NIAGARA FALLS IN HARNESS

The Great Power Company Starts Up Its Business.

POWER TRANSMITTED TO BUFFALO

Street Cars in That City Being Propelled by the Force of the Mighty Cataract. The Power to be Increased to Fifty Thousand Horse Power.

BUFFALO, Nov. 16.—At midnight the turning of a switch in the big power house at Niagara Falls completed a circuit which caused Niagara river to flow up hill, so to speak, by returning a fraction of its resistless energy, which had already swept past the gates of Buffalo, back into that city, twenty seven miles distance. The harness was buckled that hitches the factory wheels of Buffalo to the greatest cataraet on earth. This morning the street cars of this city started running by Falls power. Hereafter the Falls must work enough to earn their living.

The buckling of the harness could have been done as well twelve hours earlier, but owing to the fact that the father of William B. Rankine, of New York, secretary of the Niagara Falls Power company, is a clergyman, and in deference to his wishes the Niagara Falls power was not turned into the transmitting system at noon, as had been expected. The connections were made at midnight. The force of experts having the work in charge were busy all of Saturday night and until late last evening testing the various connections and going over the machinery to make sure that everything was in proper order. When everything was in readiness for the switch to be thrown open the electricians were confident that there need be no cessation of the current set flowing over the wires of the Buffalo Street railway system.

The distance covered by the line between Buffalo and the Falls is twenty-seven miles, and the expert electricians who have the work in charge estimate that the loss of energy will be less than 10 per cent, and may not much exceed 5. Careful tests are to be made in this connection, the tests covering both night and day in clear as well as rainy weather. The electricians are paying particular attention to this test as on the perfect insulation of the carrying line depends much of the future success of the undertaking.

The line that has been built to carry the current bearing wires is of a most substantial nature. Unlike the ordinary telegraph line, the poles are placed very close together, and are braced in such a manner as to be proof against heavy storms. At curves the poles are set double, and are stayed to numerous smaller poles to prevent sagging. The overhead line extends from the power house at the Falls to the city limits of Buffalo, where the wires enter cement conduits. On the overhead line glass insulators were found unequal to the strain, and porcelain insulators were made specially to hold the wires. These insulators were subjected to a current of 80,000 volts before being put in use.

There are at present on the poles eight cables each with a carrying capacity of 5,000 horse power, or 40,000 horse power in all. The poles are of such a substantial character, however, that this number of cables can be doubled without subjecting them to a greater strain than is considered safe.

The only contract made so far for the delivery of power in Buffalo by the power company is that with the Buffalo Street Railway company for 1,000 horse power. Under the contract with the city the completion of the undertaking of delivering power in Buffalo was not obligatory before next June. It was in order to secure the contract with the street railway company that the work was hurried through so far ahead of time. Contracts with others desiring to use the electrical power will now be made, and it is thought that by the opening of spring the power will be well distributed throughout the city.

Since the inception of the undertaking and during its carrying out the company have frequently called upon Messrs. Edison and Tesla for advice, and these famous masters of electricity have been frequent visitors to the Niagara Falls power house to solve technical problems.

The power will sell in Buffalo for \$36 a horse power per annum, and under its contract with the city the company must increase its capacity 10,000 horse power per year until the maximum of 50,000 horse power has been reached.

At Buffalo the switches in the street railway power house were turned on exactly at midnight by W. L. R. Emmert, chief engineer of the General Electric company. Mayor Jewett was present, and held the watch. Everything worked smoothly.

President-elect McKinley's Sunday.

CANTON, O., Nov. 16.—President-elect McKinley yesterday afternoon enjoyed a ride in the family carriage, accompanied by Webb C. Hayes, who was a guest at the McKinley home. Mr. Hayes accompanied Major McKinley to the First M. E. church in the morning, the son of the Ohio president and the president-elect walking to and from the place of worship. Major McKinley sat in the pew with his aged mother and his sister. He did not forget to call at his aged mother's home, and he also spent as much time as he could with his wife, whose health has improved considerably during the last few days.

THE BOGART TRIAL.

Several Townsmen Left To-day for Pittsburg to Attend It.

The trial of superintendent C. D. Bogart on the charges of rape and attempted rape made by James Smith, of town, on information alleged to have been received from one Clara Yates, of Knoxville, where Mr. Bogart was superintendent of schools before he became superintendent of the local schools, is fixed for to-morrow morning, at 10 o'clock, at Pittsburg. An array of counsel has been engaged by both sides. It is probable that the trial will be finished within two days.

The case naturally excites great interest here and several of our townsmen left town this morning to attend the trial, among them T. R. Leddall, Esq., T. M. Stout, W. T. Trezise and J. J. Price. The HERALD will be represented at the trial by C. T. Straughn and daily reports of the trial will be published by the paper, as well as a full stenographic report of the testimony and other proceedings as soon as a special stenographer engaged for the occasion can furnish it, so that the people of this town may have the full benefit of all that transpires at the trial.

Powder Mill Explosion, No Fatalities.

MAUCH CHUK, Pa., Nov. 16.—An explosion occurred Saturday afternoon at the New York Powder mills, located on the Nesquehoning branch of the Central Railroad of New Jersey, about three miles above here. The mixing department and the building in which the explosion occurred caught fire, and a spark flew into the powder, causing the explosion. Thomas Lager, one of the employes, and C. E. Clark, the superintendent, narrowly escaped with their lives. The property was damaged to the extent of about \$4,000.

Mine Fire at Shamokin.

SHAMOKIN, Pa., Nov. 16.—Fire was discovered in the Neilson shaft Friday afternoon in the counter gangway of No. 10 vein, and is still burning fiercely. It is believed the mine will have to be flooded, which will entail a great financial loss and throw between 700 and 800 people out of employment. The gangway was evidently fired by the explosion of a shot, and as soon as discovered an alarm was given. The colliery also closed down, and all the men and mules in the mine were hoisted out.

Warrant for a Hypnotist.

SCRANTON, Pa., Nov. 16.—A few days ago a company was organized in this city to give hypnotic performances. It is under the direction of Richard Bryant, of this city. One of its members is Sanford Engle, the 18-year-old son of Mr. and Mrs. Engle, of 109 Lackawanna avenue. The particular role which he is to play appears to be to lie in store windows while under the hypnotic influence. His parents' consent of this and notified Chief of Police Robling. A warrant was sworn out for the arrest of Mr. Bryant, charging him with enticing young Engle away.

Roasted to Death in an Ash Pit.

PHILADELPHIA, Nov. 16.—To escape the contents of an overturned boiler at another metal at the Midvale Steel works, James Stout leaped into a pit of red hot cinders and was literally roasted to death. Before he could be extricated from the bed of scorching cinders, his clothing was ignited, and he was only with great difficulty that the unfortunate man could be gotten out at all. Stout was a machinist, 35 years old.

Burglars Loot a Postoffice.

SEABREE, Pa., Nov. 16.—During the night a burglar blew open the safe in the postoffice at Glen Lyons and got away with about \$2,000 cash. They secured the tools used by breaking into a blacksmith shop, and entered the postoffice through the rear windows. Several families in the neighborhood of the postoffice were awakened by the noise of the explosion and some saw the burglars leaving the building.

Dan's Death Seriously Ill from a Freak Bet.

GREENSBORO, Pa., Nov. 16.—H. M. Baxter, of the city, made a wager on the election, James Dan, on Saturday night walked from seven miles to Greensville, a distance of only in his night clothes. He was overtaken with the cold and his feet were badly cut from the long walk. He is now lying seriously ill.

SEQUELS TO WEDDINGS!

Some Festivities Became Riotous and the Police Interfered.

LOCKUP FILLED WITH PRISONERS.

Eleven Men Were Gathered in at One Place and Seven More at Another—Dr. Stein Dressed Several Wounds Sustained at Some of the Jollifications.

There were no less than a dozen Polish and Lithuanian weddings in town since Friday night, last, and the police had their hands full in suppressing disturbances that followed some of them Saturday night and yesterday. The lockup is now filled with many of the men who participated in the festivities. At one wedding eleven men were taken into custody. Most of the arrests were made by Chief of Police Tosh and his force.

The principal case was in Malone's row on the rocks Saturday night. Two men who were in attendance were badly beaten and thrown down a long flight of steps. They were badly cut and otherwise injured, but made their way up town and made complaint to the Chief of Police, who went to the house with three of his men and found the celebration of a wedding going on at a riotous rate. Eleven of the men were taken into custody and marched to the lockup. Six of them were discharged upon paying the borough fine and costs and the rest are serving forty-eight hours.

Last night complaint was made by the residents of the vicinity of the corner of Poplar and West streets that they had been tormented by the celebration of a wedding, which had been in continual progress from Friday night and the church services in the neighborhood were disturbed by the recklessness of the festivities. Chief Tosh and his force went to the place and took seven men into custody. All paid the borough fine and costs and were discharged.

Dr. W. N. Stein was called upon last night to dress two victims of another wedding. One was Victor Hosenowicz, of 10 East Centre street. He had a cut on the forehead that laid the skull bare from the hair to the bridge of the nose. He also had a bad cut under the left eye. The latter cut was so severe that it exposed to view the working of the eye ball. Anthony Glatuski was arrested and put under bail for inflicting these injuries. The other victim was John Walski. He was unable to give much of an account of his case, but said that while he stood in an alley an unknown man brought down upon his head a large pitcher full of beer. The beverage drenched Walski's clothing and the pitcher was shattered. The pieces lacerated Walski's scalp so badly that Dr. Stein was obliged to put six stitches in it.

Officer Lee last night arrested Peter Shminkawicz for drunkenness and fighting on the streets. Peter paid the borough fine and costs and was discharged. The police had three additional drinks before the Chief Horses last night.

Obituary.

Frederick V. Heisenberger, aged 28 years, died at 7:45 o'clock Saturday evening at the residence of his father, Martin V. Heisenberger, on East Centre street, after an illness resulting from a cold contracted on the night of the fire of June 1st, 1895, when his father's and many neighboring properties were destroyed. For over a year past the deceased had been an invalid and was confined to his home. He was a single man. The cause of death is given as liver trouble. The deceased was well known and up to the time of his illness was one of the most prominent young men of the town. At the time the fire referred to occurred he conducted a dry goods business in one of his father's buildings. The funeral will take place from the residence of the parents, 35 East Centre street, at 9 o'clock to-morrow morning. High mass will be celebrated in the German Roman Catholic church and the remains will be interred in the Annunciation cemetery.

On The Gridiron.

The foot ball game at the Trotting park on Saturday did not come off, the Mahanoy City team failing to appear. They took the cold shoulder by sending a telegram that the weather was not favorable enough and that they had disbanded the evening before.

In the game at the Mahanoy City park yesterday afternoon between the Tigers, of that place, and the Lions, of the First ward, the score resulted in a victory for the home team by a score of 8 to 0.
