

Laurada Filibusters.

The Case Against Dr. Emilio Nunez and Captain Diokman.

AN INFORMER GIVES TESTIMONY.

He Declares He Drilled the Cuban Recruits in the Hold of the Vessel, Which Finally Landed Men and Munitions of War in Cuba.

NEW YORK, Nov. 19.—Evidence was heard in the United States district court yesterday to establish the warlike character of the expedition to Cuba which was dispatched from this port on board the steamer Laurada by Dr. Emilio Nunez and others of the Cuban junta. The principal witness was James Quinn, of Boston, who sailed on the expedition of May 9. He testified that he saw arms and ammunition distributed to men on board the Laurada while at sea, and that for two days he drilled the men in the forward hold of the steamer, his commands being translated into Spanish. Objection being made to this method of drilling, Captain Tyrrell, an American, undertook to put the men through the manual of arms. Quinn testified to other details of the voyage and to the landing of the men and munitions on the island of Cuba.

As previous trials of alleged Cuban filibusters have resulted in acquittal owing to the failure of the prosecution to show that the vessel engaged for the expedition was provided with arms, the evidence of Quinn is of vital importance, unless the defense shall be able to impeach it.

The cross-examination of Quinn was directed towards showing that the witness had been in communication with a detective agency employed by Spanish agents to procure evidence against alleged filibusters. He denied that he had taken any oath to support the cause of the Cuban insurgents. Another witness, a sailor named Weinman, gave testimony in confirmation of Quinn's.

REPROBATES THEIR CONDUCT.

But Careless Naval Officers Will Not be Court-Martialed.

WASHINGTON, Nov. 19.—Secretary Herbert has received and approved the report of the court of inquiry which investigated the serious accident at the New York navy yard on May 1 last, when a collision of dread No. 2 gave way and caused much damage to warships and surrounding shipping. The report recommends that Civil Engineer A. G. Monceel, U. S. N., be court-martialed on the ground "that he was careless and inefficient in the performance of duty." It also recommends the court-martial of Civil Engineer U. S. G. White, U. S. N., on the ground that he was careless and neglected his duty. Secretary Herbert upholds the action of the board. He says, however, in view of the long service of these officers, he will not order a court-martial, "but reprobates their conduct."

Secretary Herbert in passing on the report has written letters to Messrs. Monceel and White of substantially the same character. The letter to Mr. Monceel says the testimony justified the conclusions of the court. Mr. Herbert adds: "It is clear, beyond any doubt, that the accident occurred because of the removal of the weights from the caisson. It seems also to be perfectly clear that the science of engineering cannot be so defective as to justify an officer of your long standing and varied experience in making a mistake about a matter so entirely within the lines of ordinary transactions as was this. Civil engineers are selected and commissioned because of their superior knowledge of just such subjects matter. The injuries resulting from your want of the knowledge of which you ought to have possessed yourself before acting are chargeable to you."

At the Religious Congress.

INDIANAPOLIS, Nov. 19.—Yesterday afternoon's session of the congress of religions was taken up entirely with the discussion of the subject "The Sympathy of Religions and the Fraternity of the Sons." Buckley of Chicago, representing the Unitarians; Dharmapala of India, who gave "Buddha's Message to the World"; Miss Helen R. Lang of Indianapolis, who made a plea for warmer sympathy between Christian and Jew. Other talks were by Rev. Mr. Bada, Rev. J. A. Hiltner, Bhodabiksha, a Brahman from India, and President Thomas, of the congress.

An International Controversy.

CINCINNATI, Nov. 19.—Lucas Reimer, of Covington, Ky., is about to become an object of international attention. He was born in Germany, but came to the United States at the age of 14, and has for several years been a naturalized citizen. Recently, on his way to South Africa, he stopped at Schramberg, Germany, and on Nov. 3 wrote to his cousin in Covington saying the German authorities are trying to force him into the army. He begs his friends here to lay the matter before the secretary of state and says he will appeal to the United States consul at Stuttgart. His relatives will appeal to Secretary Olney.

Coal Miners' Strike Imminent.

MONONGAHELA, Pa., Nov. 19.—The delegate convention of the Monongahela river miners convened in Taylor's Hall here yesterday. The meeting was called by the unorganized miners of the fourth pool for the purpose of demanding an advance in the price of mining. A resolution was adopted demanding the restoration of the old rate of \$2.00 per 100 bushels in all the river mines except in the fourth pool, where the old rate of \$1.16 is demanded. A committee of five was appointed to hold a conference with the operators in Pittsburgh tomorrow. Should the operators refuse to restore the old rate a general strike will be ordered.

INSURGENT VICTORY.

A Cheering Report from Cuba Via Tampa, Fla.

GENERAL WEYLER'S MOVEMENTS.

The Refugees of the Spanish Officials Regarding Their Chief Gives Color to the Report That He Has Met with Reverses at the Hands of Maceo's Forces.
TAMPA, Fla., Nov. 19.—Cuban leaders here yesterday received information that the insurgents have just won one of the most important battles fought on the island during the progress of the war. The battle was in Pinar del Rio, but no details are known. Cuban heroes rejoicing as this is the first real battle since Weyler took the field.

WEYLER MAKES NO HEADWAY.

Facts which indicate the Truth of Reported Insurgent Success.
HAYAMA, Nov. 19.—Very little news regarding Captain General Weyler's operations against the insurgents in the province of Pinar del Rio, is allowed to leak out from the palace. This reticence is encouraging to those who secretly espouse the cause of the insurgents, and a report that has been quietly circulated, alleging a defeat for Weyler's forces, is credited.

Major Bazan, of the Spanish command's staff, arrived here yesterday from the front. He says that the operations are most difficult, and adds that the captain general slept away many nights on the ground and without blankets, and that he has been several times without meals.

In spite of the fact that the weather has greatly improved in Pinar del Rio, and that the authorities assert that the health of the troops in the field shows improvement, 1,000 sick men have recently arrived here.

The following persons have been arrested on the charge of conspiracy with the insurgents: Miguel Coimbra, Ventura Forrer, Manuel Gomez, Rafael Arango, Pablo Rivera, Felix Martin, Victor Planas, Oscar Romero and Teodoro Ocasio.

The insurgents are said to have fourteen factories in operation between Soron and Caguama in Pinar del Rio. Numerous reports are received of scarcity of food and clothing. The constant rifle volleys which have been heard since the invasion of Pinar del Rio by Captain General Weyler have frightened the cattle, and they have hidden in the mountains, where it is difficult to secure them for food.

The police, by forming an ambush, succeeded in surprising a party in the Avenue Infante on the outskirts of the city, who were preparing to join the insurgents. Two of the party were killed, but two succeeded in escaping. A policeman was wounded in the midst.
