Evening Herald

FRIDAY, NOVEMBER 20, 1896.

How many appointments for J. P. does Senator Lisch expect to get from a Governor who aspires to the U. S. Senate when he advocates an opponent for that office.

UNCLE SAM'S big guns, which he is planting at his doorways, are big enough to give any of his neighbors who endeavor to come in on hostile intent a pretty hot welcome.

THE prompt indications are that the speakership of the house of Representatives has been prevented by Henry K. Beyer and that the country members started too late in the race to get there.

DURING the first 20 months the McKinley tariff law was in effect the customs receipts were \$413,947,451 while in the first 20 months of the Wilson law they were \$328,153,003—a decrease of \$75,794,448—Is it any surprise a change was made?

THAT eminent Mugwump newspaper, Harpers Weekly, expresses itself unreservedly on Altgeld. It says that "upon the whole he has been quite the most dangerous of all the ruffianly gang which has broken out of the forecastle of the ship of state and attempted to occupy the quarter-deck and seize the helm."

SENATOR QUAY'S name is being coupled with the Secretaryship of the Navy under the McKinley administration. Should he accept it there is a possibility that this great natural advantage of Lehigh Island as a navy yard would receive the attention they deserve. It is by all odds the best location in the country but has been passed over to spend money on other yards more favored by those in authority.

SHENANDOOH is sharing with the larger cities the good fortune of having a chrysanthemum show. The exhibit at 19 South Main street presents a beautiful picture which has aroused great interest. It is certainly the finest floral exhibit that has ever been seen in the town. There is a grand array of plants, orchids and smaller pot-plant.

The great changes in the management of the Philadelphia and Reading railway which the newspapers have been prophesying have not materialized, and the selection of the officers who have been at the helm for several years past is strong confirmation of their work by the present owners of this vast property. Schuylkill people are greatly interested in this corporation, more so than the residents of any other county in the state and it is to be hoped it will be a fair way to attain that prosperity which, owing to adverse circumstances has been so long denied it.

THE candidacy of Hon. Boies Penrose for the U. S. Senate is meeting with a great deal of favor with Republican newspapers. His services in the state senate are highly commended and his opponents find little to criticize in his brilliant record. The men who bear the brunt of the battle in Schuylkill county, with very few exceptions, are with him, the protestations of dissenting newspapers to the contrary notwithstanding and it is misrepresenting public sentiment to declare otherwise, and the Schuylkill delegation, with the exception of Senator Lisch, are reported to be among his staunch supporters.

The bald-headed statesman from Schuylkill Haven holds up steadily as an advocate of Hon. John W. Wanner's election to succeed J. Don Cameron and has had himself interviewed upon the subject promptly. We are largely prepared to swallow all the Hon. Sam says on the subject as we know there is a strong sentiment for Penrose in his bailiwick, and that the workers are all among his supporters. As the bald-headed statesman is reported to have made some pretty strong promises which he started his canvass last evening we are inclined very readily to believe if coupled with his satanic majesty we will, when he is so reported to speak, see the sickness passed away, forget all his misadventures, look to a Senator for aid and appear, like Rip Van Winkle, his promises don't count.

The weather and business beginning to assume as it should boom, the retail trade is rapidly increasing, as is evidenced by the unusual crowds that are thronging the principal stores. It is also very noticeable that the dealers who make it a rule the year round to keep themselves and their business before the public are the ones who are and have been getting the lion's share of the traffic, which is only a natural result. It has been clearly demonstrated in thousands of cases in the past, and is today receiving unequivocal endorsement here and wherever it is being practiced. The art of advertising has been brought very near to perfection, splendid specimens of it are constantly to be found in the columns of the newspapers. An apt pupil will need no other text than those readily readable announcements. It is not surprising that in a great many families they are regarded as of more immediate importance than the current topics of the day, especially by the ladies, who do the principal part of the shopping. A second notice in the feature of advertising is the channel or channels through which the advertiser communicates with the public. There are family papers the arrival of which are eagerly awaited or morning or evening, and the columns which are carefully scanned, the

advertisements being of course included. We will be pardoned for saying that the Herald is one of these indispensable, and is therefore to be regarded as a first-class medium of communication with the public. It has always been so regarded, and never more so than at present. We invite the special attention of advertisers of all classes to the fact.

MARANOH CITY.

To-morrow will be pay day at the P. & R. collieries in this district, but the amount to be paid out will be small on account of time lost by reason of the heavy rains which drowned out the collieries.

The Junior class of the High School was pleasantly entertained last evening by Miss Alice Kuchan, at her home on East Centre street.

Michael Bradley, inside foreman at the Elmwood colliery, has been notified of the death of his father, at Forrestville. The deceased was 70 years of age.

The ladies of the Methodist Episcopal church gave a Try social and raised \$30 additional towards clearing the debt of the church. They had previously raised \$103. Shenandooch foot ball team will play a game here to-morrow.

The recent changes in the schedules of the U. V. R. have played havoc with the mail facilities of this place. A letter mailed here in the morning does not reach Cokesburg, eight miles distant, until the following day. John Burke and William Trickett, of Shenandooch, were visitors to town last night.

The wife of Hon. E. A. Griffiths gave birth to a daughter this morning.

The Elite Social Club held its weekly dance last night. A number of Shenandooch people were in attendance.

Is He a Desperate Fugitive.

Two Hazleton men tell of a thrilling experience they had Wednesday night. They were returning from a business visit to Luck Mountain and carried a carload of money. Everything went lovely until they arrived at the most dismal point of the journey on the mountain, midway between Lofly and Delano. Caring along the mountain side for a perfect view of the landscape they observed at a great distance from the main pike what they thought was the outstretched form of a dead man. They thought it heartless to pass without making an inspection, and the team was stopped for a moment. Cautiously one of the men stepped towards the seemingly dead form, but it was not long before the pair had their ideas changed. At the sound of their footsteps he arose to a sitting posture, and before they had gone another step a pair of revolvers were in readiness for their reception. In a rough, unattractive voice he asked their mission in broken English, and by explaining it they were allowed to retreat unharmed. The fellow is described as wearing a stubble beard and comfortable clothing, the former adding to his hostile appearance. He is thought to be an Italian fugitive from justice, who committed some crime in another part of the world, and drifted into these wild woods to evade the law. He has been seen before near the precise spot, and his treacherous, rolling eyes certainly forebode no good in that remote territory.

I would not think of getting along in my home without it." Pain Balm also cures rheumatism, sprains and bruises. For sale at 25 and 50 cents per bottle by Grubler Bros., druggists.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed in the spring, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, indigestion, constipation, dizziness yield to Electric Bitters. Only fifty cents per bottle at A. Wasley's drug store.

FOR

that sour stomach use Stuart's Dyspepsia Tablets, because they digest the food before it has time to sour, ferment and poison the blood.

FOR loss of appetite take Stuart's Dyspepsia Tablets, because food promptly digested creates a natural desire for more.

FOR loss of flesh, use Stuart's Dyspepsia Tablets; they increase flesh in the only common sense way, that is, by digesting food-forming food, and assisting the weak stomach in disposing of it.

FOR distress in stomach and bowels, causing flatulency, belching and headaches, use Stuart's Dyspepsia Tablets; always indicated in such diseases.

FOR palpitation of the heart use Stuart's Dyspepsia Tablets because this symptom in nine out of ten cases is caused from a disordered stomach.

FOR impure blood use Stuart's Dyspepsia Tablets; pure blood can only result from wholesome food thoroughly digested.

FOR every form of weak digestion and stomach trouble (except cancer of the stomach) Stuart's Dyspepsia Tablets is the safest, most natural, most successful cure. No patent medicine, but composed of digestive acids, pepsin, bismuth, Golden Seal and similar valuable stomach remedies.

FOR sale by druggists at 50c for full size package, or by mail from Stuart Co., Marshall, Mich. Kindly ask your druggist first.

Latest articles from Manila state that the Philippine Islands would still hold the district near Manila, and that the Spanish forces are on the defensive in the Cavite provinces.

During several years residence in the far west, I had many opportunities for observing the wonderful effects of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Its efficacy was demonstrated in the alkali regions, where the water produces violent purging. It allayed the attack when all other remedies failed. I repeatedly saw the greatest distress and diarrhea cured in a few minutes. I used the remedy myself with the most satisfactory results, and can recommend it for the complaints for which it is indicated. H. Y. GILBERTSON, editor of the Republican, Phoenixville, Pa. This remedy is for sale by Grubler Bros., druggists.

Why Banzer Failed Decamped.

CLAREMONT, N. H., Nov. 20.—The banker, John L. Farwell, of the Stillman County Institution for Savings has gone to Europe and has left \$1,000,000 of largely depreciated or worthless paper behind him. Mr. Farwell had money for a large number of deposits and investors, and the cash, it is said, was sunk in worthless investments in western land and stock speculation. The bank was closed recently by the commissioners.

ONE DISEASE AND ONE REMEDY.

"The art of painting," said Millais, "consists in selecting the right colors and putting them in the right place."—"The way to win a battle," said Napoleon, "is to mass your troops at the critical moment against the weakest spot in the enemy's line."—"The way to cure many ailments," said the great Dr. Abercrombie, "is to purify the poisoned spring in which they arise; generally the torpid and inflamed digestive system."

Thus wisdom and experience simplify and condense. Thus the Shakers of Mount Lebanon reasoned when they sought, and finally found, a remedy for indigestion and dyspepsia. Where one person has something else, they argued, a thousand have this. To cure this alone will almost rid the world of sickness. Why should we vex ourselves with confusing definitions? A good digestion is life and health; a bad one disease and death. Hence, from the healing and stimulating mountain herbs, they extracted the principles which make the Shaker Digestive Cordial the rarest and most effective of medicines for one disease, and one only—indigestion and dyspepsia.

Do you suffer from any of these miserable feelings?—depression of spirits, heaviness and pain in the stomach after meals, bad taste in the mouth, wind in the bowels, irritable disposition, nervous weakness and alarm, worry and weariness, coarseness or irregularity of the bowels, nausea, palpitation, sick headache, heartburn, loss of appetite and sleep, dry skin, etc.—?

Don't indulge in fifty foolish fancies. You have indigestion and dyspepsia and nothing else. Set the disordered stomach right with the one medicine which will surely do it. Shaker Digestive Cordial, and these symptoms will vanish with their cause. A good effect will follow the first doses. Even chronic cases soon yield.

Test the cordial, at practically no cost, by taking a ten-cent trial bottle. For sale by nearly all druggists.

RADICAL EX-MINISTER CURRY.

He Objects to the Stars and Stripes Floating Over Schoolhouses.

RALEIGH, N. C., Nov. 20.—Dr. Curry, ex-minister to Spain and trustee of the Peabody and Slater funds, made an address yesterday before the colored students of Shaw university here, in which he used this rather startling language:

"I don't believe much in the idea of having the United States flag over our schools. I'd like to know what the United States government has done for our public schools in North Carolina to demand that the flag should hang over them. It never gave a cent to North Carolina schools except to the A. and M. colleges. It is a deception and a fraud to put the flag there. It is the state that gives you education."

Speaking of the negro he said: "I never could understand why the negro population remains so compact in the south instead of becoming scattered all over the Union. The northern men freed the negro. Why is it the negro does not go north, to be with his friends, instead of staying in the south among his enemy?"

As to suffrage, Dr. Curry said: "I don't believe a man who cannot read his ballot ought to be allowed to put it into the box."

Death of Mrs. Scott-Siddons.

LONDON, Nov. 20.—French newspapers at hand state that Mrs. Scott-Siddons, famous a number of years ago as a dramatic reader, died there last week and that her body was shipped to New York on Tuesday. She had lived abroad in the latter years of her life in broken health. Mrs. Scott-Siddons was a great-granddaughter of the great Sarah Siddons. She began her career on the stage in London in 1827, giving readings from Shakespeare's plays in the Hanover square room, and later on made her first appearance upon the regular stage at the Haymarket theater. She first went to the United States in 1838, when she acted in the Fifth Avenue theater.

Marvelous Results.

From a letter written by Rev. J. Gundersman, of Dismal, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were most marvelous in the case of my wife. While I was pastor of the Baptist church at River Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at A. Wasley's drug store. Regular size 50c and \$1.00.

Ministers Should Use Dr. Miles' Heart Cure.

THERE IS NO PROFESSION, whose labors so severely tax the nervous system, as that of the ministry. The overwork of the nerve centers of the brain by over work, frequently brings on attacks of heart trouble, and nervous prostration.

Rev. J. P. Koster, M. D., Pastor U. B. church, London Mills, Ill., himself a physician, writes Feb. 23, 1893: "Heart affection and nervous prostration had become so serious last fall that a little over work in the pulpit would so completely prostrate me that it seemed certain I must relinquish the work of the ministry entirely. Heart palpitation became so bad that my auditors would ask me if I did not have heart disease. Last November I commenced taking Dr. Miles' New Heart Cure alternately with Dr. Miles' Nervine and derived the greatest possible benefit. I have just closed revival work of 30 weeks, preaching nearly every night and twice on the Sabbath. I can speak for hours without suffering as I formerly did. Hard working ministers should keep Dr. Miles' grand remedies on hand."

Dr. Miles' Heart Cure is sold on guarantee, first bottle will benefit or money refunded.
