks."

D. R. James stated that the police would be supplied with the new overcoats to-night. Mr. Magargle stated that it cost the Council last year \$93 for coal alone to heat the borough building and the Columbia Brewing Company was willing to heat it for \$150. Upon motion of D. R. James it was decided to accept the offer.

Chief Burgess Burns stated that he and the Supervisor were arrested when they went to tear down the stone wall on the Flynn property in accordance with the resolution adopted by Council and the case would come up for trial at Pottsville next Tuesday. This report led to a discussion of which the following is a part:

Mr. Lally: "Did the chairman of the sanitary committee visit the First ward where this trouble exists?" Mr. Murphy: "No, sir." Mr. Lally: "What is the reason?" Mr. Murphy: "My attention was not called to it, and I don't court trouble."

Mr. Lally: "There is a nuisance there and there is an ordinance which provides what the borough officials shall do with public nuisances."

President James: "We are paying Health Officer for the purpose of removing nuisances and if there is a nuisance, and the Health Officer, living in close vicinity, can't do it by the use of the authority he has I don't see what this Council can do. The Council has done all it could by resolution at the last meeting, and when the officers attempted to carry them out their lives were threatened, and now the matter lies in court."

because Mr. Straughn had not used them and the President displayed a little irritability. He then put the motion with the additional words and, having only one vote for it and two in the negative, declared it lost. Subsequently Mr. Straughn moved "That the invitation of the Columbia Hose Co. No. 1, of Shenandoah, Pa., be accepted and that each and every individual member of the Council attend in a body." This motion was carried without a dissenting vote.

The report of the Chief of Police for October showed 15 arrests, 1 served time and 14 paid fines amounting to \$21. Lodging was furnished to eight people. The Chief Burgess' report showed \$20 in collections and the Fire Marshal's report showed three fires, two from defective flues.

Upon motion of Mr. Lally it was decided that the fire apparatus committee inspect the fire plugs before the winter weather sets in.
