A WRECK AT DELANO.

Fifteen Coal Cars Wrecked By a Broken Axle.

There was a wreck on the Lehigh Valley railroad at Delano at 7:59 o'clock this morning by which fifteen coal cars were piled up. The train was made up in the yard below the station. Just after starting and when opposite the dispatcher's office the axle of a car broke and fifteen of the cars left the track. The train was on a heavy grade and had attained considerable speed. The cars that left the track were piled up in such a manner as to block both tracks for half an hour. Several of the cars were smashed, but no one was injured. The wreck crew cleared one of the tracks and passenger train traffic was not interfered with. The main line was cleared by 11 o'clock. Several yards of the tracks were torn up by the derided cars.
