wass are worked tpub. Washinorov, Nov, 12.-A Spanish con-fidence game that is being worked with success on Americans, notably in Wis-consin and Illinois, is exposed by United States Consul General Bowen at Bares-ions in a special report to the state de-pariment. This is what is known as the inclusif works, and the characters als partment. This is what is known as the "priost" swingle, and the characters al-ways are an intaginary political prisoner in a Spanish juil, his little daughter about to be left helphass by his approaching de-mise and a benevalent priost who is will-ing to envo for the child, and send or bring her to a relative in America. her to a relative in America-

The latter is the victim of the plot. First he receives a letter from the prisoner claiming to be his relative and praying him to care for his child. Then comes a letter from the priest announcing the prisoner's death, and stating that he will look after the child until money is sent to bring her to her alloged American rela-tive. The latter winds the money, and is next informed by the priest that he and the girl have been arrested in France while on their way to the United States. That is the last heard of the swindlers. Consul General Bowen says that there

are variations of this fraud, but most of them work successfully. So many inqui-ries have been made by the victims that he has been obliged to print a circular letter explaining the deception.
